TWO DOORS EAST OF BENSON HOUSE

Lindsay and Beaverton

Hymeneal.

On Wednesday, March 7, a quiet wedding was solemnized in St. Scott's, Methodist church, Fort Rouge, Winnipeg, when Mr. Geo. W. Southam, of Oxbow, Saskatchewan, was united in bonds of holy matrimony to Miss Margaret Neely, an employee of Eaton's establishment, the Rev. H. J. Morgan officiating. After the ceremony a reception was held at Mrs. G. E. Waring's, a friend of the bride, after which the guests partook of a dainty and well spread supper. The happy couple will remain in the city for a few days after which they will take up residence at the groom's home in the vicinity of Oxbow.

GILCHRIST-CAMPBELL.

A very pretty wedding was solemnized at the home of Mr. George Campbell, Hartley, on Wednesday, March 14th, when his eldest daughter, Miss Annie, was united in marriage to Mr. Donald Gilchrist, of Brandon, Manitoba. The ceremony was performed by Rev. J. A. Ferguson, B.A., of Glenora. The house was tastefully decorated with red carnations and smilax. The bride, who was given away by her brother, J. C. Campbell, wore a becoming gown of white silk with chiffon trimmings, and carried a shower bouquet of white carnations. The bridesmaid, Miss Katie Campbell, sister of the bride, was attired in grey cologne over tulle, and carried a bouquet of pink carnations. The groom was assisted by Mr. Archie McMillan, of Glenora. The wedding march was played by Miss Ella Campbell, of Cameron. After the ceremony a wedding dinner was served to about 60 guests. The groom's gift to the bride was a Persian lamb coat, and to the bridesmaid a gold brooch. Mr. and Mrs. Gilchrist will make their home in Brandon, Manitoba. The bride's travelling dress was a suit of green ladies' cloth, with hat to match.

OF INTEREST AND IMPORT TO FARMERS

Preserve your Stock

The Veterinary Specialty Co. Limited 556 Dundas St., Toronto

FISH AND GAME PROTECTION.

A meeting is to be convened in Lindsay at an early date for the purpose of considering the protection of fish and game, at which Mr. A. Kelly Evans, Secretary of the Ontario Fish and Game Protection, Toronto, will be invited to attend. Efforts of this kind have been attempted before but have failed because they have been purely local and isolated efforts. Recently branches have been formed, and by having headquarters at Toronto, a cohesion has been given to these branches, and in unity of forces, influence can now be brought to bear in the right direction.

A few weeks ago Mr. Evans spoke at Bobcaygeon, at which place a branch of the society was organized. At this meeting Mr. Evans deplored the process of extermination of fish and game that was going on everywhere. While fish in Lake Ontario in the recollection of middle aged men, were so plentiful that as many as 90,000 had been taken in one haul of a seine net. Such quantities were killed that they were left to rot, and used as manure on the fields. The same process was carried on in Lake Erie. The process of extermination continues. The farmers along the Kawartha lakes are in the same position as the farmers on the large lakes. They know perfectly well that the man who nets the maskinonge in the rivers, who spears and shoots them over the spawning beds, and takes the bass from their nests along the shore, is exterminating them as effectually as the net fishers did the white fish. There is, however, this great difference, the white fish is merely a food fish, the bass and maskinonge are both food and sport and one pound of sport fish is worth fifty pounds of food fish to the locality that can attract sportsmen.

A maskinonge destroyed at the spawning season kills 150,000 eggs. The Kawartha Lakes possess a charm all their own. They will attract many who do not care for the more northern solitude of the wilds. They are nearer to the busy centres, and easy of access, and when the Trent Valley Canal is completed it will furnish one of the most magnificent cruising routes, imaginable for yachts and house-boats. Beautiful crafts are now being used by the moneyed Americans on waters that are mere ditches compared to the Kawartha Lakes, and the tributary chain of waters. The best class of Americans will be attracted to this unique waterway, provided sport be given. They will pay anything for what they require. Farm products will be needed, and that means good money to the farmers. They will spend their money freely, but not for the pleasure of seeing the scenery. That they can get in other places, they must have some incentive. It is found in the bass and maskinonge of these lakes, which are the largest and finest on the American continent. And why so? Simply because the lakes provide the best food supply for the fish. In Temagami the bass are not over three and a half pounds in weight, because that district is north of the natural food supply for the bass.

