E. E. W. McGaffey

ISLAY. Islay, Feb. 12. — Mr. Isaac Naylor has been visiting friends in Toronto.

Mr. Tom Wilson, formerly of this district, who now has a residence at Islay, Alberta, paid short visit to friends here.

Mr. Harry Boyd was at Lorneville transacting business on Thursday.

Mr. Jack Cowieson has made negotiations for the renting of the farm which Mr. J. H. Wilson will be vacating soon.

Mr. Chas. Craig is now assisting Mr. Isaac Naylor, and anticipates remaining in the district for the current year.

Mr. Thos. Graham and his family, took train from Lorneville on Tuesday last and proceeded to Midland, where he intends to make his future home.

Mr. G. McKinnon, of South Islay, has announced his sale of farm stock and implements on the 20th inst. previous to his departure to take up business in another line.

Young Cupid and St. Valentine are making great strides this leap year and their efforts are likely to be rewarded as the nuptial knot is likely to be tied on two occasions during St. Valentine week.

Mr. Tom Currins was visiting the Ops district on Saturday last. There was not a large attendance at the Sunday School on Sunday, owing to the bad state of the roads.

Mr. T. McAllister, of Ops, and Mr. W. Robertson, of Pleasant Pt.

returned to their homes on Saturday after spending the week in this district.

YELVERTON. Yelverton, Feb. 12. — Stormy weather has prevailed throughout the past week completely blocking up the roads and as a result we were unable to get mail through on Friday.

Mr. McMillan, of Port Perry, was the very fortunate purchaser of an extra fine heavy draft team, the best in the town, from Mr. E. Evans.

Mr. Morley Cope, of Chesley, is visiting Mr. R. H. McGill.

Miss Lillie Vance, of Brunswick, spent the week end the guest of her cousin, Mrs. G. E. Wilson.

Mr. Richard Henders, of Winnipeg, Man., is visiting his brothers, Harry and Edward Henders.

Mr. and Mrs. H. McGill spent Sunday visiting Lotus friends.

We were sorry to learn that Mr. S. J. Hepburn received a bad wound in the face from the effects of a branch springing back and striking him when he struck it with his axe.

Mr. Ernie Henry is busily engaged in filling the wood order for the school, for the succeeding year and we might say that if this weather continues the last year's supply will fall short before the warm days of June return.

Mr. R. McGuire spent the past week visiting his brother, Mr. E. McGuire. Miss Emma Henders visited at the home of Mrs. R. B. McGill Thursday

last. Mr. G. E. Wilson spent Friday in Port Perry.

GLANDINE Glandine, Feb. 12. — The Women's Missionary Society of this place held a concert on Wednesday which was enjoyed by all present.

Miss Greenaway, of Little Britain, and Miss Hughson, of Oakwood, delighted their hearers with vocal solos, while Miss Metherell and Miss Archer, of Little Britain, favored the audience with well rendered readings.

Mr. Rogers and Miss Hughson captured all hearts with their sweet music from violin and guitar. Rev. Mr. Lambert acted as chairman and made a very appropriate address.

After the concert refreshments were served.

Mrs. Robert Pogue has returned from a pleasant visit in Toronto.

