Eczema Must Yield to DR. CHASE'S OINTMENT

THE WONDERFULLY SOOTHING, HEALING INFLUENCE OF DR. CHASE'S OINTMENT

There is one thing you can depend on, Dr. Chase's Ointment to do every time, and that is to cure eczema. There is no more severe test to which an ointment can be put, and because Dr. Chase's Ointment triumphed over eczema it has become the standard ointment.

When another ointment is praised, it is said to be as good as Dr. Chase's. And this illustrates the high position held by this preparation.
Mrs. Oscar Vancott, St. Antoine, Sask., writes:—"I have found Dr. Chase's Ointment to be a permanent cure for eczema and other skin diseases. One son while nursing broke out with running, watery sores all over his head and around his ears. Many salves were prescribed to no effect. The child's head became a mass of scabs, and he suffered agony untold. He became weak and frail, would not eat, and we thought we would lose him.
"Providentially we heard of Dr. Chase's Ointment, and it soon thoroughly cured him. He is seven years old now and strong and well. An older boy was also cured of eczema by this ointment, and we hope more people will learn about it so that their poor little ones may be saved from suffering."

Do not be satisfied with the experience of others, but put Dr. Chase's Ointment to the test when occasion arises. Try it for chafing and irritation of the skin, for chapped and cracked hands, for chilblains and frost bites, for sores and burns. It is delightfully soothing and healing. 60 cts. a box, all dealers; or Edmanston, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipes.

Good Market— Poultry Comes High
Considering the condition of the country roads the market was fairly well attended this morning, when a large quantity of butter and eggs were disposed of at reasonable prices. Col. Hughes Says Canada is Unfairly Treated—Boycott Bisley

Ottawa, March 3.—The proceedings at the opening of the House yesterday were unusually interesting.

Col. Sam Hughes took a fling at a recent law passed by the National Rifle Association (Great Britain) which seems to be aimed at the Ross rifle, and suggested that until the rule was removed Canada should refuse to send a team to Bisley. But the colonies think conspirators in Canada are at the bottom of the trouble, and he had a little duel with Col. Worthington.

Up till now, said Col. Hughes, the rifle which Canadian marksmen used at Bisley had been unquestioned, because the service arm of Canada was also the service arm of the Mother Country, but last year an attempt was made to prevent the use of the Ross rifle at Bisley. The N.R.A. this year had passed a new rule barring rifles other than the service rifle of Great Britain, unless one of the pattern had been deposited with the N.R.A. three months before the opening of the Bisley meet, and had been "approved for use." This left it uncertain whether the Ross rifle would be used, the effect being that riflemen were afraid to purchase the Ross arm.

No self-respecting association or Government, he declared, would tolerate such treatment of its official rifle. The objections to it had been engineered by conspirators in Canada in the pay of the small arms companies of England, in order to discredit the Canadian rifle. So far as he was concerned not a Canadian rifleman should go to Bisley.

Dr. Reid: "How would you make them change the rule?"
"Let the Canadian boys stay [at home]," replied Col. Hughes, "until these gentlemen are brought to time."

The British Government should be notified that the Ross rifle was the official arm, and that the production of a certificate by a Canadian marksman that the rifle he proposed to use was the official arm of the Dominion should be sufficient.

Sir Wilfrid Laurier:—"Hear, hear."
Col. Worthington described the question introduced by Col. Hughes as a tempest in a teapot, whether or not the issue was against the Ross rifle, or against the Ross rifle mark II, double star, was the standard arm of the Canadian militia. He declared it was not. Only five hundred of these rifles had been ordered, and they were issued only for competition purposes.

Col. Hughes declared that letters had been written to the N.R.A. by Col. Worthington, not for the purpose of helping rifle shooting, but to prevent the use of the Ross rifle at Bisley.

Col. Worthington said in remarks upon, or stand against, the Ross rifle which he had made, had been for the purpose of placing at the service of the militia the best weapon possible.

Col. Hughes challenged him to go up and say that he had not inspired the N.R.A. Col. Worthington remained silent.

In reply to a question in the House by Richard Blain, of Peel, Hon. Sw. Fisher said that the outbreak of rabies in Western Ontario, had seen to call for some action by the Dominion authorities.

The veterinary director-general had communicated with the Ontario authorities, and as a result of negotiations, it was decided that the Dominion Department of Agriculture should issue an order to put certain parts of Ontario under a dog muzzling order. The provincial authorities issued an order.

The establishment of a Methodist college at Regina was authorized.

at the same time that the municipalities should issue a similar order. He was not in a position to note any condition which would justify the cancellation of the order.

Major Currie asked if there was any possibility of compensating farmers whose stock had been destroyed by mad dogs. Mr. Fisher replied that they would have recourse against the owners of such dogs.

Major Currie remarked that that would be difficult, as a mad dog would run fifty miles, and the owner would be hard to locate.

Mr. Comtee's bill to incorporate the International Waterways Canal and Construction Co., didn't get much farther ahead at yesterday's session of the railway committee.

J. F. Whitson, chief surveyor of lands for the Ontario Government, attacked the project from an engineering standpoint. He said that between Lake Superior and the height of Lema there was an elevation of 1,100 feet there was an elevation of 1,100 feet there was not enough water to float a canoe.

