TO IMPROVE THE FALL FAIR SYSTEM.

LEGISLATURE MAY RECOGNIZE ONLY COUNTY FAIRS, AND CLOSE SMALL TOWNSHIP SHOWS.

The approaching session of the Legislature, called for the 15th of this month, gives promise of developing a lively public interest, both from the number of Government measures which are in course of preparation and the vital importance to the community of the matters with which several of these measures propose to deal.

Over \$80,000 is distributed yearly by the Province in assisting these exhibitions, considerably larger relatively than the contribution which any other country makes for this purpose.

There never has been any serious danger of this sum being diminished. The present Minister of Agriculture has shown a disposition, however, to examine with some care into the effectiveness of these grants.

There would appear to be no two opinions in disinterested quarters as to the urgent necessity of a thorough overhauling. Over 445 township and district fairs are annually held, and with this multiplicity of cultural exhibitions.

The Act itself is responsible for this anomalous condition of affairs. According to its provisions the Province is divided into ridings without reference to the purpose in view, and to each of these geographical divisions a grant of \$800 is made.

No discretion is exercised in distributing these appropriations, the only restrictions upon the mathematical nature of the transaction being that no township society may have less than 50 members or shall have presumed to have more than 140.

Several of these societies neglect to hold an annual exhibition and every local corner has developed an agricultural society for the purpose of sharing in the grant and weakening its neighbors.

PIT ALL FAIRS ON ONE BASIS. Many of these district fairs more-over with their large automatic grant are exceedingly weak in membership and negative in results, whereas a nearby township society, which only obtains \$50 from the department may take in \$1,000 at the gate.

With a view to removing these absurdities, legislation has been drafted, and will, it is understood, be submitted to the annual meeting of the Association, held in Toronto during this present month. A large attendance is expected.

Under the proposed legislation it is understood the distinction between the district and township fairs will disappear, all the societies in the Province being placed on an equal footing, so far as the department is concerned. The old geographical di-

CERTIFICATE.

To the Reeve and Council of the Township of Ops: GENTLEMEN,— We, the undersigned Auditors, hereby certify that we have carefully audited the accounts of your Treasurer for the year 1905. We have examined all the different items with their respective vouchers and found them correct. We have also examined the security of your Treasurer and consider it quite satisfactory. The bank account corresponds with your Treasurer's books which give a balance of nine hundred dollars and eighteen cents (\$900.18) on hand Dec. 31st, 1905.

W. E. AGNEW and W. DEVELL Auditors. Dated Lindsay, January 22nd, 1906.

SOME SMALL SHOWS TO DISAPPEAR.

The Act will also, it is stated, give the department authority to determine the localities in which fairs shall be held, and thus the crowding of rural exhibitions every five miles over the country will be prevented. As a consequence many of the smaller fairs without suitable buildings and equipment will go out of existence.

And finally the provisions in the present law prohibiting horse-racing at fall fairs will, it is understood, be somewhat modified. Possibly for the reason that the Government is attempting to enforce this prohibition might fall into the bad graces of the vast majority of the agricultural societies, this law has remained practically a dead letter in the past.

The ingenious local secretary pasts up prizes for saddle and driving horses, "style and speed considered," and everybody attends to enjoy the excitement of a horse race. Generally speaking, however, very little betting takes place on the ground, and to eliminate this element entirely, the proposed legislation will direct its efforts.

BACON HOG PRODUCTION

If the bacon trade of Canada is to continue to improve it is necessary that hog raisers adhere to the class of animals most suited to the requirements of the British market.

In the production of hogs of the last type Canada cannot compete successfully with the United States. A visit to the Chicago Stock Yards and to western cattle feeding centres affords ample evidence of this.

It seems to be very generally supposed that pork is more cheaply and easily produced from hogs of that breed, short American breeds than from the three English breeds which are favored by the Ontario production.

There is much difference of opinion regarding the cost at which hogs fit for market can be produced, and there is probably as much difference between the cost to one feeder and the cost to another as between these opinions.

Under general conditions the production cost in the neighborhood of five dollars per hundred pounds on an average. In summer under favorable conditions the cost may be somewhat lessened but in winter pork can hardly be produced at the figures mentioned.

Taking one year with another the Canadian farmer on good land, who understands crop growing and hog raising, can undoubtedly raise hogs as cheaply as the figures quoted, and probably for less. He will keep on by such success as produce large, lusty litters of the right type.

