The best workmen, the driest lumber and satisfaction guaranteed in every case. Exchange premises, and new machinery just added. All orders turned out promptly.....

The Lindsay Planing Factory. **GEORGE INGLE**

WOMEN WILL TALK,
Can't Blame them for Telling each other about **MILBURN'S Heart and Nerve Pills.**

THE GREAT REMEDY FOR WEAK NERVOUS WOMEN.

It's only natural that when a woman finds a remedy which cures her of nervousness and weakness, relieves her pains and aches, puts color in her cheek and vitality in her whole system, she should be anxious to let her suffering sisters know of it. Mrs. Hannah Holmes, St. James Street, Et. John, N.B., relates her experience with this remedy as follows: "For some years I have been troubled with fluttering of the heart and dizziness, accompanied by a smothering feeling which prevented me from resting. My appetite was poor and I was much run down and debilitated. "Since I started using Milburn's Heart and Nerve Pills, the smothering feeling has gone, my heart beat is now regular, the fluttering has disappeared, and I have been wonderfully built up through the tonic effect of the pills. I now feel stronger and better than for many years, and cannot say too much in praise of the remedy which restored my long lost health."

THE COUNCIL IS DONE WITH THE COMMITTEE

What will the Town Take for its Mortgage on the Burleigh Power?—Debtors Sold

There was a general session of committees on Friday night. The mayor was absent on account of sickness. Without classifying the different items with regard to their committees, the business transacted was as follows: Mr. J. H. Sootheran dropped in for a few minutes before the meeting was called to order and asked the council to consider what sum the town would take for its mortgage on the Burleigh Falls power. He had received a letter asking him to find out. In his opinion, if the town could get the amount paid to investigate the Fenelon Falls power—\$400—it would be wise to accept it.

One item among the accounts was a detailed statement of expenses amounting to \$48 sent by Mr. MacDonald the "expert" who advised the committee about the municipal plant. A cheque was asked.

Ald. Sinclair—The sooner we get rid of that committee the better. Was that expense ordered by the council? I don't think so. We will never pay it.

Ald. Jackson—We will have to pay it, but we are done with that committee. They were instructed however to go on with their investigation at any reasonable cost. This sum is part of it. The expense in this case is very much like the \$400 spent on the Fenelon Falls scheme.

Fire Chief Reesor asked for a barrel of bluestone and a striker in his home and one in Fireman Bell's—Granted.

The Telephone Co. sent the half-yearly account for the instrument at ex-chief's house. It appeared that the council had passed a motion authorizing putting it in the chief's house for 3 months at not more than \$5. He signed a 3-year contract with the company. Manager Martin explained that and said it had been necessary to put in a number of poles and the expense had been heavy. Council declined to be responsible for more than \$5.

Collector Nicolle explained to council that a writ had been served him for \$200 damages because he as tax collector, had seized on Helm's goods for taxes when it was in the sheriff's hands for rent. Council told him to assume the responsibility of defending the writ. The taxes have been secured.

The commissioner will report on the petition to have the sidewalk moved out on Melbourne-st east.

C. Devell's taxes of \$5.20 were remitted.

D. C. Trew is black vnot inspector and truant officer, and gets \$50. The latter office formerly got \$100 and the other \$25 but the both now only bring \$50. Mr. Trew's salary was raised to \$75.

Sam Frechette's taxes of \$7.80 were remitted.

S. Champion's taxes were remitted for the year he was out of town and Blacksmith Carley's contention that he was the only smith whose tools are assessed got him clear of taxes on them.

DEBENTURE TENDERS

The town advertised \$37017.34 worth of 4 per cent. debentures for sale. These tenders were opened:

O'Hara & Co offered \$36942.34 for them delivered in Toronto.

The Central Canada \$36810 and interest Lindsay delivery.

Amilius Jarvis & Co. \$35918 and interest Toronto delivery.

Stinson & Co. \$37026 without the accrued interest.

The Standard Life Ins. Co. \$37042.14.

A. E. Ames \$37051 and the accrued interest. Mr. Ames' tender was the highest but in it the debentures were referred to incidentally, as 5 per cent bonds. This was considered a slip, but council inquired about it.

Next day at 3 o'clock another meeting was held. Two additional tenders were presented.

One was from J. H. Sootheran offering \$37075 without interest.

The other was from F. C. Taylor \$37082 with the accrued interest.

Council held that since these had been presented after the others had been opened it would not be honorable to place them in competition and since a telegram had arrived from Mr. Ames saying that the understood the debentures to bear 4 per cent., his offer was accepted.

How to Cure all Skin Diseases

Simply apply "SWAYNE'S OINTMENT." No internal medicine required. Cures tetters, eczema, itch, all eruptions on the face, hands, nose &c., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for SWAYNE'S OINTMENT. Sample free.

