night the pastor Rev. A. J. H. Strike was in his place and delivered a practical discourse.

-Rev. Mr. Manning preached about er's deliverance was one of the finest line may appear shortly. During the service Mr. Manning referred to the fact of his having received anonymous letters. He read part of one and made an explanation and comment regarding it, that must have given the writer, if present, and uneasy few minutes.

-Rev. J. W. Macmillan was in Montreal preaching on Sunday. in the Old Testament, Mr. Evans confirmed the teaching of the text. He insisted that in modern times God directs all the actions of men and nations. Nothing happens that He has not forcordained from entenity. The men who caused the South African war were doing what God had willed. No man lived longer or led sooner than God willed. The d-fashioned Presbyterian doctrine the sovereignty of God will abate ding under Mr. Evans' teaching. -Sunday was a red-letter day with the Salvation Army. The fahand-bell ringers under Brigather Pickering were in town. On saturday they arrived and attracted a big crowd at the open-air meeting in the corner of Kent and Cambridge-On Sunday afternoon the crowd assembled on the street and t the barracks. At night very ineresting meetings were held. On londay night a religious concert was in the barracks. A good crowd was there. The musical selections on stringed instruments and with the and-tells were excellent, and the various vocal numbers were much enloyed. The proceeds of the meetings equalled \$100. Half of this goes to the local corps and half to the S. A. shelter work. Adj. Bale and staff are to be congratulated upon both the quality and success of these

Animals as They Sleep. "In mild weather," says a gentleman farmer quoted by the Philadelphia Record, "my horses and cattle sleep afield, and sometimes I wander softly among them in the moonlight. It is strange to see how they lie, with every head pointed in the same direction, the direction from which the wind is blowing. Do you know why that is? It is because they have in them an instinct of fear, and they front the wind so that their keen noses may catch instantly the first breath of an approaching danger. Poor things! All you have to do is to approach softly from behind, and you can be right in among them before they are aware of it. My horses are even more cautious than my cattle, for they, in addition to facing the wind, sleep also with one ear cocked backward. Then I have a dog that sleeps not only facing the wind and with one ear cocked, but with one eye open also. He is, for sure, a cow-

The White Pine The white pine is distinctively a northern tree. The native distribution

of the tree was from Newfoundland on the east to Lake Winnipeg on the west and thence to the southern boundaries of Wisconsin, Michigan, Pennsylvania, New Jersey and Connecticut. The white pine belt also followed the Appalachian range as far to the south as Georgia. The best growth of the tree was in Maine and the British territory east of the state, along the St. Lawrence river, in New Hampshire.
