Oliver Wendell Holmes says there are two classes in the human race, those who go ahead and do something, and those who sit and enquire. Why wasn't it done the other way. We want you in the class of those who go ahead and do something by patronizing our sale.

## O'LOUGHLIN & McINTYRE

### New Heir to Fitzwilliam Earldom

LORD FITZWILLIAM

COUNTESS FITZWILLIAM

London, February 15.—Lord Milton, heir to the Fitzwilliam earldom and estates, who was born on the last day of 1910 was christened in the private chapel of Wentworth Woodhouse, the most splendid mansion in England.

Fitzwilliam made the feast an event and a worthy celebration of the first and in seventy-one years that a ditto heir to the earldom has been born.

The baby's wrap was a scarf that William the Conqueror took from his arm at the battle of Hastings, in 1066, and handed to Earl Fitzwilliam as a mark of appreciation of valor.

## SIR JAMES ON THE RECIPROCITY

Toronto, Feb. 16.—In a speech lasting a little more than an hour, Sir James Whitney yesterday stated his position and the unanimous opinion of the Conservative party of this province on the question of reciprocity. The Prime Minister never was in better fighting trim, and his speech from start to finish bristled with patriotism and fidelity to the British Empire. To the statements made by the leader of the Opposition that the question of reciprocity should be left to the Dominion House and never should have been introduced in the Legislature, the Prime Minister replied by reading from reports of the legislative proceedings, showing that similar questions had been discussed in the Legislature under the old Government without one word of comment. To the sarcastic references to the

patriotism of the Conservative members Sir James retorted by reading extracts from speeches delivered in the House of Representatives in which Congressmen had stated emphatically that the reciprocity agreement would lead to the annexation of Canada by the United States. He reviewed the negotiations leading up to the reciprocity agreement and declared that President Taft was in a hole, because his party had been defeated at the Congressional elections, and as his political opponents favored reciprocity with Canada, he would have to rush the treaty through before the fourth of next month or see his opponents reap all the glory for its passage. Sir Wilfrid Laurier, he declared, had sent two ministers to Washington in order to appease the farmers of the West, and when the ministers reached

Washington they were dumbfounded to find that President Taft was prepared to go much farther than they anticipated. Canadians, he said, were told by a foreigner that they had reached the parting of the ways, but if any foreigner thought he could make Canadians leave the footsteps of the Mother Country and annex themselves to the United States, he had better look out. Sir James' remarks were listened to in a crowded house, and he was applauded time and time again as he reiterated the position the Ontario Conservative party took on the reciprocity question. The galleries were crowded and visitors stood six deep all afternoon to hear the two leaders in the House close the budget debate.

## Travers Returned To Queen City

Toronto, Feb. 20.—Inspector of Detectives Duncan returned to the city Sunday morning with the much-loved Mr. Travers safely in tow. Adding to the present knowledge of the apparent haste and secrecy of the removal of Travers from the jail, while he was still giving evidence in the Police court probe into the Farmers' Bank affair, comes the statement that when Deputy Sheriff John

Brown and James Severs arrived at the jail to take him to Kingston he vigorously protested that there must be some mistake, and urged them, and Deputy-Governor Wilson, who was present, to communicate with Inspector Duncan, Crown Attorney Corley, or at least to notify the sheriff that he was still residing here as a witness, but despite the fact that more than an hour remained before the time for the leaving, Travers train, this was not done. Travers seemed cheerful and glad to be back. He, as is feared by many, his

stay in the penitentiary, to which he has been sentenced for a term of six years, has broken his nerves, he did not show it on his arrival here, although he had spent a sleepless night sitting up in the train, and looked weary.

## Hill Head Resident Presented his Locket and Chain by Friends

The home of Mr. Fred Arksey, of Hill Head, was the scene of a delightful surprise party Friday evening when about one hundred friends and neighbors met to say farewell to a true neighbor who has lived on that farm for the past thirteen years and leaves for his new home in Mariposa on March 1.

Mr. Thos. Hawkins was elected to the chair and with a few remarks called on Mr. Peter Hawkins, reeve of Ops, who read the following address: Mr. Fred Arksey—Dear Friend,—We, a few of your neighbors and friends in South Ops have gathered here to-night with a desire to show in some way a little of our appreciation for you, and to give expression to our deep regret at your departure from our midst. For thirteen years we have found you a true neighbor and friend in the very best sense of those terms. You were ever honest and upright in life and character and in your dealings with us your neighbors, and nobility of character wherever found is always respected and appreciated. We have grown to depend on you so much as a neighbor and friend that we are very sorry indeed to be called upon to say farewell. Your housekeeper, too, has been invariably kind and considerate, and no gossip. And we sincerely hope that in your new home you will meet with the very highest success. As a slight token of our respect for you we ask you to accept this

locket and chain, and we all join in wishing you many long and happy days in your new home. We might just add that if ever you find yourself in need of a better housekeeper we hope you will never forget that there is no place in the world where you can find your ideal so well as in Ops township. Signed on behalf of your neighbors, Ops, February 17, 1911

The presentation was made by Mr. David Reid, after which Mr. Arksey, who was completely taken by surprise, repited with a few well chosen words. The remainder of the evening was spent in cards and dancing. In the wee sma' hours of the morning the guests departed, with feelings of joy after a delightful evening mingled with sadness for the loss of their esteemed neighbor.

