city speak on Socialism. He is about its light plant may be of ina young man of fluent speech and

Mr. Simpson is an enthusiast for Socialism in the alteract. He likes the sound of the word and its related terms "co-operative commonwealth," "government control," and "public ownership"; but of the details of the subject or of Socialism as a practical business proposition he apparently knows very littlewhich was unfortunate, for there is a good deal of interest in some socialist questions in this town at present, and an able speaker would

On Saturday night he spoke in favor of government control of railways and other public utilities. He said there was a difference between government ownership and public ownership, but failed to tell what it
