LAXA LIVER PILLS

Who have used Laxa-Liver Pills have no equal for relieving and constipation, Sick Head, Biliousness, Dyspepsia, Tongue, Foul Breath, Burn, Water Brash or any disorder of the stomach, bowels.

George Williams, Fairfield Plains, N.S., writes as follows: "As there are no medicines offered for sale in this part of the province, I am particularly grateful for Laxa-Liver Pills inasmuch as they far surpass any other purgative in regulating the bowels and clearing the stomach disorders."

Laxa-Liver Pills are purely vegetable; they weaken nor sicken, are easy to take and prompt to act.

THE RIVER CLAIMED ANOTHER VICTIM ON MONDAY AFTERNOON

The Young Son of Hotelkeeper Brown Was Carried Over the Dam

A distressing accident occurred at the dam on Monday afternoon about 3 o'clock. By it Fred Brown the 9-year-old son of the Lindsay-st. hotelkeeper lost his life.

The heavy flow of water passing over the dam now and the hope of seeing the first sucker tender that attractive resort for the boys. At the west end of the dam there is the fish slide, a chute down which a strong current is running. While playing on the dam and just above this chute, the lad fell into the water and was instantly swept into the river which is a rapid tumultuous current for 200 yards from that point.

Some men were working on the Maple Leaf below the bridge. Alarmed by the cries of the boy's companions and persons on the bridge who had witnessed the accident, they rushed on deck, in time to see the drowned lad whirled toward the boom of logs anchored below. Percy Cullon leaped over the side and swam out in a vain endeavor to reach him and reached shore in an exhausted condition. Two men pushed out a boat but without oars or paddle and saw the boy drift past them without being able to assist him. Shortly after he disappeared and was seen no more.

All attempts to find the body by grappling have proved in vain and it will likely not be found until it floats. Great sympathy is felt for Mr. and Mrs. Brown who not long ago lost another son by diphtheria.

FOR EVERY MOTHER

A Manitoba Mother Gives Paactical Advice on the Care of Babies

It is well known that nearly all infant troubles spring from a disordered stomach. Indigestion in a child will cause at first peevishness and sleeplessness, but other more serious troubles will follow fast, such as colic or cramps, constipation in some cases, diarrhoea in others, with fatal results in many cases. The mother who neglects having constantly at hand the means for treating these ills takes an awful risk. Mrs. R. L. McMillan, Logoch, Man., is one mother who is particularly well fitted to give advice on the care of babies. Her standard medicine for the minor ailments of her little ones is Baby's Own Tablets, and she says:—"They are the best medicine I have ever used for infant ailments. I have given them to my baby for indigestion and stomach trouble and they are prompt and thorough in making a cure. No mother should be a single day without the Tablets in the house."

Baby's Own Tablets are for children of all ages, and will cure such troubles as constipation, colic, sour stomach, diarrhoea and simple fevers. They are invaluable for teething children and will break up colds and prevent croup. Guaranteed to contain no opiate or other harmful drug. Dissolved in water they can be given with perfect safety to a new-born babe. Sold by all dealers in medicine or sent post paid at 25 cents a box by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

A BANKER IN TROUBLE

Mr. McLelland is Another Victim of Speculating in Stocks

On Tuesday of last week Reuben A. McLelland, of Brockville, banker, real estate dealer, and stock broker, for several years a member of the Brockville town council, was arraigned charged with the serious offence of misappropriation and conversion of trust funds. The information on which these proceedings are based was laid by Mary Cranston Wilson, of Denver, Colo., one of the executors of the estate of William Martin Dorman, of Cornwall, and charges McLelland with having during the interval between January 1900, and January 1902, received of the moneys of the estate sums amounting in all to \$23,657, and with having fraudulently converted the sum of \$14,200 to his own use. McLelland has failed in his business and is said to have lost the missing trust funds in stock speculations.