## DEAD IN BED

PROSPEROUS WESTERN FARMER DIES SUDDENLY  
Cobourg, Feb. 17.—David Baptist, of Yorkton, Sask., died very suddenly at the home of a friend in Haldimand Township, with whom he was visiting, yesterday. In the morning he did not feel like rising at the usual hour, and his wife, who was with him, went down to breakfast. She returned, however, before the meal was over, and found her husband dead.

## Presentation to Well Known Mariposa Residents

Oakwood, Feb. 20.—A very enjoyable time was spent at the home of Mr. and Mrs. Nelson Barker, when about sixty of her friends and neighbors assembled to bid them farewell before leaving for their new home. Mr. and Mrs. Barker were invited into the drawing-room about 11 o'clock and Mr. Richard Davey read the address as follows: To Mr. and Mrs. Barker:—

Dear Friends,—It is with feeling of regret that we your friends and neighbors have learned of your intended departure from us. One sometimes wishes that such good times as we have had could last, but by the great law of change you go and we stay. We shall miss you in our neighborhood. At our social gatherings and other meetings of interest you have your own chairs around our common hearth and we will soon find them vacant. In your

new home and surroundings we hope you will find prosperity, health and happiness and everything to give you content, and yet we hope you will sometimes come back to us and renew the friendship we have formed. Just to help you keep in remembrance the friends you are leaving and showing esteem for you we ask you to accept this toilet case and fountain pen. Signed on behalf of the community—Miss Mabel Neal, Mr. Roy Rich. Mr. and Mrs. Barker were completely taken by surprise and Mr. Barker replied in a few well chosen words. Lunch was served and the remainder of the evening was spent in games and music till all returned to their homes feeling satisfied of having an enjoyable time.

## Well Known Cab Man Passes Away

A familiar and well known citizen of Lindsay has passed into the great beyond, in the person of Mr. John Gunigle, who for thirty-eight years was a resident of this town, being engaged in the livery with his brother, Mr. Bryan Gunigle. For the past year or so the deceased had been in poor health and last September was removed to St. Joseph's hospital, Peterboro, where he passed away quietly on Sunday, Feb. 19. The late Mr. John Gunigle, who was born in the County of Mayo, Ireland, came to Canada thirty-eight years ago with his mother, and settled in Lindsay. He followed the livery business, and during the long years that followed could be seen every day on his cab going to and from the station. He had a very kind disposition, and his friends were numerous. He was always ready to give people a lift on his cab. In recognition he was a Roman Catholic and the funeral Tuesday morning will be held from the residence of Mr. J. J. Walsh, Glenelg-st., to St. Mary's church, thence to the R. C. cemetery for interment.

The deceased gentleman was unmarried, and is survived by one brother, Mr. Bryan Gunigle, town proprietor of the Gunigle livery. Their mother died some 21 years ago.

**BAD ACCIDENT.**  
Two or three weeks ago Mr. J. P. Daniels, of Toronto, formerly of Lindsay, met with a serious accident when he fell on the ice and cut his hand. Several fingers were badly cut, and Mr. Daniels is still out of work.

## WHY DAN MCGEE GIVES ADVICE

Dodd's Kidney Pills Quickly Cured His Backache and Lumbago  
WELL KNOWN NOVA SCOTIA MAN RESCUED FROM THE CLUTCHES OF KIDNEY DISEASE TELLS OTHERS TO USE DODD'S KIDNEY PILLS.  
James River, Antigonish Co., N. S., Feb. 17 (special).—Suffering from backache, with eyes puffed and swollen, and occasional attacks of lumbago helping to make his life miserable, Dan McGee, a well known resident of this place, turned to Dodd's Kidney Pills, and is to-day a strong healthy man once more. It is hardly to be wondered at that he says: "I advise all persons suffering with backache or lumbago to use Dodd's Kidney Pills."  
Mr. McGee realized from his symptoms that kidney disease was claiming him for its own. For two months he waited, like many another, for it to go away of its own accord. It didn't go. It simply got worse. Then he turned to the natural cure, Dodd's Kidney Pills, and the disease vanished because it had to. No case of kidney disease can stand before Dodd's Kidney Pills. They always cure.  
Rheumatism, lumbago, dropsy, diabetes and bright's disease are some of the deadly results of diseased kidneys. You can safeguard yourself against any or all of them by using Dodd's Kidney Pills.

**A PRESENTATION**  
Before leaving for Saskatoon, Mr. Datothe Terry was presented with a gold locket, suitably engraved, by Mr. and Mrs. W. Worsley, friends of Mr. Terry.

If you have a good friend you can prove anything by him. There are men in this busy world who have entirely too long-suffering notions devoted to killing time.