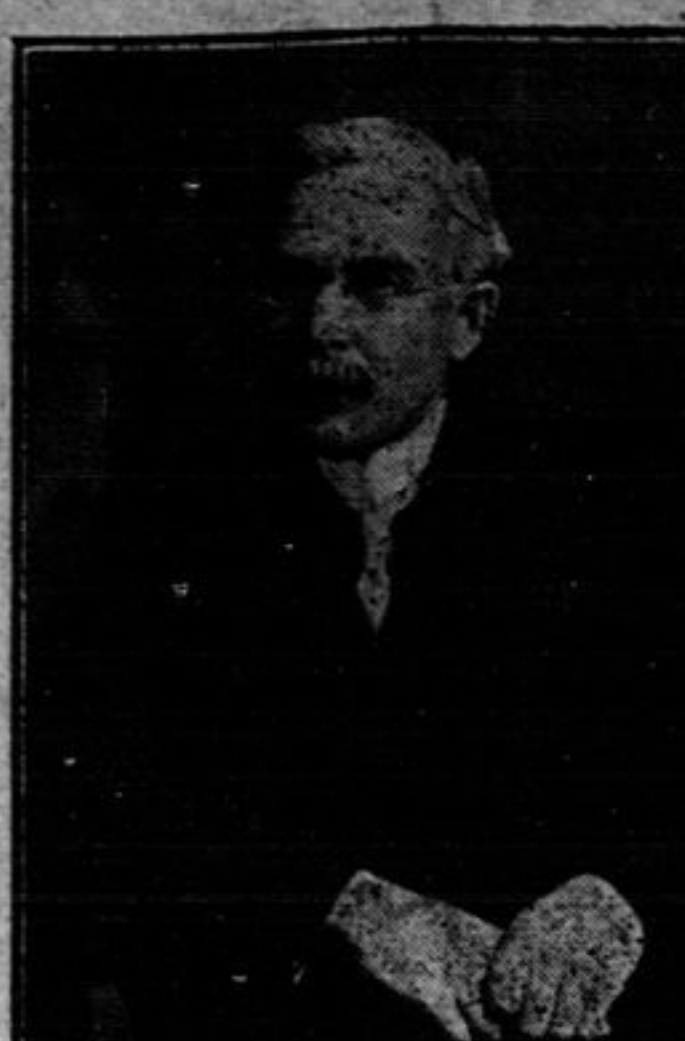

The storied visiting of the home of Mr. and Mrs. Gordon Webster recently leaving a little girl.

Rev. A. H. Webster spent a few days last week at his son's, Mr. L. Webster.

Mrs. John Pinkham has been under the doctor's care during the past week.

Miss Pearl Alton is a guest at Mrs. Robt. Webster's. Mr. Wm. Bryans, who for some weeks has been unable to leave his room through an attack of influenza, is, we are pleased to note, around again.

LINDSAY'S FIRST BIG WINTER CARNIVAL

G. F. BLACKWELL.

One of the busiest men on the street to-day was Mr. Geo. F. Blackwell, who has identified himself prominently with other townsmen in bringing to a successful climax the Lindsay Winter Carnival. Since its first inception, Mr. Blackwell displayed his usual zeal and spirit that goes to make up a noble citizen, who is assiduous concerning the welfare of the people.

The Town of Lindsay presented a gala appearance to-day, and the visitors to town were given a right-royal welcome as well as a very hearty reception. The reason: Lindsay's first big annual winter carnival is in full swing, with the various departments working like clock work.

It is not every town in Ontario that can boast of a big three days' winter carnival, or a "Made in Lindsay" exhibition. The idea is a new one and credit is due to a new and very promising organization known as the Lindsay Advancement Club, the following gentlemen being the men behind: Messrs. Allan Gillies, (president), W. W. Staples (1st vice-pres.), P. J. Breen (2nd vice-pres.), W. J. Ferguson, Felix Forbert (Secretary), G. H. Matthie (Treasurer), W. J. Carlisle, G. F. Blackwell, R. Butler, G. H. Wilson, W. F. McCarty, W. H. Roenigk, W. Nicholls, H. Brimmell and F. Carver. Everything augurs well for the success of the Winter Carnival; the visitors are promised a good time, and the merchants are promised a brisk trade.

Ken and adjoining streets took on a real holiday appearance and the stores looked well after the matter of decorations.

BIG STREET PARADE. Promptly at 1:30 p.m. the management committee of the Winter Carnival had all entries for the great parade on hand at the market, and started down Kent-st., which was jammed from curb to buildings with town and country people.

The order of the procession was as follows: Announcer, Wm. McGahey, on a beautiful steed, displaying an advertisement of the firm of B. J. Gough; the Kiltie Band, gave a sufficient dash of Scotch to the parade, with their Highland melodies to bring forth applause from the crowds; the L.C. I. boys and girls, who marched to the time of the Lindsay Band which followed discoursing "Cock 'O the North," and other melodies; the fire brigade with Chief of Police Chilton and Fire Chief Bell, with an Indian in the back of the sleigh; Forbert's Mutt and Jell kept the crowds laughing, while Dundas & Flavell's lady and gentleman were most amusing. The Peabody's overalls which bore the words "Sitting room for all inside" took the crowd by storm; the Post Boat also appeared in the procession; Terry's tandem team was a novel feature of the parade, the rig being tastefully decorated; Mr. Herb. Harry, the well known Kent-st. jeweler, had a well decorated outfit, displaying in large type the high class work turned out by this business house.

