The manoeuvre was a complete success. The British shells were the ROBT CHAMBERS success. The British shells were the first indication of the presence of the troops. The Boers left their laager and opened fire, but the Queenslanders, completing the movement, the laager was captured, with 40 pri-

CANADIANS AT MODDER RIVER.

British War Correspondent Bestows High Praise on Them.

London, Jan. 3 .- In yesterday's issue of The Daily News a letter is published from its Orange River correspondent, who says that the Canadians arrived on the morning of the departure of the Australians. They swore mightily in two languages on discovering that they were to detrain at the Orange River instead of proceeding directly to the front.

One man on fatigue duty with the Canadians was pointed out as a part owner of a large line of Atlantic steamers, and another, at the time engaged arguing a point with a refractory mule, as nearly worth a million dollars.

The medals to be distributed in Quebec will be dealt with after the Ontario are sent out, and so on to the coast. There is still a large pile of unconsidered claims.