Hon. Geo. P. Graham remarked that he presumed that the promoters had satisfied themselves as to the water supply.

Mr. Whitson contended that along the highest stretches of the proposed canal there was no continuous stream. The lockage, he said, would be three times as heavy as on the Erie Canal, and the cuttings would be through solid rock.

Mr. Comtee contended that it was an engineering question which the committee could not settle. He maintained that the water supply was better than that available for the Georgian Bay Canal.

The elevations to be overcome, he said, were not as great as on the Erie or Georgian Bay canals.

Because of the fear that the company plans to utilize the source River, and so would imperil the source of Winnipeg's power, Alex. Haggart, M.P. for that city, suggested an adjournment until the City Council and Manitoba Legislature could be heard from.

Geo. Bradbury, M.P. for Selkirk supported him, remarking that there were millions of horse-power awaiting development on the Winnipeg River, and it was important that this should not be allowed to pass to the control of the company.

On a strictly party vote, the Haggart amendment was defeated, while the preamble to the bill was carried. Hon. Mr. Pugsley then renewed his suggestion of reference to a sub-committee, adding Mr. Haggart to the committee.

Adjournment for a week was ordered, and in the meantime the westerners will be notified.

UNSIGHTLY WARTS REMOVED.
I have been asked whether stepping on a man's corns gives provocation for swearing. Answer: Keep the toes clear of corns by using Putnam's Corn Extractor. It's the best.

ELECTED OFFICERS.
At the annual meeting of the Ontario Rifle Association held in Toronto, Lieut.-Col. Hughes of Newtonville, Lieut.-Col. Sylvester, Major Williamson and Major King, of Lindsay, were elected members of the Council, representing District No. 3.

The mineral production of Ontario for 1909 was valued at \$32,652,072, nearly \$7,000,000 more than in the preceding year.

Conservative members of the committee appointed to investigate the Ludsen charges at Ottawa withdrew because they were not allowed to appoint counsel to conduct the examination of witnesses. The Liberal members desired to appoint Mr. Wallace Nesbitt.

Childrens Chest Troubles

NURSE CARRINGTON SAYS HER LONG EXPERIENCE PROVES THE SAFEST REMEDY IS TO RUB ON NERVILINE

Every mother knows how difficult it is to get a young child to take a cough mixture. Seldom will one help unless given in large doses, and the result is to completely upset the stomach and make the child sick.

Speaking of the promptest cure for chest troubles and children's colds, Nurse Carrington says: "In all my experience in nursing I haven't met any preparation so dependable as Nerviline. It is the ideal liniment. Every drop you rub on is absorbed quickly, sinks through the pores to the congested muscles, eases, relieves, and cures quickly. Especially for chest colds, pain in the side, stiff neck, earache, toothache, I have found Nerviline invaluable in treating the minor ills of children. Nerviline has no equal. I think Nerviline should be in every home."

A million bottles of Nerviline used every year—this is itself a burden of proof that it is the ideal liniment for the home. Refuse anything your dealer may offer instead of Nerviline. Large bottles 50c, trial size, 25c. Sold everywhere, and by The Categorical Co., Kingston, Ont.

SUFFERED FOR YEARS
Says Pe-ru-na Completely Restored Health.

MRS. CHAS. GROS LOUIS.

Mrs. Chas. Gros Louis, Indian Loreite, Quebec, Can., writes: "For years I suffered from a disease that the doctors did not understand. One day I read in the paper about your excellent remedy, Peru-na. I procured a bottle of it and took it according to directions. It was not long until I observed a change for the better. I can say that Peru-na has cured me. I could not take any nourishment except milk. I will at all times say a good word for Peru-na. I hold it in the highest esteem."

Not only women of rank and leisure praise Peru-na, but the industrious, useful women engaged in manual labor would not be without Dr. Hartman's world-renowned remedy.

The doctor has prescribed it for many thousand women every year and he never fails to receive a multitude of letters like the above, thanking him for his advice, and especially for the wonderful benefits received from Peru-na.

Four vessels collided in the fog outside Sandy Hook yesterday.

Part of Mr. P. Bray's farm slid into the Nation river, near Casselman, carrying some farm buildings and stock with it.

Robert Henderson was committed for trial at Norwood for the murder of Miss Margaret McPherson.

The Dominion Government has decided to remit tonnage dues on American vessels at lake ports, in return for similar action by the United States.

The fine was paid for and the young man released charge for carrying a pistol without license.
In marked contrast to p spring weather was the severe trial storm which visited i Sunday and took the form of blustery blizzard and snow storm morning. The first Sunday in brought thunder showers and ing to Lindsay and vicinity, ing the temporary close of the well which has been here week. While Lindsay has n thunder storms so early in M years past, electric storms struck Lindsay as early in t as February 8th. The storm considerable damage throughout country. It came from Briti mbia and moved rapidly to but was general all over o the thundr being confined to Georgian Bay and Lake Onta gions. Cold weather is now apated, as the saying goes thunder storms at this time year are generally a sign of approaching cold weather. The Lion is making itself felt.
