PLEETWOOD.

Fleetwood, March 7.—Miss Louise Lall, who has been visiting her relatives in Cavan for some time, returned home on Sunday.

Mrs. Daniel Jones, who was very unwell for some time, is on the mend and we look for her speedy recovery. Mr. David Flack, who has been dangerously ill with pneumonia of the lungs and a bad attack of pleurisy for some time, is better at the time of writing. He was under the careful treatment of Dr. Hamilton, of Bethany, who being a young practitioner, is having great success.

Mr. Robert Flack, of Lindsay, spent Sunday with his brother David.

Mrs. John Crawford who has been ailing for some time is getting around again, under the treatment of Dr. Brereton, of Bethany.

Mr. John Leslie was cutting wood with his machine for Mr. T. E. Shea last Saturday, and soon disposed of a large pile of logs.

Sleighting is getting very poor in this part and if the weather does not soon turn colder, with some fresh snow, the wagons will soon be running again.

Mr. and Mrs. Thomas Jackson, of Ida, were at Mr. and Mrs. David Flack's on Sunday.

TRANSFERRED TO COBOURG.

Mr. Stanley Naylor of the local Standard Bank, has been transferred to Cobourg, and left for that town Monday.

LUMBERMEN RETURNING.

FROM A SHADOW TO ROBUST HEALTH

IS THE CHANGE DR. WILLIAMS' PINK PILLS MADE IN A NEW BRUNSWICK WOMAN.

Anemia—bloodlessness—is a trouble confined largely to women and growing girls. Its victims are pale; they lose all strength—the least exertion greatly fatigues them and they suffer continually from headaches and depressed spirits. Nothing will cure anaemia so quickly or so surely as Dr. Williams' Pink Pills—they have cured thousands of cases, not only in Canada but throughout the whole world. They do this because they make good blood. Among those cured by these Pills is Mrs. T. Chalmer Hartley, East Florenceville, N.B., who says: "At the age of sixteen I fell away to a mere shadow. I had scarcely any blood and suffered from all the distressing symptoms of anaemia. Doctors did not help me in the least, and acting on the advice of a friend I began taking Dr. Williams' Pink Pills. They effected a remarkable change in my condition; indeed I really believe they saved my life, as I have been well and strong ever since I took them. I also recommended the Pills to a neighbor's daughter who was similarly run down, and they also completely restored her health."

Every woman and growing girl should take Dr. Williams' Pink Pills occasionally. If you are ailing from any of the many troubles which afflict your sex they will cure you; if you are not ailing they will protect your health and keep you well and strong. Dr. Williams' Pink Pills are sold by all dealers in medicine or direct at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Orchard and Garden in March

"Prune fruit trees, shrubs and hardy roses. Graft fruit trees with better varieties. Prepare for spraying. Sow seeds of tomatoes, cauliflower, etc., in the hotbed. Start flower seeds in boxes in the house. Re-pot geraniums, ferns and other plants for summer decoration." These are some of the things that gardeners and fruit growers can do this month, according to the March issue of the Canadian Horticulturist.

Other topics discussed in this issue of that magazine are lime-sulphur vs. Bordeaux for spraying, low-headed peach trees, kind of apple trees to plant, raspberry culture and the growing of tomatoes, onions, potatoes and cauliflower. The leading article tells how fruit growers may make the commercial lime-sulphur wash at home.

Amateur gardeners will find much to interest them in articles pruning rose bushes, sowing garden seeds, hardy shrubs, peonies, annuals, tree planting, polyanthus and many others. The issue is well illustrated. Samples of the Canadian Horticulturist may be had on request. It is published at Peterboro, Ont.

WALKED TO FENELON.

Three Lindsay young men, Messrs. Bert Robson, Charles Dennis and Ed. McInnis walked to Fenelon Falls Sunday morning, a distance of fourteen miles, by the track. They covered the distance in three hours and thirty-one minutes and enjoyed the walk immensely. The boys remained in the Cataract village during the afternoon and started on the homeward journey about six-thirty o'clock, but they had not walked very far when it started to rain and the fierce blasts of lightning put a danger on the idea of continuing the journey to Lindsay, so the three pedestrians hoofed it back to Fenelon and attended church, returning to Lindsay this morning.

Could Not Sleep In The Dark.

Doctor Said Heart and Nerves Were Responsible.

There is many a man and woman tossing night after night upon a sleepless bed. Their eyes do not close in the sweet and refreshing repose that comes to those whose heart and nerves are right. Some constitutional disturbance, worry or disease has so debilitated and irritated the nervous system, that it cannot be quieted.

Mrs. Calvin Stark, Rossmore, Ont., writes:—"About two years ago I began to be troubled with a smothering sensation at night, when I would lie down. I got so bad I could not sleep in the dark, and would have to sit up and rub my limbs, they would become so numb. My doctor said my heart and nerves were responsible. I saw Milburn's Heart and Nerve Pills advertised and got a box to try them. I took three boxes and can now lie down and sleep without the light burning and can rest well. I can recommend them highly to all nervous and run down women."

Price 50 cents per box or 3 for \$1.25 at all dealers, or mailed direct on receipt of price, by the T. Milburn Co., Limited, Toronto, Ont.

DOES POULTRY PAY?

W. S. PHILLIPS OF McAULEY, MAN., ANSWERS THE QUESTION.

Those of our readers who are interested in making a profit from poultry raising, will undoubtedly be interested in the following letter from W. S. Phillips, of McAuley, Manitoba. Mr. Phillips was one of the prize winners in the recent "Poultry-Fer-Profit Club" contest held by Lee Manufacturing Co., Limited, of Pembroke, and this letter was written in acknowledgment of the prize money which he had just received. Mr. Phillips' letter reads:

McAuley, Man., Jan. 13th, 1910. Lee Manufacturing Co., Limited, Pembroke, Ontario.

Dear Sirs,—I am in receipt of your cheque for Ten (\$10.00 Dollars), for which please accept my sincere thanks.

I feel that there is more praise due the Peerless Incubator than myself in this contest. I have had my Peerless two seasons. First season (1908), I purchased all my eggs for setting, paid my first payment of \$24 and cleared \$126. Last season (1909) I purchased \$18 worth of eggs, paid last payment of \$24 on incubator, paid cost of feed, houses, etc., \$64, and showed the following balance sheet:

Sale of cockerels for breeding purposes .. \$ 96.00
Sale of cockerels dressed .. 21.00
Value of pullets and cockerels on hand .. 230.00

Total .. \$347.00

Expenses .. 106.00

Profits .. \$241.00

This is \$367.00 profit from one Peerless in two seasons, and the machine is still as good as new. Does poultry pay?

It gives me pleasure to see future success in "box-car letters" marked up for your firm.

Thankfully yours,
(Signed) W. S. PHILLIPS.

We are very certain that there are but few of our readers who are not familiar with the name of Lee Manufacturing Co., Limited,—the firm to which possibly more than anyone else in Canada is due credit for advancing the poultry interests of the Dominion. The missionary work done by these people to help the cause of poultry raising, has been heavy; but the results have justified the labor. The field is a big one—broad and full of wonderful possibilities—and their work is bearing fruit. Their methods are intelligent and worthy of more than passing commendation, while the advice they offer free to those interested has proved a revelation to thousands.

Readers of this paper who are not already familiar with the wonderful little book, "When Poultry Pays," would do well to send at once for it to Lee Manufacturing Company Limited, 59S, Pembroke-st., Pembroke, Ontario. This book is sent free on request—though it is so valuable that it really ought not to be. The information contained in it is invaluable to any poultry raiser.
