Read the following testimonial: Peterboro, July 9th, 1905 To Whom It May Concern,

This is to certify to the curative powers of Dr. Unger's Liquidified Lightening. I was completely laid up with Barbers' Itch for seven weeks, unable to do work of any kind, four weeks of which I spent in the Peterboro hospital. I was so bad that I thought the flesh would drop off my face. I used one bottle of Dr. Unger's Liquidified Lightening and it cured me completely, leaving very little marks of the disease on my face. I would recommend any person who is troubled with Barbers' Itch to lose no time in getting a bottle of this remedy, as I am confident that it will effect a complete cure. L. O'CONNOR, Peterboro.

Henry, of the South Ward was skating on the river between Burkes' Mill and the Rider & Kitchen factory, where the ice is treacherous owing to the comparatively strong current. He broke through. W. Raymond and D. Watson who were working near by, hurried to the rescue, and the former plunged into the icy water and succeeded in grasping the lad by the hand as the current was taking him under the ice. Raymond was unable to get out on the thin ice, however, but managed to keep aloft till Watson, (with Armstrong and others who had now arrived on the scene) shoved a 12 foot board to them. The ice was, by this time, giving way all around, and several of the party were wet; but they succeeded in getting Raymond and the boy out in time, though they were benumbed and almost exhausted with cold.

—Miss Bannons Spring Opening of Millinery will be held on April 4th and 5th.

"A successful and profitable week's business," is the way Proprietor and Manager Carroll expressed himself, when in conversation with our representative on Saturday. Day, Lakeview Farm, Powell's Corners, Ont. Mr. Day is one of the oldest breeders of Percheron horses in Ontario, and he claims that this pair of grey geldings are fair specimens of his breeding. His fellow employees thoughtfully raised a purse of money and sent it to him to help defray his expenses.

—Another most successful euchre tournament was held last Friday evening at the room of the King Edward Club. About fifty members were present and the games proved most exciting. Twenty games were played and of these Mr. Leigh Knight won fifteen, capturing the first prize, whilst Messrs. Bert Kelly, D. Powers and J. Gray tied for the second prize with fourteen games each.

—Mr. Mack Gray was again favored, winning the second prize. The booby prize was won by Mr. Macpherson after a play off with Mr. A. Macdonald. The next tournament will be held in about two weeks. The King Edward Club is slowly but surely progressing, nine new members being added last week.

—A public meeting for the purposes of organizing a local branch of the Fish and Game Protective Society, will be held in the Council Chamber, on Thursday evening April 5th. Addresses explaining the objects and methods of operation of the Association, and other matters of interest will be given by Messrs. Kelly Evans and Oliver Adams of the Toronto branch.

—Mr. John Carow has purchased the property known as the Parkin mills, and will establish a box factory therein.

—Dr. E. A. Totten will be out of his office until the last of this month of March.—12-2.

—Lindsay is not noted for evil deeds and scenes of horror are the exception here, so that what follows will be easily credited: A certain young lady was watching from an office window the other day, and saw a man minus one leg carried from a stable and placed in a cab. Pretty soon a man followed with a boot in which was the missing leg, and threw it into the cab also. The young lady, believing that foul play was being done, was horrified and fainted dead away. The gentleman of the office flew to her assistance, and when she was brought to consciousness she told her story. Upon investigation it was discovered that Bob Douglass had broken his wooden leg and was being taken home.

—Mr. Thos. McGillicuddy has been engaged to lecture on "Homeless People," at the Baptist church here, on Monday evening, April 9. Mr. McGillicuddy is connected with the department of agriculture, and is one of the most entertaining speakers ever heard in this locality. He will be remembered here as one of the prominent speakers at the Ontario Dairymen's Association convention.

—Messrs. D. Cinnamon and D. Watson, of the Lindsay Camp of Woodmen, were in attendance at the meeting of the premier camp in Guelph last week. Mr. Cinnamon was honored by being elected Head Advisor Lieutenant, the second highest position in the gift of the Woodmen.

—The dog that caused such trouble to pedestrians and which disappeared after Chief Nevison had given it poisoned meat, was discovered dead, in the cellar under the barber shop of Mr. A. Eastwood. The question now arises, "who did poison Mr. Sinclair's hound?"

—Fenelon Falls Gazette: The first effects of the shock caused by the fire on Monday last week have to a large extent worn off, but residents of the village have not yet returned to their normal state of cheerfulness and optimism. The blow was too heavy to be forgotten in a few days and remembrances of it will probably remain for many years. But, although the loss is a severe one, to the whole community, as well as to the direct losers in hard cash, there is no reason to despair. The town has not gone to the everlasting bow-wows yet. The directors and others interested in the woodenware factory are unanimous in the belief that the firm was just entering upon a career of great prosperity.

—Mrs. Bonny, who comes from Fenelon township, an inmate of the House of Refuge, N. B. Number 1, jumped from a third story window on Saturday afternoon and sustained severe injuries, being badly shaken and a leg fractured. She will likely recover.

—At Monday night's meeting of the finance board, a special dividend was appointed consequent to Mr. Boxall's report, to see about getting a new boiler for the Fire Hall. The old one, according to the expert report, is not worth repairing, and the need of a boiler requires haste in renewing it.

—Mr. John Carow has purchased the property known as the Parkin mills, and will establish a box factory therein.

—Mr. Ed. Armstrong of Messrs. Dundas & Flavelle's had a beautiful silver grey fox skin brought in by a north country farmer last week. These animals skins are extremely valuable and bring sometimes as much as \$1000. Owing to the careless handling of the animal after it had been killed, the skin was slightly damaged, and in consequence the selling price was somewhat reduced.

—Mr. Armstrong is in communication with some of the principal fur buyers with a view to the disposal of the skin, and will retain ten per cent. of the price as his commission.

Fleury; 2nd Vice Pres., W. E. Baker; Treasurer, A. Fisher; Secretary, Jos. Staples. The executive committee will be appointed later. During the evening a resolution was passed requesting Town Council not to alter the Butcher's By-law.

—A Hope correspondent writes: there is great excitement throughout the whole town with the fear that there will be a disastrous flood. The heavy rains of Monday and Tuesday have turned the Ganeraska River into a raging torrent, and the whole business part of the town is threatened if any of the dams to the north give way. The large Walton-street bridge is impassable, and part has already been carried away. The water is flowing over all the other bridges. These bridges connect Protestant Hill with the west part of the town, and the residences are practically cut off. The only means of connection is the G.T.R. viaduct. The water is flowing over the dams at Barrett's flour mills and along Ontario-street, down Walton-street, thereby hemming in all the southeast business section. Patrols have been placed on all the railroad and town bridges, for it is feared the bridges may go at any time as the water is rising gradually. The whole population of the town is out waiting to see the town bridge carried away, which, if it occurs, means considerable damage to property.

KISSING HIS BOOK. Rev. Dr. Milligan in his discourse in old St. Andrew's, Toronto, last Sunday, advocated the doing away of taking the oath on the bible in the courts, and suggested that the witness be allowed to affirm with right hand extended to heaven. There was a danger from germs in kissing the book used by so many, and the good book in such an instance was not more potent than any almanac, being only paper and printers' ink.

Chartered on the 14th September, 1905, with an authorized capital of \$100,000, it continued operations until the 1st of March last, during which time the Port Credit Brick Company obtained a judgment against it for \$777.
