About a year ago the public was told that our Optical Department would be in charge of one of Toronto's Most Eminent Specialists, and that he would stay with us until we thoroughly understood his method of measuring the errors of Refraction by LOOKING INTO THE EYE.

Judging from the notable growth in this part of our business during the last year the expense we went to at that time has been appreciated by the public. By this method have had wonderful success in the curing of headaches and nervousness, the relief of eye strain and the straightening of cross eyes in children. If you are in need of help for your eyes I urge and request you not to put it off until it is too late, but come now, and you may receive a benefit, not for a day or a month, but perhaps for a lifetime. In my Optical Parlor I conduct Free Testing every day, and appointments can be made for the evening.

Thanking the public again for their liberal patronage, I remain,
