PURNING TO STONE.

This is the terrible fate that is gradually befalling a woman of Meriden, Conn. Her lower limbs are petrified and her arms are becoming migid and stay in a fixed position acress her chest. Her mind is clear, but her voice has failed, and only er husband and the nurses can un derstand the sounds she utters. Some specialists believe the patient suffers from a kind of rheumatism. She has been ill for years.

CAPACITY OF COAL BIN.

A cubic foot of fair anthracite coal weighs 58 to 60 pounds. In order to ascertain how much coal a bin will contain, finds its cubic contents in feet by multiplying together its length, width and height, expressed in feet. Then multiply this product by 58 or 60, and the result will be the number of pounds of coal the bin will contain. Divide this last result by 2,000 to get the number of \$3.75; sheep, mixed, \$5.75 to \$6. tons, since there are 2,000 pounds
