PILKIE WILL GET INJUNCTION AGAINST BUILDING THE WALKS

If Mr. Pilkie's opinion is correct, the walks provided for in

On Monday Mr. Pilkie said to the Watchman-Warder : "Walks

Mr. J. J. Miller's contract would be no good; and if he carries

built according to the specifications on which it is proposed to

build next summer's will not stand. It is not possible to build

good walks according to them. If it had been I would have ten-

dered for the contract; but I k new that walks built as these

are to be could not last, and I would not build them to go to

pieces. The specifications call for 7 parts of lake shore gravel,

2 of sand and 1 of cement. That mixture will not make a

durable walk. So sure am I that it will not, that I will not

stand by and see that large amount of walks made of it. I shall

as a private citizen get out an injunction forbidding the work

until council gets a capable man to report on the whole matter."

(Continued on Page 2.)

There are almost as many different kinds and qualities of Furs as there are different kinds of People. Furs are not like Clothes, there are no two garments exactly alike, and for this reason, the price necessarily varies. It is therefor important to buy Furs directly from the Manufacturer and only from houses of unquestioned reputation for honorable dealings in whom you can place implicit confidence.

A skin to be graded No. 1 must be full prime winter caught. We usually cok to the fullness or compactness of the For, the larger number of bairs to the square inch as the first essential of good qu lity; next in sequence of selection comes the character. aSoftness, texture and flexibility of the Fur; good dressingeor tanning as well as dyeing are also essential to produce good garments. It is only after many years of experien le that one may become conversant with their several properties and values, and is able to judge the same properly.

## oncentration Leads to Success

Everything in Furs find representation in our line, nothing else. We devote time and energy to one business, manufacturing Furs and selling directly to the consumer at manufacturers' prices. The manufold advantages accruing from this are readily apparent. Our patrons are assured the benefit of first cost for superior qualities and exclusive styles, advantages which cannot be obtained in dealing with houses that handle everything in general and nothing in particular.

New Styles for Season 1902-1903 are now in stock. Janniy Short Jackets, Smart Collarettes, Comfortable Fur Scarfs, Warm Pur Lived Guntlets, Good Generous Muffs, Fur incd Capes, Storm Collars etc.
