Sunday Night Fire in South Ward House

Fire! Fire! Fire! was the cry about the corner of Cambridge and Melbourne-st., last Sunday about ten-fifteen o'clock. Before an alarm could be sent, the station call boy phoned an alarm to the hall from the station and the team was on the job. The ringing of the fire bell brought forth a good-sized crowd who were greatly excited when they heard that the tenant, Mr. Joseph Curtin, was in the burning house. The house is a roughcast structure owned by Mrs. Weese, of Toronto, and is situated on the north side of Melbourne-st. just east of Cambridge. Neighbors had smelled burning cloth as early as six o'clock. When the fire fighters arrived the house was full of smoke and the heat was intense.

A SAD CUT UP

WARDEN KELLY OBJECTS TO C.P.R. ROUTE.
Warden Kelly left for Ottawa to appear before the railroad board regarding their proposed new route through Cavan. So far as present plans go it makes a sad cut up of the part they propose to go through. They cut off the Bethany route at Kelly's and parallel the C.P.R. down to about Lewers', then switch up through Walter Hetherington's farm east of Millbrook, then down through Larmer's, Geo. Fair's and Geo. Thorne's and join the line south of there somewhere. Crookeder than a dog's hind leg and cutting up some of the farms angling—Millbrook Reporter.

A bill will be introduced in the Legislature to regulate the development of suburbs to cities. It is reported that South Africa will abolish the British preference on manufactures.

TWO NEW SCHOOLS ARE SATISFACTORY

Wednesday afternoon the following members of the school board, accompanied by Alderman McCrae, visited the two new schools for the purpose of inspecting the buildings as to the manner in which the construction was being carried on, and to endeavor to stop the talk that has been going around town: Messrs. Chairman Stewart, Alex. Jackson, Jos. Staples, A. L. Campbell, Jas. W. Anderson, John W. Anderson, J. M. McLennan, J. E. Adams, John Carew, Dr. Wood, and Dr. White.

The deputation was accompanied by a Warder reporter, and visited the north ward school first.

The school having been built on a knoll, stands out prominently, and at a distance or even close range, presents a very creditable appearance, and one could hardly imagine anything detrimental could be said about such a complete looking edifice. The building makes a very noticeable improvement to that portion of the north ward. On entering the building the gentlemen began at once to look for flaws in wood work, foundation, cornices, plastering, etc. The floor was the principal feature to be criticized. At one or two places, the end of a piece of flooring could be sprung up and down when pressed with the toe. It was noticed generally that the ends of the boards tapered slightly and left a larger crack for a few inches near the ends of the boards. This they thought was caused by poor planing. The board had not been run straight through the planer.

In the upstairs class room, a few feet from the front of the room on the west side, there was noticed a slight raise in the floor, which appeared to have been caused by a slight upheaval, but as there is nothing underneath to cause such a raise, it was believed the fault was in the unevenness of the joints. The specifications were examined and showed that the best maple flooring was demanded. Birch and maple were used.

Some of the members were of the opinion that there would be an uneven wear on the two kinds of flooring.

Mr. Carew, chairman of the building committee, explained that birch was worth a dollar or two more than maple and was the best of the two. The general opinion of the board was that the specifications should have been strictly followed in the matter.

It was noticed that the plastering in some places was unevenly laid, and was very noticeable where boards were nailed along the wall in the upstairs class rooms particularly.

The joints in the woodwork were also criticized by members of the board. In some instances they do not appear to be the work of a skilled mechanic as some of the wood work appear to have been hammered into place, while other pieces looked to be none too snug.

Kawartha Lakes to Come Under Big Merger

Toronto, Feb. 9.—Local confirmation is given today to the rumor that a gigantic lake transportation merger is in process of formation including not only the inland and northern navigation lines, but the smaller concerns of the Muskoka and Kawartha lakes, together with the smaller lines of adjoining lakes, making a twelve million dollar concern with Rudolph Forget, Montreal, as president.

A prominent steamship man here today declared that the defeat of the Long Sault project in congress was instrumental in bringing the matter to a head. Forget is expected here shortly to look into the Toronto end.

Hon. J. R. Stratton in Farmers Bank Case

Toronto, Feb. 9.—Crown authorities have lodged information against J. R. Stratton, M. P., of Peterboro, in connection with the Farmers Bank case, charging Stratton with conspiracy with Dr. Beattie Nesbitt and others to obtain treasury board certificates by deceit and fraud, and of receiving in fee or hypothecation, notes of the Farmers Bank to the extent of fifty-eight thousand dollars. Mr. Stratton was President of the Trusts and Guarantee Company which had dealings with the bank. Provisional directors Ferguson, Fraser, Lowe, and Watson were committed for trial this morning, charged with conspiracy.

Presentation to Miss Sharpe by the Warder Staff

The staff of The Daily Warder assembled together Wednesday afternoon about four-thirty o'clock to say good-bye to Miss Mabel E. Sharpe, who for a number of years has been the efficient bookkeeper of The Warder. When all had assembled Mr. Allan Gillies, proprietor, and Mr. G. A. Robson, foreman, on behalf of the entire staff, presented Miss Sharpe with the following address and a handsome brass mantle clock as a token of their esteem. The address:

Dear Miss Sharpe,—We, your fellow associate and workers, are gathered here on this occasion to express to you in a slight manner our regret at your intended departure, and to wish you success in your new field of labor. During your stay in this office you have by your kindness and consideration won our sincere admiration and kindness.

