WARDER PATTERN DEPARTMENT

LADIES' WORK APRON. Paris Pattern No. 2195. All Seams Allowed.

Nothing is more useful than one of these all-cover aprons while performing any little household duty. They are a complete protection to the dress, and if taste and good judgment is used they may be made very attractive. For instance, developed in red and white checked gingham, the low round neck and wide armboles bound with plain red gingham, the pockets and belt being of the latter material, the apron presents a neat and stylish appearance that is charming. This might also be copied in blue, brown or green and white checked gingham, or it might be made in plain colored linen or chambray, with the trimmings of checked or plaid linen. These aprons may be developed in linen, chambray, gingham, seersacker or denim. The one illustrated has the front and back cut in one piece, the wide armholes affording perfect freedom to the arms; the belt being a bias strip held in place by small buttons, and regulating the fullness of the back. Similar buttons fasten the garment at the center-back. The pattern is in four sizes-32, 36, 40 and 44 inches bust measure. For 36 bust the apren requires 51/2 yards of material 27 inches wide, or 4 yards 36 inches wide.

Price of pattern, 10 cents.

Measurement-WaistBust

Please send the above mentioned whatever it may be. If a skirt give the figure representing the age. - is not necessary to write "inches or "years." Patterns cannot reach from the date of order. The price of each pattern is 10 cents in cash or postal order. Do not send CAUTION .- Be careful to enclose from the manufacturer in New York