To Cheese and Butter Makers

Mr. H. B. Cowan of Ottawa, corresponding secretary of the Eastern Dairymen's Association writes:—"With the object of securing better organization of the dairy interest, the Eastern Ontario Dairymen's Association is endeavoring to secure a complete list of all the competent cheese and butter makers in the eastern part of the province. When complete the list will be published and circulated among all cheese and butter factories. In this way the factories desiring the services of competent makers will know where to secure them. By having such a list the Dairymen's Association will also be able to send any important announcements or dairy bulletins direct to the maker whenever necessary. Circulars have been sent to cheese and butter makers to be filled in and returned to the association. Makers who have not received one of these circulars yet should write to Mr. Cowan."

Barrie Church Robbed

The Roman Catholic church at Barrie was robbed by burglars on Wednesday night of last week. Deqa Eggen, an telephoned the police, and the night-watch with some citizens went to the scene. Two men were captured, and two very suspicious characters were arrested a short time afterward. While transferring two of the three from the lock-up to the jail, the night-watch and men assisting were attacked by the prisoners, who were finally overpowered. The church had been ransacked, and a valuable gold chalice and other articles are missing.

REV. P. H. ALLIN WAS BURIED AT LITTLE BRITAIN THURSDAY

A Large Number Were Present—Appreciative Addresses by Revs. Manning and Clare

The late P. H. Allin, B.A., whose death was recorded in these columns last week, was buried in the Methodist cemetery Little Britain on Thursday afternoon.

Mr. Jos. Maunder, Mrs. Allin's father, went to Montreal accompanied by his wife, on hearing that Mr. Allin was dead. On Wednesday Mr. Maunder returned with the body, which was taken to the home of Mr. G. W. Prouse, Mariposa.

The funeral service at the Fairmount Avenue church, of which the dead minister had been pastor, was very impressive. It was conducted by Rev. Dr. T. G. Williams, chairman of that district.

Dr. Williams said he had kept his eye on Mr. Allin ever since, as probationer, he had come into the Montreal conference. He had been appointed to hard fields and always been successful. He was a man of remarkable devotion, simplicity and good sense. Dr. Williams had seen him in conference when his name had been set opposite some difficult station: for a moment a look of disappointment sometimes passed over his face but no word of complaint or protest ever crossed his lips.

At the Methodist church Little Britain, a large audience assembled. The choir had prepared suitable music and the service throughout was

LATE REV. P. H. ALLIN

most impressive. Rev. J. E. Robson, pastor, presided. Rev. Thos. Manning, B.A., of Lindsay, spoke of the departed as an ideal Methodist preacher. He had not known him personally but had heard excellent things of his choice spirit and faithful work.

Rev. G. R. Clare of Oakwood, had written his final examination for the ministry at the same time as Mr. Allin. They had written side by side at the Cambridge-st. Methodist church in this town. At that time the Bay of Quinte conference was crowded with young men. In talking of their prospects Mr. Allin had said to him "The Lord will find me some corner to work in." Mr. Clare spoke in feeling terms of the departed as a Methodist minister and a personal friend of his own.

The warmest terms of appreciation rarely find so complete fulfillment as in the late Mr. Allin: no designation of his personal excellence can become flattery; from early youth to his too early death he measured up to the stature of a perfect man in an unusual degree.

Prof. J. H. DeSilberge Coming.

Prof. DeSilberge, the eminent German eye specialist, will be at the following places on the dates mentioned:

Fenelon Falls, at the Mansion House, Wednesday, April 9th, to Saturday, 12th.

Kinmount, at Scott's Hotel, Monday, April 14th, to Wednesday, 16th.

Minden, at Dominion Hotel, Thursday, April 17th, to Saturday noon.

Bobbygeon, at Rockland House, Monday, April 21st, until Wednesday afternoon.

