Damage by Storm

at "Little Bob"

Bobcaygeon, March 25.—Some persons said recently, referring to the may debate in the House of Commons at Ottawa, that wind was king, and we might have a stormy, blustering spring. Just whether that may prove true remains to be seen, but we sure have been talked fair to death on that wonderful subject, and it appears the end is not yet. That, however is not our theme just at present. If wind has been king at Ottawa, there was a blow of another kind on Good Friday, and like what the framers say, "The wind she's blow like hurricane, bymbye she's blow some more," just about tells the tale of how it did blow; but while it blew like a hurricane here, it blew a tornado elsewhere. In Bobcaygeon and vicinity not very much damage is reported. The smokestack was blown down from Mr. Arneberg's planing mill. Mr. Chas. Thurston's barn in South Verulam had the west gable end blown in, and as a consequence the roof of the straw house adjoining west aeroplane, but collapsed in the yard. The barn of Andrew Watson on the Humphries farm, Sturgeon Lake, was also partially unroofed. The telephone and telegraph wires went on strike about 3 o'clock, because of its terrific force. Barring jokes, it did seem, at times, as if some demon held possession and was held tight in its destructive grip. But, like what another poet (Longfellow) says, that "After a day of storm and wind and rain, sometimes the setting sun breaks out again." So it happened, and should so happen after the Easter recess at Ottawa.

Easter brought a number of families back to the place of their childhood, and others to what seems, as one said, like the only home he ever had. Easter sermons were preached in all the churches. The Church of England held early morning service from 8 to 9 a.m., commemorating the early visit of the women to the sepulchre. In the evening Rev. Mr. Smith, chaplain of the riding club, preached the annual easter sermon, choosing as his subject "A time to cast away stones." Rev. Arthur L. Phelps, of Victoria University, preached in the Methodist Church in the evening, his subject being "Yet following."

Progress is being made at the new power house, under supervision of Mr. Wesley Dunn. The machinery arrived just as the snow was going, and was drawn down and housed, so as to be in readiness when required. We should soon have our lights again restored.

Mr. Wilson Dema, of King-st., had the misfortune to lose a valuable horse yesterday. The animal was taken ill Saturday evening while working at the power house, and died with a form of paralysis. His loss cannot be replaced for less than \$200. Mr. James Selby, of Main-st., north end, has sold his property to Mr. David Bardeau, of Harvey. Mr. Bardeau has moved into town, and Mr. Selby at present occupies Mr. Lathan Garlick's house.

Announcements were made from the

pulpits Sunday to the effect that a lady from England, an ex-president of the Temperance organization, will give an address in the Baptist church the evening of Tuesday, April 1st, in the interests of social and moral reform work. She will, it is understood, address the Women's Institute that same afternoon.

Mr. Richard Nicholls won the cup last week in the three pair of stone or thirteen point game. His win is a popular one, for there is no more sportier curler in the club than the same Richard. He curled two hard games the last day of play, and winning both is entitled now to pay the fee of fifty cents, less or more, and have his name engraved along with the other celebrities of the past, on the cup. Mr. Nicholls played five games in all. If we mistake not, it was Mr. Neidler who presented this cup to the club when it first organized. The cup is now almost filled with names.

The Crops

Much of the anxiety which prevailed amongst farmers in regard to the safety of fall wheat and clover, has been dispelled by the appearance of the warm days. The danger from ice, which was the supreme cause of their anxiousness, did no harm to either crops.

The Warrier had reports from many agriculturists in the surrounding townships and all concurred that the wheat and clover was in sound condition yet. In not one instance has a report come in of either plants heaving from the soil. There is a fair acreage sown in Ops township.

Wednesday evening was a splendid success. The costumes were good, and a fair crowd attended. The Rubie Band were very becomingly gowned. Large hats and narrow skirts, showing very large feet, seemed to be the leading style, and the splendid musical selections attracted the attentions of the crowd, and several good selections were played, which were thoroughly enjoyed by the skaters.
On Tuesday evening also a splendid concert, given by local talent, also in aid of the orchestra fund, entitled, "The American Women," was held. The acting was well done, and the play exceptionally good; but owing to the conditions of the roads was not as well attended as would have been.

They consisted of two drivers, two express horses and two well bred and registered mares. The animals had been in Mr. Weese's stables during the past week, and were admired by a large number.

Sheep and Cattle Had Grand Feast in Granary

Millersmith, Mar. 24.—Mr. Wm. Patrick suffered considerable loss from the wind storm last Friday. At one of his farms the barn door was blown down and let all his cattle and sheep into the granary, which was nearly full of grain. Mr. Patrick not knowing what had happened went down to the farm to feed up the stock in the evening, but to his surprise they had helped themselves. One sheep was dead and a number of the cattle were sick. Dr. Rice was telephoned and came none too soon to save their lives. As yet no cattle have died and he thinks they will be alright in a few days. Mr. Patrick also had the chimney blown off his house.

times, to place great weight on advice from British statesmen and experts in naval matters." It declares that Canada cannot do the impossible, and that the country is not prepared to spend \$75,000,000 on a fleet before a decent commencement could be made in the construction of battleships.

Three Liberal Papers

The St. John Globe, which is the oldest Liberal newspaper in New Brunswick, says: "We doubt if people generally throughout Canada are taking very much stock in the Parliamentary play, except in so far as that play reveals a constitutional defect which should be repaired. The majority must rule."

The Montreal Herald, the chief English-Liberal newspaper of Quebec, is inclined to let the Government's emergency vote go through if Mr. Borden will present his permanent naval policy to the people when he goes to the country at the next general election. As this is what the Prime Minister has promised to do all along, The Herald may now be considered as supporting him, and as opposing the Parliamentary blockade.

May Make a Big Fight To Cover Their Retreat

Ottawa, May 24.—The House resumes to-morrow, after the Easter recess, with the political situation considerably altered. There has been and will be no change in the determination of the Government to render the promised aid to the naval defence of the Empire as provided in the Naval Bill. There is, however, a noticeable lessening of the tension, and this is due to the fact that the blockers fear the effect of stopping all supplies for the public service. More or less official statements are forthcoming to-day that the Opposition will not take the responsibility of refusing the usual percentage vote of the estimates for the new fiscal year. It is also stated that the Liberals have abandoned the intention of maintaining the blockage of the Navy Bill on the lines previously followed, namely, of continuous weekly sittings. If these announcements are made good the effect upon the

Parliamentary struggle will be important. It may mean the beginning of a that the Opposition recognizes the surrender. It means, if nothing else, failure of the attempt to force a dissolution. Some sort of fight will be put up, if only to cover a retreat, but it may not be of a very serious nature. If there is anything like a real attempt made to resume the obstruction of the Naval Bill the necessary changes in the rules of the House will be made without delay.

OBITUARY.

LILA MCGEE.
Lindsay citizens will regret to hear of the sad death of Lila McGee, beloved wife of Mr. Fred Marshall, which occurred at Calgary on the morning of Easter Sunday, after several weeks' illness.

The death of Mrs. Marshall is particularly sad, owing to the fact that she was but 19 years of age, and was married on New Year's day. She is survived by her father, Mr. J. W. McGee, of East Lindsay, one brother and one sister, namely: James, at home, and Viola, at Lakefield. A twin sister of the deceased died about two years ago.

NORLAND.