Announcer McGahey, in giving entire satisfaction and seeing that the program is carried out properly. "MADE IN LINDSAY" A glimpse into the magnificent exhibition room of the Lindsay winter carnival where "Made in Lindsay" is on display, is sufficient to convince the most sceptic that Lindsay is one of the towns which has joined in the progressive march onward. "Made in Lindsay" exhibit is being held in the market building, where the convincing proof of what Lindsay manufacturers are capable of doing can be seen. On entering the building a man of commanding appearance and polished eloquence greets you with a merry good-morning, which makes one feel that Lindsay is a heavenly Jerusalem, where rest and prosperity can be found.

This gentleman who acts the part of a demonstrator is no less a person than Mr. George Blackwell, one of our leading and enthusiastic citizens.

On entering the main door the first exhibit which fills the eye is an exhibit of Mr. John A. Williamson. The harness was viewed by the crowds as they passed in and highest expressions of praise were heard by all concerning this reliable firm and the high-class work turned out.

Chas. Wagstaff, of the Lindsay Brick and Tile Co., of Brickville, had samples of his fine brick and tile prominently displayed.

To the right, as one enters the door, can be seen the display of the National Concrete Co. At this display one might linger for a time admiring the work turned out, which comprises everything requisite for constructing silos, verandahs, drains, or those places where cement is used. Dr. Pogue is the proprietor of this industry.

One of the best exhibits in the manufacturer's department is that of the John Carew Lumber Co., Limited, which is situated on the north side of the building, occupying a space some thirty feet or more in length. It is a magnificent display of the goods turned out in the Carew factory, and it only takes a glance to see that the workmanship is of the highest order. In fact there are hundreds in Lindsay who had no idea that such work was being done at the Carew factory. The miniature stairs of curling ash with newless stairs (having no posts) attached in highly colored wall paper, attracted considerable attention. The display of doors included a fine green mission grained floor, light pollard oak door, grained, an imitation of English oak, 3 curling ash doors in different shades, one imitation of mahogany on pine.

The exhibit also included a handsome section of stairs, birch, and finished in mahogany, as well as miniature verandah in white and green with balcony, the latter being done in carved spindle; a handsome specimen of panel work, suitable for dining-room or kitchen, and a stair ballister in oak, Georgia pine and birch, hand carved and in different where the different grades of flour from this well-known and reliable mill is on display. The famous "Gold Medal," "Lily," "Bakers' Queen," and "Imperial" flours are so well known that it is unnecessary to make any comment on their good qualities.

Next comes the Canadian Cereal Company's exhibit. Over all the designs. The exhibit is a splendid one and very creditable to the manufacturer, as well as to Mr. George McFadden, who did the painting and decorating. This part is exceptionally well done.

Mr. John Dennis is also an exhibitor, with the beautiful sunlight shining upon an industry that has been presented to the public for the 31st year and has been growing all the time. The name "Dennis" on any article manufactured speaks volumes.

Mr. Isaac Deyell pointed out to the Warder man a novel device which is bound to interest the farmers, namely, a cow stanchion. The cow stanchion, which is used for tying cows, was invented by Mr. John Deyell, of Mount Horeb, and is a good piece of workmanship.

Mr. John Hughes, the well-known shoemaker, is exhibiting several pairs of boots, ladies' and gentlemen, which are made in Lindsay by Mr. Hughes and his capable staff. This exhibit includes a pair of ladies' white kid shoes, silk lined; pair of ladies' high-legged French kid boots; pair of gentlemen's camel box calf shoes, antelope leg; pair gentleman's tanned willow calf shoes; pair of boots made to order for a manufacturer; a farmer's water proof boot, in the test, as well as other shoes in the process of the making. The boots are all hand sewn, only the uppers coming from England, and the exhibit is a very good one.

Two fine exhibits of high-class work in the photographic art are made by Messrs. F. D. Leo and I. H. Oliver. They were greatly admired by the visitors to-day, and no doubt will be the means of setting the two above photographers considerable business.

Mr. John Dennis is also an exhibitor, with the beautiful sunlight shining upon an industry that has been presented to the public for the 31st year and has been growing all the time. The name "Dennis" on any article manufactured speaks volumes.