NEWS IN A NUTSHELL

—William Patterson, the Peterboro medical student arrested at Belleville with a woman's body in his trunk, has been sent for trial.

—The choir of the Church of St. James the Apostle, Montreal, is on strike in sympathy with Mr. Horace Reyner, the organist and choir director, who recently resigned.

—Miss Annie Clark, of Sydenham, near Owen Sound, recovered from Wm. Waterton \$225 for a broken heart and \$25 for assault. The case came up on Thursday and Miss Clark brought action for breach of promise and assault.

—George Gala, a laborer from Providence, R.I., lost his life in a cheap Bowery restaurant because he could not pay 4 cents for food he had just eaten. When he said he had no money after ravenously partaking of coffee and butter cakes he was, according to custom, set upon by several waiters. He fell dead. Four waiters were arrested.

—Burglars entered the house of William McDonald of Lynbrook, L.I. while he and Mrs. McDonald were asleep one morning last week and stole every stitch of wearing apparel in the house. McDonald wrapped himself in blankets and went to the house next door, where he borrowed some clothing for himself and wife. Later, Mr. and Mrs. McDonald went to New York, where they laid in a new stock.

—An almost unexampled case of official blundering is reported from Liverpool. It appears that the War Office was under the impression that the Liverpool Volunteers were still in South Africa, and kept a new special service corps on waiting orders until it could be ascertained whether the Liverpool Volunteers required strengthening. The Liverpool volunteers returned to Liverpool four months ago.

—A remarkable story of male impersonation recalling the Murry Hill case in New York, was revealed in a Police Court last week, in connection with an arrest for alleged money frauds. The prisoner, named Catherine Coombe, aged 66, described as a house decorator, appeared in the dock in male attire. For 40 years Catherine impersonated a man and worked on board Peninsular and Oriental steamers in various capacities and also for London firms. She says she was married at fifteen, taught school and then thought there were better chances of advancement as a man. Eventually she married a lady's maid with whom she lived for fourteen years.

—Ruth Nollard, eighteen years old of Kansas City, Mo., was shot and killed on the street Friday afternoon by Bud Taylor, 23 years old, a baseball player, formerly her sweetheart, with whom she had quarrelled. The girl and her sister were walking in a crowded business district of the city. Taylor, sitting in the window of a second story room in a lodging house opposite, fired three shots from a repeating rifle. Two bullets struck her, and she died in less than an hour. The police arrested Taylor in the lodging house and had difficulty in getting him through the mob, many clamoring for the lynching of the murderer.

—Owing to the long continued and severe cold weather this winter the ice of Varty lake, north of Napanee, has formed so solidly that the fish have great difficulty in getting breathing air. Some few holes in the ice have been formed where there are springs, and below these the fish gather in shoals to get air. Fishermen have taken advantage of the necessity of the fish, and are now industriously fishing around these holes, the fish with which the lake is well supplied being caught by hundreds. At times the fish so crowd each other around the holes that they are easily caught with scoop nets or spears. Some have even been caught with ordinary pitch forks. A few days ago one man caught in a short time enough fish to fill a sleigh box. The load was taken to market at Napanee, and a handsome profit realized. The people in the neighborhood of the lake have all gone into the fish business for the time being.

—George Peter Newkirk, a negro, known as "Old George Pete," died at his home in Hurley, near Kingston, N.Y., at the extraordinary age of 117 years. "George Pete" had been a familiar figure to generations of prominent men and women whose early lives were passed in Ulster county. He was born and brought up a slave in the Newkirk family, and continued to reside with some member of that family all his life. He was the first negro voter in the State of New York, having voted long before Abraham Lincoln signed the emancipation proclamation. At that time negroes, in order to vote, were required to be free men and to own a property over a certain amount in their own name, and right. "George Pete" was in fairly good

health during the latter part of his life, and even until within a short time of his death.

—The death of Capt. T. B. Newton, a veteran of the British navy, occurred last week at his late residence, Dovercourt road, Toronto. Deceased was 81 years old, and had been a resident of the city for many years. Captain Newton was present at the coronation of Queen Victoria in 1837.

—Death came very quickly Saturday evening to Dred Hale, who was playing hockey with St. Andrew's Masonic Lodge team against the Temple Club team at Montreal. The game had lasted only a few minutes when young Hale, who had never before been sick an hour, doubled up and dropped to the ice, death coming in about half an hour. Hale was 24 years old, and was to have been married next Saturday to a Miss Brown of Point St. Charles.