## Location of C. P. R. Bridge Discussed by Engineer and Councilors

A special meeting of the town council was called Wednesday afternoon for the purpose of meeting the engineer who has the supervision of the building of the new C.P.R. overhead bridge across the Scougog river, a mile or so north of town, members of the council having heard certain rumors to the effect that navigation would be sadly impaired if the bridge piers were placed according to the plans, thought that a meeting should be held to discuss matters. This discussion was held in Engineer Duncan's office, there being present Mayor Beal, Reeve Vrooman, Councilors Simale, McCrae and Naylor. As a result of the meeting a resolution was framed, the same to be forwarded to the proper authorities: "It has been brought to the notice of the council that the erection of the C.P.R. bridge across the river north of the town will seriously interfere with traffic on the river, more particularly cribs of timber, which sometimes are 1,000 feet long, and on which Lindsay mill owners are dependent for raw material for their mills—also scows of wood and other material usually brought up in tows of two, three, and sometimes four scows. The council to-day have inspected the plans of the bridge, and in their opinion find that there is ample and serious ground for the desirability which the erection of the bridge will entail, and with the view of modifying the conditions with as little delay as possible and

at a minimum cost respectfully ask the authorities of the C.P.R. to favorably consider either widening the span of the bridge across the river, or the construction of glance booms, one north of the bridge and on the east side of the river, and the other south of the bridge and on the west side of the river, of sufficient length to relieve the difficulty."  
Mr. John Carew was present, and stated the objections the mill owners had to the proposed location of the new structure, namely, that when bringing a long tow of logs to the mills, after the boat passed under the bridge, and around the bend the cribs would bump up against the pier of the bridge, that the piers were not far enough apart. The proper remedy would be lengthening the span of the bridge, and of course that would prove more expensive to the C.P.R.  
Mr. Duncan explained that after the first location had been complained about the location was altered considerably and new plans were drawn up a week or so later after Supt. McClellan, Mr. Carew and others investigated the trouble. This new plan had been approved by the above gentleman and passed by the government. Now plan No. 2 was being objected to.  
Mayor Beal stated that it was another case of where the town council had been ignored by the Board of Trade and others. A mistake had been made and then the town council was appealed to for aid. It was the same old story.

## Mr. Tudhope, of Orillia, In The New Company

The reorganization of the Sylvester manufacturing business has been effected, and the new concern is now said to be in good running order and on a solid basis. A meeting of the shareholders was held yesterday, but was adjourned until Tuesday next, when a board of directors will be appointed. It is understood that Mr. J. B. Tudhope, the well known Orillia business man and manufacturer, will be associated in the new company.

with other prominent and influential business men in the Northwest and in Lindsay.  
At the present time the new company are employing about ninety men and these are working overtime in order to get the work out. Drills are being turned out, and later on, cultivators will be manufactured. Mr. Rich Sylvester will devote his whole attention to the gasoline department and will be supplied with castings by the new company.

## New Wellington-st Bridge On the Bascule Style—Will Be Run by Electricity

The new Wellington-st. bridge when completed will be one of the best in the province. It is built on one of the newest principals in the line of construction and will be what is known as a bascule bridge, which has never been in this part of the county before. It will be entirely of steel, and will be a fine looking structure when finished. It is expected that the work will be done in about six weeks' time.

A large number of citizens are interested in the work, and quite a number go down every day to watch the men at work. Already the bottom work is nearing completion. The company has a compression car on Wellington-st., and the hammers, by means of which the rivets are riveted, are run by compressed air. When completed the bridge will have a walk running on each side of it as well as a road in the centre, and at the north side, near the west end, a small house will be built jutting out from the main part of the bridge, for the operator. At the west end a tower forty feet high will be built to act as a weight. The bridge will be lifted at one end, and when opened will be 96 feet high. The construction will be worked by electricity and the operator, who will be on duty day and night, will release the bolts by which the bridge is held, and the other will lift the bridge.  
A steel railing will run the entire length of the bridge, and a railing will also separate the road from the walks. The work is being pushed on rapidly, and the bridge will be in working order for the opening of navigation.

## Thought That Travers Had Escaped the Law

Toronto, Feb. 18.—When two police officers went to Toronto jail this morning to bring ex-Manager Travers, of the Farmers Bank, to police court to give more evidence in cases pending against directors and others, they found the convicted man missing. At first there was a sensational rumor that Travers had made his escape and this spread like wildfire around the city.  
As a matter of fact, Sheriff Mowat, a Dominion officer, had quietly removed Travers sometime since yesterday afternoon to the union station, and he is now on his way to Kingston to serve his six years' term imprisoned by the magistrate. That it was well known that he was wanted further as witness, is another version of the sensational affair.

Only reason for such action, said one police official, is that Travers has been telling too much and those in authority decided to shut him off. Inspector Duncan said it was the most unheard of thing in police annals.  
Sheriff Moffatt was subpoenaed to police court this morning to state why he had removed his prisoner. He said that Travers had already been allowed to remain longer than usual in such cases. He instructed his men at four-thirty this morning to take Travers away.  
"It is most unusual," said the Magistrate, "I never heard of such a thing before."  
All the cases were adjourned till Tuesday to see what can be done and in the meantime the county judge may be asked to interfere.
