OVER THE OCEAN.

It is the prevailing opinion among continental observers that Austria is about to be disrupted, with the immediate result of severing the connection with Hungary.-Baltimore Sun. The affair drags along dangerously in

Peking, a menace to the peace of the nations involved and little less than a scandal to our boasted civilization and sense of right and justice.-New York Herald. Will the British emperor try to teach his nephew how to be an emperor without being a soldier, or will the German emperor try to teach his uncle how to be an emperor and a soldier?-St. Louis Post-Dispatch.

The advantage of an alliance between England and Germany is that the former supplements the splendid army of the latter with her powerful fleet, thus forming a combination too formidable to be rashly attacked by any power or alliance.-Baltimore American.

Now He Is Serry He Spoke. He-I am not worthy of you, dear! She-Well, don't you suppose I know

> The Retort Courteous. I met a goat and sald to him: "The question, pray, excuse. Why do you always wag your chin?" Quoth he, "Because I chews!"

is all right, if you are too fat; and all wrong, if too thin already.

Fat, enough for your habit, is healthy; a little more, or less, is no great harm. Too fat, consult a doctor; too thin, persistently thin, no matter what cause, take Scott's Emulsion of Cod Liver

There are many causes of getting too thin; they all come under these two heads: overwork and under-digestion.

Stop over-work, if you can; but, whether you can or not, take Scott's Emulsion of Cod Liver Oil, to balance yourself with your work. You can't live on it-true-but, by it, you can. There's a limit, however; you'll pay for it.

Scott's Emulsion of Cod Liver Oil is the readiest cure for "can't eat," unless it comes of your doing no work--you can't long be well and strong, without some sort of activity.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE

Humor and Pathos of the Savings Bank In Great Cities.

Writing of the savings banks and their depositors in The Century, Richard Boughton tells of the embarrassment sometimes caused to bank officials by dishonest patrons.

The great bulk of depositors, perhaps 65 per cent, are of the laboring classes, the weekly wage earners; then come the middle and well to do class, say 30 per cent, and lastly the very rich man and the criminal in about equal proportions. By criminal I do not mean to confine this class to bank burglars, check forgers and bank note counterfeiters-you will see all of these if you watch the line long enough-but I include all those men and women who avoid police notice when they can and are occasionally "wanted" of the fashionable gambling house, the woman who is suspected of knowing the whereabouts of a vanished thief or forger, the man who never breaks into a bank himself, but takes a friendly and patronly interest in those who do, and so on up and down the scale of cosmopolitan vice. At one time or another they all have savings bank accounts. It seems incomprehensible, but people of all these classes are frequent, even permanent depositors. I do not say this from hearsay, but have seen examples of each of them lodging their money even in their own names.

What can you do with these people when they come to deposit? It is not criminal to save money, and you cannot arrest them. In some cases their accounts are closed by the banks, and they are told to take themselves off, a hint upon which they promptly and quietly act, possibly from fear of the police, accustomed as they are to obey when told

and her quiet demeanor, amiable smile, innocent, almost girlish timidity, quite won the chief official in charge. He was accustomed to call her aside politely from the somewhat rough crowded line, give her a chair in the anteroom and send her passbook and money by one of the clerks to the receiving teller. Her identity was finally discovered through a police inquiry at the bank, and the next time she called the old gentleman offered her not a chair, but her passbook with her deposits in full, The "poor young thing" swore at him like a trooper. It was quite necessary to call in the moral influence of the porter, displaying his "special | mals. To make a picture that anybody deputy" badge, before Miss Innocent | will recognize at once as a horse, a dog or

of a leading bank once debated long and | save their immortal souls." seriously whether they should inform the authorities that just after a famous burglary three men and two women had deposited \$8,000 each in new bank bills that possibly were a portion of those that had recently been stolen in transit between the two banks. It was a question whether the suspicion would justify this action, which of course would become public, perhaps get into the newspapers and some illiterate depositors might hear the story with a new twist given to it; not that burglars had put money into the bank, but had been in and had taken some out. The result would be a run. It was finally decided to do nothing, at least for the time. Soon afterward the thieves-for such they were-relieved the bank's perplexity. Two of the men and the two women came in singly, but in a hurry, drew the full amount that was in their names and made off. The fifth of the party did not return until years afterward, when a man with cropped hair, an unconscious lockstep halt in his walk | die aged man in the costume of the latter and other evidences of having been temporarily retired from society called and drew the deposit that had slumbered while he was "doing time up the river."

Good Old Catch Questions.

If a goose weighs ten pounds and of the goose? When you are asked this question the first time, you will probably instantly answer 15 and will be wrong. The correct answer is 20 pounds. It is

The following will nearly always suc-

How many days would it take to cut up a piece of cloth 50 yards long, one yard being cut off every day?

A snail climbing up a pole 20 feet high ascends five feet every day and slips down four feet every night. How long will the snail take to reach the top of the

A wise man having a window one yard high and one yard wide, requiring more light, enlarged his window to twice its former size, yet the window was still only one yard high and one yard wide. How was this done?

This is a catch question in geometry as the preceding were catch questions in arithmetic. The window was diamond shaped at first, and was afterward made

Kept His Promise.

Some years ago Mark Twain was elected a member of a prominent Grand Army post in Maryland, and he promised to be present at the annual meeting and make an address. It was an opportunity for the people of Baltimore to deluge him with hospitality, and a committee was formed to take charge of him for a big his speech at the banquet. This speech was one of the best be ever delivered, and it put the crowd in roars of laughter.

