## OLD COUNCIL MAY HAVE TO PAY LAST YEAR'S \$3000 DEFICIT

If The People Refuse to Issue Debentures For it, the old Council will be Personally Liable

## SO SAYS THE MAYOR

## The Sanitary Inspector was Made Inspector of Plumbing at \$75 a Year—The Public Library Site Again

There will be a deficit of \$3000 left by last year's council. This council will not assume it. I propose to submit a by-law to issue debentures for it; if the people vote that by-law down, I shall hold the members of last year's council personally responsible for the whole amount, for they are liable by law."

By spring words did mayor Sootheran bring a sensation of the first night's committee meeting. In them did he set forth a policy that promises to be interesting enough to its out-working—and especially so to the members of last year's council.

Messrs. Keyes and Morrison asked that an inspector of plumbing be appointed. Sanitary Inspector Douglas got the job at \$75 a year. He has been a locomotive engineer and those aldermen who wanted his pay raised at the previous meeting evidently thought his experience on the rail eminently qualified him to judge plumbing jobs. At all events the position would bring him the \$75 extra he should be getting as sanitary inspector. Ald. O'Reilly wanted him paid \$1 a service inspector, for the town got only \$50 for plumbing permits last year and he did not want more paid for the job than it brought the town. Only Ald. Robinson and McCrae agreed with him.

## THE PUBLIC LIBRARY SITE

Mr. W. Flavelle and Rev. J. W. Macmillan appeared in behalf of the Library Board to ask again for a library site. Mayor Sootheran suggested the town's lot opposite the little park. More land adjoining could be got for \$20 a foot. That side of the street wanted building up.

Mr. Flavelle—Such buildings as the library should not be placed anywhere just for the sake of building that section up.

Ald. O'Reilly—If we use that, we shall only have to buy another.

Mayor Sootheran—The sooner we get another place for a rubbish pile, the better.

Ald. O'Reilly—That site is so near the railway that the library window could not be opened.

Mr. Flavelle—Could it not be put on the park?

Mayor Sootheran—There is a legal opinion against our giving the park for that purpose. Then, we shall I hope need that room for market purposes. I was in Peterboro the other day, and they have a great market there. Ours will be bigger as the town grows.

Ald. Cinnamon—I do not see how the growth of the town will increase the market; it is the country that makes the market.

Ald. O'Reilly—We cannot have a market like Peterboro's; our by-law was made before the statute regarding free markets was made. Here people can sell their stuff anywhere in Peterboro they must go onto the market.

Mayor Sootheran—We can get the law changed.

Ald. O'Reilly—The farmers would object. The ground will never likely be needed for market purposes, and if not, the library may as well be built on it.

Mayor Sootheran—We must take steps to see that it is needed for a market.

Ald. Robinson—Why not build on the big park? If built on the south west corner the library would be in line with Gilligly's terrace and make the western border of the park straight.

Ald. O'Reilly—That would be out of the way.

Ald. McWatters—Is there no way the money to buy a site could be raised?

Mayor Sootheran—We could take another vote on it.

Ald. McWatters—It would be voted down unless an option of sites was included.

## A NEW SORT OF CHEESE

May be Made in the Factories of this County—A Fancy Article

## MR. HALL FOR INSPECTOR

## The Allowance for Shrinkage in Fall Cheese May be Cut off by the Salesmen

The annual meeting of the Victoria County Cheese Board was held in the council chamber on Monday forenoon. Pres. Robertson and Messrs. Taylor Parkin, D. Sinclair, E. Shine, R. P. Hill, J. Akister, John Kennedy, J. Bick, Staples, Geo. Rae, Geo. Nugent and Inspector Hall were in attendance. Mr. Taylor was chairman.

THE PRESIDENT'S REPORT

Pres. Robertson read his report. He had hoped 7 years ago that the cheese industry would be better here by this time than it was; but it had done very well in both quantity and quality. In 1895, 17 factories made 9369 cheese; last year 15 factories sold 17537 at an average price of 9 1/2-16 cents. Verulam was the leader. The townships had done as follows:

Verulam 7489 boxes, Fenslon 1916, Ops 2812, Palestine 752, Emily 2703, Janetville 578.

At the recent Eastern Dairyman's Association convention, Pres. Derbyshire said that last year Canada had exported 2 1/2 million cheese worth 21 (Continued on Page 9)

## MARKET PARK HAS BEEN GIVEN FOR PUBLIC LIBRARY BUILDING

The Long-Discussed Question Was Settled at Monday's Council Meeting

LEGISLATION IF NEEDED

Ald. Robinson Stands Alone Against The Sacrifice of The Market Square

The public library site has been selected at last—as far as the council is concerned at any rate. At Monday night's meeting a resolution was adopted instructing the town solicitor to take the necessary steps to hand over a part of the market park to the library board as a site for the proposed new building. Council sat from 7.45 to 10.25 and considered a good deal of business. Under Mayor Sootheran's strong direction this council gives promise of being a very capable body.

THE LETTERS

S. R. Armstrong wrote that a meeting of the Trent Valley Waterways Association would be held in Peterboro on Feb. 16th. G. H. Hopkins, secretary of the water commission enclosed a letter from Supt. Begbie complaining that the town overseer had exposed a water box against which a runaway horse wrecked a cutter.

The Federation of Labor asked that the committee meetings of council be held in the chamber instead of the clerk's office.

Mr. Chamberlain of Toronto sent a bill of \$10 as threatened, for his trip down about the Chalmers' investigation.

T. C. Matchett protested against a tax on personality at his office.

W. Foley offered to act as sanitary inspector for \$200.

Rev. J. W. Macmillan's resignation as school trustee was accepted with regrets.

The sanitary inspector said he would have to close up the new public closets at the market. But the mayor said the Board of Health had that day decided that proper ventilation would satisfy the law.

Mr. Hopkins wrote that if a test of the street light is made it should have no regard to the reflectors.

Rider and Kitchener sent a declaration showing that they had employed the required number of men and paid a wage of \$7002—a bigger wage than required by the agreement with the town.

The market clerk got \$59.05 weighing fees and \$23.22 in market tolls.

The auditor's report said that more tax exemptions had been allowed on the roll than had been ordered; that a better method of keeping track of town material was needed; that the amount of unpaid accounts should be

## REV. MACMILLAN DID NOT CALL LINDSAY ONTARIO'S HELL SPOT

The Statement of a Winnipeg Paper was Wholly Unfounded

The Rev. J. W. Macmillan, of Lindsay, who has accepted a call to Winnipeg, Man., said in his sermon of two weeks ago that Lindsay was the hell spot of the province.
