Geo. Foster's Narrow Escape

Mr. George Foster had an exper-

ience to be remembered while serving jurors in the township Carden on Wednesday last. In performing this duty through the northern portion of our county : many difficulties arise, and hardships are endured that the average citizen is not aware of. On Wednesday Mr. Foster left Victoria Road on his business mission towards lower Mud lake. On arriving at the head the lake where he summoned several jurors he was obliged to cross muddy pond to deliver the legal document to another ratepayer. The distance across is about one mile, while by the road it would necessitate a trip of eight miles. Foster took the chance of his life to save distance and when about half way across the air holes, which were covered with a thin coating of frozen snow, were encountered. ... The horse escaped going under several times, and only by his activity kept on top of the ice. Five times did the horse break through and emerge safely until coming near shore when down went horse, rig, driver and Mr. Foster to the bottom of the lake, seen around Lindsay. Were it not Hon. L. "Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. Headvised me to consult Drs. Kennedy & Kennedy, as he had taken treatment from them himself and knew they were square and skillful. I wrote them and got The New with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I am earning \$21 and never loose a day. I wish all sufferers knew of your valuable treatment.