—Dr. Potts announced Thursday last that the Methodist Twentieth Century Fund has gone \$60,000 beyond the million dollar mark. It was the intention to close the fund at once but 150 letters came in Thursday morning containing contributions. As the mail for several days past has contained hundreds of such letters, it is deemed unwise to close the fund until March 15th.

—Secretary Gage last week submitted to the House at Washington a reply to the resolution of inquiry as to whether United States ports or waters have been used for the exportation of horses, mules or other supplies for use in South Africa. Mr. Gage states that between Oct., 1899 and Jan. 31, 1901, horses, mules and other supplies to the extent of \$26,595,692 were exported to South Africa. No steps were taken to prevent the lawful exportation of horses etc. The number of horses and mules shipped from American ports during this period was 76,632. The chief shipments in addition to horses and mules were wheat, canned beef and rum.

—Mr. C. C. James, Deputy Minister of Agriculture, has received a copy of the agricultural journal the Australasian Pastoralists' Review, whose representative, Capt. A. W. Pearce, toured Canada last year. The whole aspect of grazing and farming in Canada is well written up, as will also be the Agricultural College at Guelph, Mr. Massey's "Dentonia" farm, and other prominent features. Capt. Pearce was evidently very favorably impressed with what he saw of Canadian people. He writes: "I wish to say here that during the fortnight I was in Canada, I did not see a drunken man or a bad woman. I did not see a beggar or a badly dressed person. I found the Canadians the most courteous and hospitable people I have ever come across. The officials on railways and tramways do not think it lowering to their dignity to be polite, as they do on our government railways."

—Captain Bouchard, a former notorious whiskey smuggler, who in the prosecution of his nefarious calling had great experience of the navigation of the Lower St. Lawrence in all weathers and all seasons, writes to the French local press to express the opinion that winter navigation of the river and Gulf below Quebec is perfectly feasible and easy by the north channel, entering the gulf by Cape Ray, passing to the north of Anticosti and following the north shore upwards, as the ice always masses along the south shore and between the Magdalen Islands and the north shore of Prince Edward Island, and also before Sydney. He declares that provided the government erects lighthouses at five points which he specifies, a steamship can ascend or descend the St. Lawrence during any weather and any month of the winter with absolute safety and ease. He further offers to place his services at the government's disposal in order to explain the currents, the movements of the ice, the ports of refuge, etc., on the condition that it simply pays his expenses.

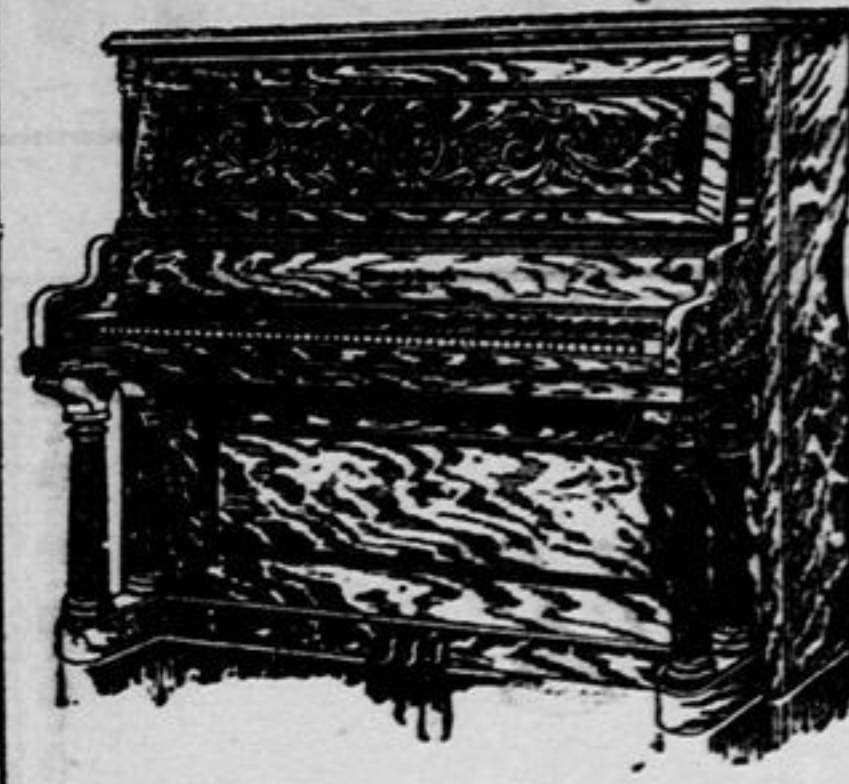

Sale Register

Thursday, March 14th.—By Elias Boves, auctioneer. Credit sale of farm stock and implements, the property of Thomas Prior. Sale at one o'clock sharp.