The protection of the fish is largely in the hands of the farmer. He can teach his boy the impropriety of taking fish at the spawning season. The protective association.

branch of which it is hoped will be formed in Lindsay, is an educative one, rather than one that is seeking for prosecutions. It aims to show the people that there is a law, and that it is to their interests to observe it.

We hope Lindsay citizens will take a lively interest in this question, and that they will show that interest by attending the meeting in large numbers.

Born.

KINNEAR—In Lindsay, on Sunday, March 11th, to Mr. and Mrs. J. Kinneer, a daughter. HURST—On March 9th, in Bobcaygeon to Mr. and Mrs. Robt. Hurst, a daughter. NO MONEY REQUIRED UNTIL EGGS ARE HATCHED. This is the best incubator on the market and always gives satisfaction. Also agent for PARAD ROOFING for all kinds of buildings, sides and roofs. GORDON KING, Oakwood P. O.—12-4.

WELL EXPLOSION.

Benjamin Cooney, a middle-aged married man, was brought to the City Hospital Belleville, last Friday in a badly mutilated condition, the result of a premature explosion in a deep well which he was digging. He was down 30 feet when he put in two charges of dynamite. While being drawn up in the basket, and near the top the explosion took place. Cooney was terribly injured by flying rocks, one large piece going completely through the palm of his left hand. Both hands hanging onto the rope were fractured, one leg was also badly cut, while the man's face was peppered with flying stones. Thirty stitches were required to sew up the injuries on one hand. Cooney is expected to recover unless blood-poisoning sets in. How the accident occurred is a mystery, as Cooney is an experienced miner.

Obituary.

CHALMERS. Mr. Andrew Chalmers died last Thursday afternoon at his home, 685 Lansdowne Avenue, Toronto, after half an hour's illness. He had just returned from his place of business on Bloor-st., when he received an apoplectic stroke from which he never recovered. Deceased, who was in his 71st year, leaves a widow, two daughters, Mary and Kate, and one son, Walter, all living at home. The family moved to Toronto some fourteen years ago from Lindsay, where he was a tailor. In religion the late Mr. Chalmers was a Presbyterian. He was a strong Liberal in politics. He was born in Montrose, Scotland. Two sisters, Mrs. Hubert and Mrs. Bright, living at Kilmount, Ont.; another sister, Mrs. Gidley, in Victoria B.C., and a brother David, at Burst River, Ont. The interment took place on Sunday afternoon to Prospect Cemetery.—Toronto Globe.

SHORT-HORNS SOLD.

Recently, John Campbell, of "Fairview," Woodville, sold of the Short-horns advertised in our columns a real good Strathallan cow with one heifer calf at foot to Mr. Neil McLean, of Woodville, Ont. To Mr. Alexander Grant of Cresswell, he sold a choice young bull of the same family. The Strathallans are known as being among the very best strain ever brought across the sea. The advertisement is continued as there is still one good bull and a fine two-year-old heifer on offer. They are good ones, and are sure to please somebody.

SCOTCHMEN PROTEST

Short-horn breeders in Scotland are starting a general campaign to arouse sentiment against the removal of the cattle embargo. According to a resolution passed by a large and representative meeting in Perth meetings are to be held in every country district in Scotland to present petitions to be submitted to Lord Carrington. These petitions will view with "serious apprehension" the possibility of importing thrashers. Mr. Taylor

said the value of these interests amounted to £100,000,000 to £180,000,000, while those who wanted the removal of the embargo consisted of feeding farmers with small interests. A few years ago he talked with two Canadian M.P.'s and this enabled him to say that if a plebiscite was taken to-morrow they would be against the removal of the restrictions. Mr. Gordon mentioned a local case in which disease started by a calf, cost £10,000 to stamp out. It was absurd to think that Canadians could guard 3,000 miles of frontier. Mr. David Hume admitted that there was no disease in Canada at present, but although British cattle were quarantined sixty days, thousands were admitted from Mexico, Texas and Colorado without quarantine.

