- The above two articles were -

debt, got to go to highest bidder. The world is slow to recognize

little practice in that line.

BABY'S HEALTH IN WINTER

During the winter months the mother finds it very difficult to keep her little ones well. Colds come on quickly and the discomfort to the baby affects the whole household. To keep baby well during the winter he should be warmly clothed, have a daily bath, lots of fresh air, and Baby's Own Tablets should be given him occasionally to keep his little bowels working regularly, as nothworms and make baby bright happy. The Tablets are sold medicine dealers or by mail at cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