While we are at all times prone to say good-bye to those whom we have learned to highly esteem, we at the same time are pleased to know that you are accepting a position which means merited promotion, and it is our earnest wish that your voyage may sail upon a golden sea, and that health, wealth and prosperity may be yours in future years.

Our earnest hope is that your future life may realize all that your devoted attention to business during your employment with The Warder now seems to promise. We are sure that your good qualities will win the esteem of your employers and fellow-workers in Belleville as they have while in Lindsay.

With a deep sense of the recollection of numerous kindnesses shown by you to various members of The Warder staff on several occasions those assembled here have requested me, in their name, to present to you this as a token of our esteem for yourself.

(Sgd.) THE STAFF.

Miss Sharpe made a brief reply in which she thanked the members of the staff for their many kindnesses and for the beautiful gift.

Miss Sharpe leaves Friday for Belleville, where she accepts a similar position with the Intelligencer.

T. A. Kirkconnell Chairman Of the Library Board

The first meeting of the Library Board for the new year was held in the board room last Friday, when there were present, Messrs. T. A. Kirkconnell, Judge Harding, Wm. Flavell, G. E. Broderick, Fr. Blanchard, B. F. Resor, J. O'Reilly, A. O'Loughlin, and Mayor Beal.

Mr. Kirkconnell was elected chairman pro tem, and Judge Harding presented the financial report, which was adopted. The financial report of the secretary-treasurer and auditor for the past year was read and laid on the table.

Poultry Raisers To Co-Operate

Peterboro, Feb. 8.—Peterboro has become the pioneer in an important farmers' movement by the organization of the first County Co-operative Poultry Association. Yesterday evening the members of all the local "egg circles" formed in the county last June formed themselves into an organization to be known as the Peterboro Co-operative Poultry Association.

All the eggs produced or controlled by the members will be marketed from the Peterboro centre. It was decided to establish here a modern crate-fattening establishment, where the fowl supplied by the farmers will be fattened, to be marketed as first-class dressed poultry.

FRACTURED HIS THIGH
A son of Wm. Grant, Master Clayton, and his brother, were skating on the icy sidewalks last week, and in making a turn, Clayton fell, his brother went over him, and his skate struck Clayton with sufficient force to fracture his thigh. Clayton is now in splints, and will be out of the hockey games for a few weeks.—Bob-caygeon Independent.

RIGHT HON. D. LLOYD-GEORGE
His throat affection is keeping him away from his parliamentary duties.

OBITUARY

MRS. DEVELLIN
Mrs. W. J. Lyons, Peel-st., was called to Toronto Saturday morning owing to the death of her grandmother, Mrs. Develin, who for a number of years was a respected and well known resident of Lindsay. The funeral was held in Toronto on Sunday.

The late Mrs. Develin is survived by two daughters, Mrs. Wm. Walters, and Miss Carrie Develin, both of Toronto, formerly of Lindsay. The late Mrs. Develin moved to Lindsay a number of years ago from her home in Concession.

British Unionists cannot agree as to line of action in regard to veto. Mr. Richard Hasleton, M. P., has been unequipped in North Louth, on petition of Mr. T. M. Healy, K. C.

Prize Winners at The Janetville Carnival

On Friday afternoon the following eight players visited Janetville to participate in a game of hockey with the team of that burg: Messrs. Cote, Killen, Cain, Mulvaney, Rogers, Primeau, Mulvihill and Powers. The boys left Lindsay about two-thirty with the sun shining brightly and all expected a delightful sleigh-drive. Before five miles had been traveled, the clouds gathered and the wind blew. The remainder of the journey was not at all pleasant.

Janetville was reached about 4.45. The village boys had expected the Lindsay team earlier and had given up hope for their arrival. However, they prepared to give them a game, but when the management of the rink was interviewed, he refused to give them the ice as he wanted it to be left in good shape for the carnival that was billed for that evening. Supper was served in Mr. Hobbs's house, where much courtesy was shown the boys.

After supper all went to the carnival and took an active part in the racing events, not to mention the pleasant skating with the fairer sex of the village. The rink is an open-air one but is in exceptionally good shape. A good-sized crowd gathered to witness the racing and competition. The costumes were all good. Special reference might be made of the costumes of Miss Cloris Hutchinson in the fancy dress event, and the gold dust twins, the clowns, and especially the representation of "Uncle Sam," worn by Nellie Arthur. Mr. Arthur made a capital "Uncle," wearing the cantor hat, striped trousers, etc., with "Free Trade" as his policy.

The racing events were run off in good style. The leg race created a great deal of amusement for the spectators and keen rivalry was displayed.

DEATHS

OLIVER—On the 5th, in Verulam, the wife of Alfred Oliver, of a daughter.
OLIVER—On Jan. 27th, in Verulam, the wife of Sam Oliver, of a daughter.
