**C. T. U.**  
The regular fortnightly meeting of the W. C. T. U. was held on Thursday Dec. 6th. After devotional exercises the minutes of last meeting were read and adopted. The treasurer was then called upon for a statement and reported the Band of Hope concert as being a success financially, after paying all the expenses connected with it, including balance of \$15.00 on the organ, the amount on hand was \$10.00. The collection on the night of the lecture was also a liberal one, being a little more than \$15.00. It was then moved that a vote of thanks be tendered the Rev. D. C. Johnson for his kindness in communicating with the Rev. W. A. McKay, in regard to said lecture. The president read a few well-chosen extracts from the annual report, after which the meeting was asked to consider whether or not it would be better to hold the meetings during the next six weeks in the evening instead of as at present in the afternoon. The majority being in favor of evening meetings, a committee was appointed to make all necessary arrangements for carrying out this plan. Should these arrangements prove satisfactory, due notice of the change of hour will be given in the different churches.—[Press Com.]

**The Municipal Election.**  
Speculation is rife as to the candidates for the coming Reeveship election. We understand an effort is to be made to change the entire council this year if possible, but it is doubtful if those having the matter in hand will succeed. We are by no means adverse to change, in fact, we have always maintained that such should be if possible, but as the saying is "circumstances alter cases" and so it is with us. Good men are at present in position who have learned the routine of the work and have conscientiously given their attention to the public business, while nothing can be urged against them, then why not continue them if they are willing to permit it. We would say no better men can be got than those who constitute the council of 1888. We do not know that any of them will be in the field or that they would desire re-election, but should they do so, the citizens should not overlook the few facts which we have pointed out above.

On Saturday morning about five o'clock the alarm of fire was rung and the citizens turning out it was discovered that the fine large grain house owned by the Messrs. Bruce was on fire and that a good space of time it was consumed and with it a large quantity of grain. The origin of the fire is not known, but circumstances of a very suspicious nature point to a case of incendiarism. Both the building and contents had insurance to the value of \$2,000 upon it, but in spite of this, the loss will be heavy. The destruction of the grain house will be a source of loss to the entire community and it is too bad the guilty party or parties cannot be detected.