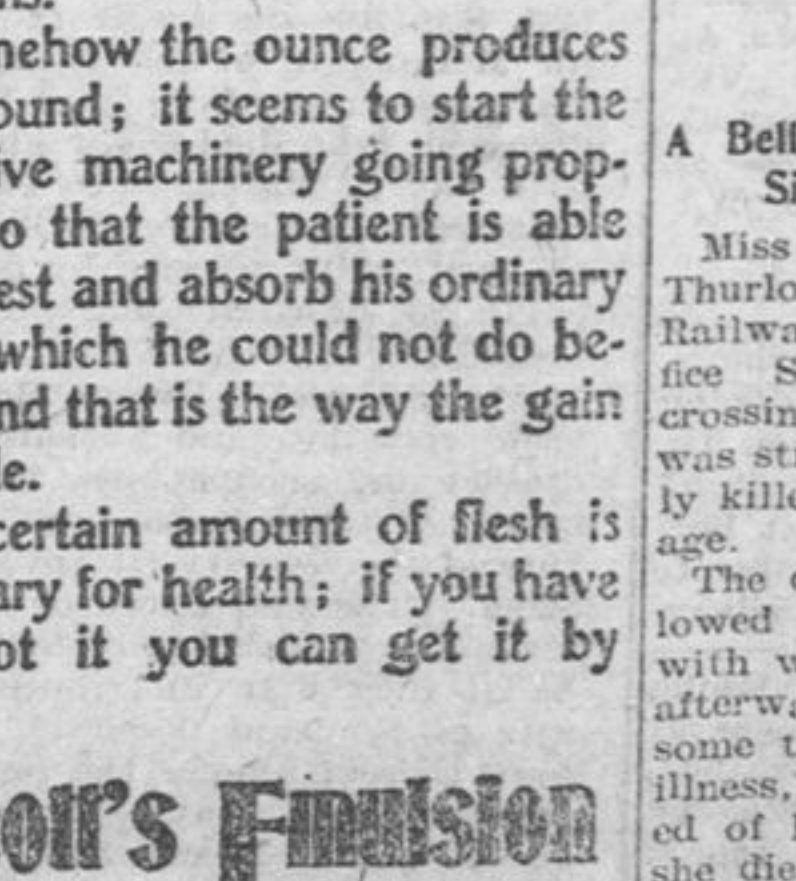

Consultation free. Keep the dates in mind.—13-4.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somehow the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Scott's Emulsion

You will find it just as useful in summer as in winter, and if you are thriving upon it, it don't stop because the weather is warm.

Scott & Bowne, Toronto, Canada.

FOUR CANADIANS CAPTURED AFTER HEROIC RESISTANCE

An Account of the Big Drive by Which Kitchener Tried to Get Even With Delarey

A Pretoria despatch thus tells of the spirited drive made by the British forces against Delarey, and its partial success:

About 1,500 Boers, under Liebenberg, Kemp and Wolmarans, were within the area of Lord Kitchener's latest move, but, although surprised by the rapidity displayed by the British troops, gaps in the latter's lines enabled most of the burghers to escape.

The Boer prisoners totalled 179 men, including Commandant H. Kruger and ex-Landroost Meethling of Klerksdorp.

From the first prisoners captured it was learned that Gen. Delarey himself was outside the actual cordon, having slept some distance westward, but Liebenberg, Kemp and other Boer commanders were inside the column of troops. The first body, consisting of about 500 Boers, sighted at 10 o'clock in the morning, March 24th, retreated at full speed, making for a gap between the British columns. A race for the opening ensued. British Mounted Infantry, which had already ridden upwards of 50 miles, pressed their tired horses until they gave out, when the men jumped off and raced forward on foot. Some of the mounted men, however, were able to gallop right into the gap just ahead of the burghers, whom they met with a warm fire. These troops also succeeded in driving back another body of 300 Boers, who were forced to desert the guns they had captured from the Von Donop convoy in February. The Boers tried to get through several openings, but on each occasion were forced to double back, until they, ultimately found a gap and passed out of the British lines, within sight of Klerksdorp. Night fell before the pursuing columns could overtake the Boers.

