Straightening the G.T.R.

During the week the G. T. R. solicitor has been looking up the titles of the properties through which the shortened line is to pass between Lindsay and Cambay. These properties in order from Lindsay west are owned by Messrs. Sam Fox, Spratt & Killen, M. O'Halloran, Jas. Crowley, Geo. Culbert, W. C. Silver, to the 4th concession; A. Robinson, W. Jordan and Jas. McLean, between 4th and 5th concessions; George Hopkins, Jos. Minty, Thos. Moore, John B. Graham, and Newton Small in second concession. It is anticipated that the business of closing the sale and transfer of these properties and right of way will be completed at once, and then Solicitor Chisholm will turn his attention to the changes to be made to the south on the division between Lindsay and Port Hope. The line will be straightened, it is said, leaving the present route at Reaboro and joining it again at Bethany or Franklin. Some five or six surveys have been made in the attempt to improve the entrance of the lines to Port Hope. Work will commence on the line to Cambay as soon as the frost is well out of the ground.

-The next special attraction to be presented at the Academy of Music will be that time triad romantic drama, "Fabio Romani," which is a splendid and deftly arranged dramatization of Marie Corelli's wonderful work of fiction, "The Vendetta." OPS COUNCIL PROCEEDINGS

A regular meeting of Ops council was held on April 9th, with all members present. The minutes of last regular and special meetings were read by the clerk and adopted on motion of Messrs. Coulter and Roche.

Communications were read as follows: From Geo. Smith, O.L.S., township engineer, in reference to ops drainage and other matters; From Jas. Dickson, O.L.S., claiming \$5.75 balance of account from R. C. Tomkins asking bonus for 12 rods of wire fence built by Mr. Wm. D. Hunter.

From Messrs. McLaughlin & Peel on behalf of John Willock, Fenelon, who was thrown from his buggy near Hopkins bridge on March 7th because of an overturned meat wagon on that road-side frightening his horse; and stating that the accident was the result of the neglected condition of the roadway at said place, and that a claim for damages would be made in due time.

From J. P. Donald, secretary of board of trade, Lindsay, asking council to petition government to rebuild the dam and locks at Lindsay.

After reading and considering Mr. Smith's letter; the following resolution was passed: Moved by Mr. Wm. H. Wilson, seconded by Mr. Jas. Roche, that Geo. Smith, O.L.S., township engineer be instructed to proceed as soon as possible with the survey and report on the proposed drainage as petitioned for by Mr. Alex. Mahood, owner lot 11, con. 11, and by others.—Carried.

The following accounts were then examined and passed and were paid on motion of Messrs. Best and Coulter: Watchman-Warder, printing since Oct. 5th, per account \$89.97; Jas. Dickson, bal. of account, \$5.75; J. G. Edwards, fence bonus, \$10.50; John Deyell, jr., work on boundary, \$5; W. W. Workman, livery, posting notices, \$1; Thos. Whalen, removing crusher, \$1.50; McLeman & Co., pick and handle, 75c; Thos. Faulkner, refund school tax, \$4.

Mr. Roche moved, seconded by Mr. Coulter that the commissioners be permitted to use money appropriated for roads, to pay wire fence bonus, if necessary, and that the treasurer be instructed to place all unexpended appropriations of 1905 to the credit of the respective commissioners of 1906.—Carried.

On motion of Messrs. Coulter and Wilson, all applications for wire fences approved by council were accepted and passed.

Hunter, Moore and Cinnamon each addressed the council setting forth the superior qualities of their respective fences. The models produced were certainly good and prices nearly equal. The council made no contract, but promised to consider the matter in due time.

On motion of Messrs. Roche and Best the reeve and treasurer were authorized to borrow money to pay the current expenses of the township till the taxes of 1906 shall have been collected.

A by-law to confirm the appointment of pathmasters, fenceviewers and poundkeepers and one to empower the reeve and treasurer to borrow money were next passed signed and sealed.

The question of the Omemece road question is still in abeyance. The by-law to re-open it across the 8th and 9th concessions was introduced by Mr. Stewart, solicitor, and on motion of Messrs. Wilson and Coulter, it was read the first time, and the first reading carried. The matter was fully discussed by the reeve and Mr. Reid. The reeve wished to know if Messrs. Reid and Fox would claim any more money than they had been paid in case the road were opened again. Mr. Reid said he was not prepared to say what they would claim, but told the reeve they might open the road if they wished; that he did not care much whether it were closed or not.

The reeve repeated what he had said at last meeting that he was willing to let it and some of the other by-roads such as the Oakwood, be decided by vote next January.

Senator McHugh remarked that in case such roads be submitted to a vote of the people they should be taken separately as no one was equally interested in all. Mr. Ellis said that Messrs. Reid and Fox deserved credit for having left the road open all winter. After consulting Mr. Fox, Mr. Reid said they were willing to leave the road open till next election for a consideration of one dollar and then abide by the decision of the municipal council of 1907.

The council would not assent to that. Mr. Crown remarked, "Let the Reaboro people vote on the road. What do the people west of the river and northeast of Lindsay care about Reaboro?"

The solicitor said a sectional vote was out of the question. Mr. Reid wanted council to fully explain their reasons for opening the road. The reeve said he had given his reason for

opposing the by-law passed last December closing the road. Ex-reeve Jackson who was present, wanted to know what guarantee the council were having now to meet expenses in case they open the road.

The by-law was then read a second time. Mr. Wilson in the chair, and declared carried, the yeas and nays being 3 and 2 as before.

A resolution was then passed postponing further consideration of the by-law till Monday, May 7th at next regular meeting of council.

Before adjourning the reeve referred to the Willock accident near his place and said he hoped Mr. Willock had not been hurt much. The wagon that scared the horse had only been a few hours there. It broke down and was removed as soon as possible, so there was no neglect in the matter and such accident might happen any where along the road.

W. F. O'BOYLE, Clerk.

STOCK NOTES

Messrs. J. H. Carnegie and W. T. Hogg, reported their imported Clydesdale stallion Theakston as having entered in fine form. He will resume his old route under the charge of George Lake.

Mr. Wm. Gunn, of Laxton, has recently purchased the pure Clydesdale sire Democrat, 4290, from Messrs. Smith & Richardson, Whitby. Democrat is a handsome bay. Farmers of the north country should encourage Mr. Gunn's action.

Mr. Wm. Channon, of Mariposa, has been dipping deeply in short-horn cattle recently. At the Innes sale at Sonya recently he purchased two cows and three calves for which he paid \$420. He has also recently purchased from Mr. James Casey, of Valencia, two calves for which he paid \$160. In order to make his herd first-class, he has recently purchased from Mr. Johnston, of Pickering, an aged cow, a yearling heifer and a yearling bull. His investments have amounted during the last few months to over \$1,200, which cannot but result in good to the township. Mr. Channon is not only a good farmer, but he realizes the value of good stock.

Recently Mr. Joseph Beatty, of Omemece, purchased from a Lindsay syndicate the handsome black stallion, Frank Smith.