TORONTO TO PORT PERRY.

Proposed New Railway from Toronto to Port Perry.

A new line which will seek incorporation this session is the Toronto & Port Perry Electric Railway. This company is being formed by capitalists in York and Ontario counties, chiefly in the district which will be served by the line. The line is projected to run from the city eastward to Port Perry, a distance of about 35 miles, but the exact route it will follow has not yet been decided upon. It would presumably enter the city, or, rather, approach it, in much the same way as the Scarborough line. The incorporators expect opposition from the James Bay Railway, which will run for a portion of its route through the two counties and not very far from the electric line. As an answer to this it will be argued before the railway committee that the electric line will serve a different section of the travelling public and supply accommodation which the steam line cannot give.

As to whether the new company will seek to secure entrance into the city the promoters will not speak, but they declare that they have no connection whatever with the existing radial railways.

Said in a Few Words

William Pym: "Thirty-five years ago last Thursday, 15th, I left Port Hope with a train pulled by two engines. It took us two days to make Lindsay and return. It was the worst snow storm of the season. There were no snow plows at that time. The engines would drive as far as they could, and when embedded the forty men we had with us would pile in and shovel the track clear for a space ahead to give the engines another chance. At the Summit, 14 miles out from Port Hope, it took four men in turn to pitch the snow over the top of the cut."

BURLEIGH FALLS POWER

CENTRAL ONTARIO POWER COMPANY WILL COMMENCE WORK SOON.

Mr. J. Culverwell, managing director of the Central Ontario Power Co., was in town this week. He stated that he is satisfied that work and development will be started at the Company's property at Burleigh Falls before May 1st. The main line will pass through Peterboro, Millbrook, Bevertonville and Oshawa; the two last places have applied for some 1800 horsepower. It is also the intention to run a branch line from a point north of Millbrook up to Omeme and Lindsay. There is ample power, as Buckhorn Falls power will be tied to Burleigh Falls circuit together giving a capacity of some 7,000 horsepower in the dry season—that is according to the estimates of competing power works at Peterboro. Mr. Culverwell referred to the strong opposition he had always been up against by Peterboro power owners and interested Toronto people—that was always the trouble of the delayed development.

Last winter he had organized the Northumberland-Durham Power Co., Limited, to develop Healy Falls, on the Upper Trent River, the greater part of which the Company now control. He had nearly fifty of the leading business men as shareholders in Cobourg, Port Hope, Colborne and Brighton, besides millionaire Americans who reside at Cobourg in summer. Twelve municipal Councils had at their own expense gone to Ottawa to assist him. In regard to Healy Falls, he said that number waited on the Ontario Government, all of which goes to show the energetic enthusiasm of the people on the front as to the necessity of electric power for the industrial progress of the country.

Mr. Culverwell hoped to see more Lindsay people show a disposition to help forward the entry of Burleigh and Buckhorn power to this district. Incidentally he spoke of the great deputation going to Ottawa on the 29th to press for the completion of the Trent Canal—the question of outlet to be forbidden. He hoped Lindsay would be alive to the needs of water transportation and would also send a deputation.

Cures Rheumatism Too.

Bu-Ju cures Rheumatism, because it cures the Kidneys. Every drop of blood in the body passes through the kidneys, to be filtered. If the kidneys are sick—tired—inflamed—they don't filter out the acid. It is this acid, deposited in the joints—on the nerves—that causes Rheumatism.

Bu-Ju THE GENTLE KIDNEY CURE

cleans, heals, strengthens the kidneys—sets them to working properly—cleans the blood—stops the acid—and takes away every trace of Rheumatism and Sciatica.

THE CHLORIN CHEMICAL CO., LIMITED, WILLOW, ONT., NEW YORK.
