The Twentieth Century

When will the twentieth century begin? -Mr. R Blain is home from Edmonton Why there should be different answers to this question is a little puzzling to know.

A few fundamental facts disposed of cught easily to settle the controversy. Of f course, the first century began with the year 1, and closed with the year 100. The second century, then, began with the year 101, and closed with the year 200. Now, following this method to the present time, there can be but one answer to the above question. The nineteenth century closes with the year 1900, and the vear 1900 closes -Mrs. and Miss Scott, of Toronto, are the guests of Mrs. Lester McDonnell Coulter.

-Mr. Frank Mallett of Park, Blackwell & Co., Toronto, was at home for a couple of days last week.

With the year 1500, and the tear 1500 closes. December 31. Immediately after midnight, therefore, of December 31, 1900, is when the twentieth century begins. In other words, it begins with the first second of the first hour of the first day of January, 1901.
