

Editorial Notes.

Although the cholera seems to be dying out at the present time to some extent in Europe, still medical men claim it is but a lull before the storm which is bound to come next year.

Lab where says in Truth:—"I see it stated that at the Church Missionary Society has expended in thirty-three years upward of £120,000 on 'missions' to Jews and Mohammedans in Palestine without making a single convert."

Government insurance is again mooted as a matter likely to claim the attention of Parliament. Sir Leonard Tilley is reported to have said that although it has not yet come before the Cabinet, it is within the range of probability that it will be brought up in the House next session.

The Registrar-General's returns of the births, deaths, and marriages, in Ireland, during the decade of 1870-80, shows that during 10 years no less than 622,933 emigrants left the country a terrible significant fact when it is remembered that the total population of Ireland is under 5,000,000 the ratio during the decade of emigration to population in England was 4.0, in Scotland 4.7, in Ireland 10.2.

A clear head is indicative of good health and regular habits. When the body feels heavy and languid, and the mind works sluggishly, Ayer's Cathartic Pills will wonderfully assist to a recovery of physical buoyancy and mental vigor.

Another year has now nearly passed and the time for elections etc., is near at hand. We are pleased to observe so keen an interest taken in the matter.