Some months ago a scheme was suggested that British Labor or representatives should confer with Labor leaders in the colonies. It is expected a party of Labor M.P.'s Messrs. Macdonald, Crooks, Shackleton, Fairbairn and a few others are not in the House will sail from England in August for Canada and Australia, New Zealand included, in a tour which is expected to occupy six months.

ROYAL HOUSEHOLD FLOUR

When the bread or cake or pastry comes from the oven light, crisp and appetizing, you are wondrously happy. You are wondrously happy because you have had good luck with your baking.

The "good luck" idea is a relic of the time when housekeepers fitted their competency against poor flour. To-day good baking isn't a matter of good luck in any home where

Royal Household Flour is intelligently used. In the hands of competent housewives it never fails because it is the whitest, lightest, purest and best baking flour to be had.

If the goodness of your baking is due to chance, your grocer is giving you the wrong kind of flour. Ask for Ogilvie's Royal Household Flour.

Ogilvie Flour Mills Co., Ltd. Montreal. "Ogilvie's Book for a Single" contains 130 pages of excellent recipes, some never published before. Your grocer can tell you how to get it FREE.

FIRST-CLASS FARM FOR SALE.—The south half of lot 17 in the first concession of the township of Ops, containing one hundred acres, more or less; ninety-four acres cleared and in good state of cultivation, the remainder pasture and hardwood, a stone dwelling house, a frame summer kitchen, woodshed, a frame stable for horses and cattle 60 feet long, and a driving shed. It is in a good locality, a half mile from Ops railroad station and school, convenient to Glandine post office and church, about four miles from Lindsay, ploughed, ready for harvest; possession the first of March, 1907. Apply to MISS CATHERINE NAYLOR, 22 Elgin-st., north ward, Lindsay, Ont. No letters answered.—3-tf.

FANNING'S REPOSITORY

William-st., LINDSAY. Regular Monthly Sale. The undersigned has received instructions to sell by Public Auction on Saturday, Feb. 10th, at ONE O'CLOCK, P.M., at FANNING'S REPOSITORY WILLIAM-ST., Opposite Maunders' Hotel, the following:

1 bay horse known as Mark Twain 2244. This horse was very successful, starting at five different exhibitions and winning three gentlemen's road races out of five. The last race he started in the fall was at Toronto Exhibition, where five horses entered. The race was won by Lewis C. 2-21 in three straight heats, Mark Twain forcing him to go the last two heats in 2:35 and 2:34 to a four-wheel rig. There is no doubt this horse, by proper fitting, can race fast yet. Last 24th May he raced at Cannington against Brown's Gyp, and without any preparation drove this mare off her feet several times, and the mare that day could step any half-mile track in 2:25 or better.

Another good horse that will be offered at this sale will be the good brown gelding, consigned by Mr. Jackson of Cobocok. This horse is four years old this spring, a first-class driver and shows lots of speed. He is sired by Anthem, dam Kentucky Maid. He stands fully 15-1-3 hands high and is a beautiful horse in every way. He will be sold with a full guarantee, and should make an excellent saddle horse.

In addition the above there will be twelve work horses and one black draft entire colt weighing 1430 lbs., and one two-year-old entire, sired by Knight of St. Andrews, dam, Abotsford. This horse will not be two years old till June, and weighs over 1400 pounds. I think without a doubt, he is the best prospect of his age I ever saw, and a grand investment for some horsemen. He will make a great sire.

One bay gelding, eight years old, sound, with the exception of a blemish on one eye; a very fast road horse; can show a thirty clip or better; perfectly reliable in every way; consigned by a gentleman who has more horses at present than he needs. One first-class driving pony, 5 years old, and outfit.

Eight Bishop robes, 7 pair horse blankets, 12 sets single harness, 2 sets brass single harness, 2 sets team harness, a number fancy rugs, 1 set cheybonag sleighs, 5 cutters, 1 buggy nearly new, 2 sets light team driving harness, nearly new, 1 set second-hand single harness.

I expect to have a number of cows and young cattle. TERMS.—\$15 and under, cash; over that amount 60 days credit on approved joint notes to bear interest from date if not paid when due. A discount at the rate of 10 per cent. allowed for cash on credit accounts.

W. A. FANNING, GEO. JACKSON, Proprietors. Auctioneer.
