We Advise You To Buy Furs time. Mr. B. Laidley is spending a few ays at his home here. Right NOW

Now we present you the season's very lowest prices and strongly advise you to buy now and save dollars for we offer you furs at

Less Than Wholesale Prices.

Probably you have been putting off the buying of your furs until a time when prices would be cut deep for a final clearance and thus make the largest saving possible. If this has been the case, that time has arrived at this store. Good furs are always good buying and at the prices we are going to quote you, there is not the slightest reason for your not having a first class garment of what ever kind you most desire.

You have heard of bargains, but when you can buy genuine first quality furs at less than wholesale prices there certainly is a strong argument that you should buy them now and put dollars in your pocket. The story of these reductions is simply a matter of giving our customers the furs at bargain pricesto give them the inside track on a money saving, sure value investment rather than carry any over to another season. Furs will not likely be any lower priced next year so that every dollar you invest here will bring you big interest.

All small furs, Ladies' fur coats, Ladies' fur 'lined coats, Men's Coon Coats, Men's fui lined coats.

Everything in the line of furs will be offered now at final clearing prices --less than wholesale.