But he did not attend the reception. The explanation he gave almost brought tears to the eyes of those who received it. His daughter was critically ill in Hartford. He would not break his engagement with the Grand Army post, but the reason he did not attend the reception also was that within a few minutes after he had concluded his address he was taking the first train home.

The Volcano.

"A volcano," said the teacher in a Long Island school, "is a mountain and has crater or deep hole in the center, from which it throws up or emits smoke, fine stones and lava. Now, children, can you tell me what is a volcano?" "Yes, teacher," said one of the boys.

"A volcano is a sick mountain."

An Artist Says They're the Easiest Things In the World to Draw. easiest thing to draw in the world. One who had never tried would naturally supcase, for the reason that there is nothing differentiates the faces with which we are familiar from every other face we

"the human features in the abstract can be suggested with an ease that is astonishing. Scrawl a wavy line with a few irregular zigzags, made absolutely without purpose, and you have done the trick. Anybody with the slightest talent for drawing will transform it into a face in a twinkling by the addition of a dot for an eye and possibly a small quirk for a nostril. One of the zigzags does duty as a forehead, another becomes a nose, and two or three more form a mouth or a chin. It is very curious and makes a good game. More than once I have amused myself by covering a sheet of paper with aimless scrawls and then going over them and developing the faces. They would exhibit all sorts of charactersfierce, foolish, pompous, jovial, stupid, cunning, bland, scheming. No two were ever alike, and some of them were strikingly realistic. Several years ago a northern newspaper man made what he thought was a remarkable discoverymerely that a small wad of paper placed on a table near a lighted lamp would almost invariably cast a shadow that would form the outlines of a grotesque some artist friend told him different. The readiness with which the vague patterns of old wall paper lend themselves to the forming of queer, leering faces is another bit of evidence to sustain my point.

"You will understand, of course, that I have no reference to portrait work. That is extremely, supremely difficult, and the ability to catch a likeness is pretty nearly a gift from the gods. I am speaking simply of more or less distorted lines that nevertheless promptly suggest the human face. It is not so with the lower animade less noise and took herself and her a cow requires a good deal of skill and deposits out of the bank, giving the old | technical knowledge. A GIRL AND A PORTRAIT.

An Instance of the Influence of Heredity at a Picture Gallery.

There was a loan collection of old portraits exhibited in London lately, and a young girl was among the visitors. She was an orphan and wealthy, but without near relatives and was often heard to complain of the loneliness of her position.

but the commonplace painting of a midpart of the last century.

"It is such a nice, kind face," said the girl rather wistfully. "I imagine my father might have looked like that had he

As most of the pictures were ticketed the visitor's had purchased no catalogue, half its own weight, what is the weight | but before going away Miss B. bought one at the entrance and made a last visit to the portrait for which she felt so strong an attraction. To her astonishment she found her own name opposite astonishing what a very simple query to its number and learned on inquiry will sometimes catch a wise man nap- that the original was one of her direct ancestors.

Another occult coincidence or psycholegical phenomenon happened a few years ago to a southern statesman and financier whose family has always been of rank in his native state. This gentle man was overhauling old documents and letters which had been stored in a musty chest for years and intended to publish whatever might be of historic value and interest.

To his surprise he unfolded a letter yellow and time stained which was written in his own peculiar handwriting, or seemed to have been written by him, although the date was two generations before his birth. The signature of the surname, which was the same as his own, was so markedly characteristic that he could scarcely believe his own hand did not pen the letters. So it sometimes happens that handwriting as well as features and character is handed down in

A man in Haslingdean, England, who recently applied for a certificate exempting his child from vaccination, quite staggered the clerk with the Christian name of the child, whereupon he explained that the name would be found in reception as soon as he was through with "Hisahi," eighth chapter, second verse. The clerk looked up the Old Testament and in Isaiah found the name Mahershalal-hash-baz. "That's it," said the applicant and thoughtfully explained that he and his wife had come across it in the Bible and thought it aristocratic and therefore chose it. The clerk suggested that John was a more popular name among the aristocracy, and the applicant accepted the suggestion so far as to say that "their next" should be named John. but this would have to be Maher-shalalhash-baz.

Alaska Not Barren.

It is a popular impression that Alaska s a frozen zone and that the soil is bar ren and worthless. This is a mistake. The sun is hot, the snow moistens and enriches the earth, and the soil in the valleys is fertile and productive. Wheat, corn, oats, barley, buckwheat, flaxseed and a considerable variety of vegetables and forage plants can be successfully grown in many parts of the territory.

Impervious. children as you are.

-Pall Mall Gazette

HUMAN FACES.

"It is a very singular fact," said a local artist, "that the human face is the pose that the exact reverse would be the in nature so mobile and in a sense of the word so varied. It is a trite saying, you know, that it would be impossible to find two men on earth who look exactly alike, and none of us need be told that there is always a mysterious something that

ever encounter. "But for all that," the artist went on,

Doctors disagree as to the influence of heredity. Some hold that a great deal hinges upon it; others believe the contrary. Some of the authentic stories told to exemplify this mysterious bond between ancestors and descendants are very curious.

As she passed through the gallery one particular portrait attracted her attention, and she went back to it more than once. Her companion saw in it nothing

Rough on the Child.