P. J. BREEN.

Second Vice-President of the Lindsay Advancement Club, who has been very energetic in connection with Lindsay's first Winter Carnival. Mr. Breen has charge of the amusements on Kent-st., and is looking after the same in a very efficient manner.

hibit of ice cream cones. The enterprising firm keeps thirteen machines operating in order to keep pace with the growing trade.

The display of Mr. A. B. Terry on the west side of the building was the best seen. Cakes with "Boost Lindsay," "Welcome friends from the county," and all the latest in bon-bons, fancy cooking were the centre of attraction. The draping was tastefully done, white and blue colors with gold tinsel trimming on the magistrate's throne, where justice is often dealt out. Plates of all kinds were displayed from the Maxson green house.

Mr. F. G. Barber showed some artistic burnt work on a stand on the west side of the building. Next came the magistrate's chair. This stood in the corner. Mr. Geo. Blackwell wound a flag around the back of it, which possessed a picture of King George V. The city fathers should loosen up and have the seat upholstered.

The Robinson Motor and Steel Boat Works, of town, had a fine display of motors, which attracted the attention of all the water sports. Many other features will be added to the grand display now on hand, which could not be put in place this morning.

Mr. Isaac Deyell pointed out to the Warder man a novel device which is bound to interest the farmers, namely, a cow stanchion. The cow stanchion, which is used for tying cows, was invented by Mr. John Deyell, of Mount Horeb, and is a good piece of workmanship.

The boots are all hand sewn, only the uppers coming from England, and the exhibit is a very good one.

BRAKESMAN KILLED. Belleville, Feb. 14.—At 4:30 this morning a double-header freight train from Lindsay collided with a number of empty cars, which were standing on the "Y" on the line of the Midland division of the G.T.R., just north of the city yards.

J. J. Spencely, a Lindsay brakeman, who was at the time riding on the front engine, was thrown under the tender of the engine and was instantly scalded to death. The upper portion of his body presented a terrible appearance.

Dr. Foley, coroner, of this city, has ordered an inquest, which will open at 3:30 p.m. this afternoon.

It is stated that Spencely opened a switch and then jumped upon the front engine, which accounted for his being upon the engine at the time of the collision.

The second engine was, by the impact, driven up upon the tender of the first engine.

The engineers and firemen, of the train, all Lindsay men, escaped unhurt. Considerable damage was done to rolling stock. Spencely's remains were taken to Tickell's undertaking establishment, and after being viewed by the coroner's jury, were prepared for burial.

Mr. Spencely, who is a son of Mr. Geo. Spencely, town, was well known in town, having been born here. He had been on the railway for two or three years and was well liked by his companions. The remains will be brought home this evening and will be interred in the Riverside cemetery.

It is understood that the Lindsay double-header was in charge of Conductor Nugent, Messrs. Geach and Hutchinson being the engineers.

S. A. Dinner at House of Refuge

A very pleasing time was spent at the House of Refuge on Tuesday when the Salvation Army gave the old people at the Home their annual dinner. Covers were spread at 6 o'clock and the refreshments which were supplied by the Army were greatly enjoyed.

After the supper a lengthy program was rendered by the corps, consisting of varied selections, Dr. J. A. White presiding as chairman in a very acceptable manner. The evening was greatly enjoyed by all present, and especially by the inmates of the House of Refuge.

The Officers of the Salvation Army and their workers thank the ladies who so readily responded to the appeal for cake, etc., for the tea.

Dr. White gave a very suitable address on "The Joys of Old Age," also a reading, entitled, "The Old Man getting on."

Mr. and Mrs. Robinson of the House of Refuge very kindly gave all the assistance they possibly could and helped considerably.

Human Hair Lace. They are making lace from human hair now. No; it is not for trimming dresses with, but is used for the partings of wigs. It is made by hand, and the knots are held by a solution of wax; otherwise they would unravel. When this lace is used it takes an almost microscopic examination to detect that the wig is not natural.—New York World.

Art in France. Francis I did much for art in France. He bought splendid pictures for the nation and proposed subjects for French artists; he brought Leonardo da Vinci from Italy, and this original genius died in France—some authorities say in the very arms of the king.

Warren's Piano Store is prepared to give the music loving public very special values in all our well known lines.

We carry the famous Bell Piano, Bell Autonoal Player-piano and Bell Organs, also Newcombe Pianos and Player-pianos.
