Rev. Fr. O'Sullivan..... 6 Mayor Ray... The Board have now occupied the new buildings for a year and a half and have become fully aware of its merits and defects. One of latter the heating apparatus is the principal difficulty, as it does not seem to be of sufficient capacity to properly warm the building, particularly the stack room. This matter must receive attention as soon as the cold weather is over and the heating made thoroughly satisfactory in every way to the comfort of the public and the employees of the Board before another winter is fully entered upon. During the year automatic door checks were placed on the front doors and they are a great improvement. Double windows have been ordered for the stack room which will help materially in making the room more comfortable. The want of ventilation in the men's reading and smoking room in

the basement has prevented it from being used very much, and so far it has not answered the purpose for which it was intended. Possibly this difficulty can be overcome in some way and improvements made which will tend to make the room more popular. The Board was represented at the Ontario Library Association meet-

ing in Toronto at Easter last by Mr. Knight, who subsequently presented an admirable report of the proceedings, which was greatly appreciat-The Board of Education appointed the Rev. James Wallace a member of the Library Board in place of Mr. E. A. Hardy who resigned in 1904

The reports of the Librarian and Library Committee will deal with

the matters which have had their attention during the year. G. S. PATRICK, A. P. DEVLIN. Secretary. Chairman.

The circulation reported monthly by the Librarians shows the Library to be well patronized by the public, and it will be our duty to en-

It was found that a number of books had been removed from the library without being shown to the Librarians. This most reprehensible infringement of the regulations was much regretted by the board, who are very loath to deny the great privilege of open access to the majority of patrons on account of the flagrant abuse of the system by the few. They trust that attention now being called to the matter, they will not in future be obliged to receive reports of a similar nature. F. D. MOORE,

Librarian's Report for Year 1905

February 14th, 1906.

To the Members of the Lindsay Public Library Board : Gentlemen.-I have the honor to submit to you a short report for the year 1905. The new library is being fully appreciated by the publicmore especially the Reference Department, which is very much used by the students of the different schools, who seem to get the information they require. There have been a few of the lost books returned. The total number of Library cards issued was 295 and the whole circulation for the year being 21,295, out of that: 11,146 being fiction, being an increase on the whole of 1,687 books. There were 363 volumes added to the Library during the year, of which 90 were fiction. donations were received: Some 16 volumes of well-bound Debates of the House of Commons, Ottawa, given by Dr. Vrooman, ex.-M.P., for South Victoria; also, 6 volumes from the Library of Congress, Washington, U. S.A.; one volume from Philadelphia, and one copy By-laws, County of Victoria. Respectfully,

S. M. REAZIN,