CANADIANS TAKEN

Five Canadians were set out of their column and tried to work their way back were surrounded by a Boer force and made a splendid defence. But finally seeing their cause was hopeless, four of the Canadians surrendered. The fifth, however, indignantly refused to throw down his arms and continued a single-handed fight until he was killed. This was regarded as one of the most interesting incidents of the day.

An instance of the resourcefulness of the Boers was given by Liebenberg and several hundred men. Taking advantage of the confusion of the drive, he and his followers assumed a formation similar to that of a British column, and, moving close to one of the numerous gaps in the British lines, succeeded in reaching the opening before their ruse was detected and got safely away.

The guns captured from Von Donop's convoy were brilliantly recaptured by the Scottish Horse, who charged up to the muzzles of the artillery and rode the Boer gunners off their feet before the latter had a chance to fire.

The four men taken when General Methuen was captured are still in General Delarey's hands. Those recaptured by Colonel Kekewich are the guns lost at the time of the Von Donop convoy disaster.

TWO SISTERS DEAD

A Belleville Lady Killed by a Train—Sister Died From Hearing of it

Miss Laura Penny, who lived in Thurlow, north of the Grand Trunk Railway, visited the station post-office Sunday afternoon, and when crossing the tracks on her way home was struck by an engine and instantly killed. Deceased was 49 years of age.

The death of Miss Penny was followed by the death of her sister, with whom she lived, a short time afterwards. This lady, who had for some time been confined to bed by illness, was so affected when informed of her sister's tragic death that she died within a few minutes. The sisters were buried together.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

A CLERICAL FIRE EATER

Rev. Bland of Ottawa Stampedes Himself About Canada's War Policy

It is fortunate that Canadians do not take preachers more seriously, when they cut loose with such wild-eyed observations as those made by Rev. S. G. Bland, an Ottawa Methodist on Sunday night. The Toronto Star reports him thus:

In a sermon on the religion of Cecil Rhodes, Mr. Bland said Canada needed a Cecil Rhodes to crystallize true Canadian sentiment in regard to British relations, and especially in connection with the South African war. The Government, he says, displayed only the patriotism of pigs who look for more swill, while the Opposition, instead of protesting, set up an everlasting whine for a quid pro quo.

Canada, he says, has been overpaid for everything she has done for Britain, and fails to realize that this war is being fought for Canada, and that nations stand for ideas and not to make money. He asked if it was to found such a Canada that the United Empire Loyalists came here. Young Canadians are anxious to go to war for the Empire, and they are not looking for what they can get out of the Mother Country.

Lord Minto, he said, must have blushed to sign the cablegrams from his Ministers to England telling the Mother Country that the Government did not consider it would be in the public interest to pay for the equipment and transport of another contingent. Mr. Bland also criticized

the Government for refusing to discuss Imperial defence, and said the graves of young Canadians in South Africa were a reproach to the Dominion Government, and that he was sorry to see that the Opposition took no other stand than to whine for a quid pro quo, and ask the British workman to pay a few more cents for his loaf of bread for the pleasure of eating Canadian flour.

ELIAS POWELL OUTDONE

A Rival Has Discovered Perpetual Motion First

Charles Wondries, a Chicagoan, believes he has solved the problem of perpetual motion. With the aid of a tall, hollow tower, or shaft, a heavy flywheel and two lighter fan wheels and nature, he declares he can produce continuous movement anywhere in the world. On Friday Mr. Wondries gave a demonstration of his discovery.

A brick tower 96 feet in height and a brisk wind assisted the inventor in his experiment. A canvas chute leading to a hole in the base of the tower, helped materially in creating a strong suction; the wheels, which were inserted between the chute and the tower, went around rapidly, and the experiment was a pronounced success.

The fan-wheels are placed on each side of the flywheel, the draught caused by the tower strikes first one of these and then the other, communicating, meantime, with the rotating wheel and the motion is produced.
