Government Standard Seeds

The following circular which has been sent out by the Dominion Seed Commissioner will be of interest to buyers of grass and clover seed.

Purchasers of red clover, alsike and timothy seeds who want a good clean article should see to it that the seeds they buy are clearly represented by a reliable person or firm to be of first quality, by being marked "No. 1," "Prime," "Fancy," "XXX," or such other designation for which a special standard of purity is fixed in Section 4 of the Seed Control Act.

"Government Standard" is a term coined by seed vendors and may be misleading unless clearly understood. Section 4 of the Act fixes a standard of quality in respect to weed seeds, below which timothy, alsike and red clover seeds are not allowed to be sold for seeding, either by farmers or seed merchants. This standard allows of the weed seeds named in the Act, about 90 in one ounce of red clover, 200 in one ounce of alsike, or 400 in one ounce of timothy seed. It is to seeds that will pass this lower standard, but are not sufficiently clean to grade "No. 1" that the term "Government Standard" was attached last season.

Some seed vendors have advertised seeds under "Government Seal." No Government seal is used on any seeds offered for sale in the trade. Some reliable seed houses sell grass and clover seeds sealed by them and for which they alone are held responsible as long as the seal remains intact, but not after it is broken.

To avoid the provisions of Section 3 of the Act, which applies mainly to seed grain, some seed vendors represent to farmers that on account of the Seed Control Act, they are offering their grain for sale for milling or feeding purposes. If offered for sale for seeding, such vendors are required to make clear to intending purchasers that the seed contains wild oats, wild mustard, cockle and such other noxious weed seeds when they are in the seed. The object of the

Spare the Trees

It will pay every farmer to exercise his influence in the direction of sparing the trees growing on or beside the public highways, particularly trees on roads running through our more thickly-settled rural districts. In Ontario we are accustomed to read about blizzards, but, as a rule, we are not familiar with them through suffering from or witnessing their ravages. However, as the few remaining trees of our small forests are falling, the custom is growing of felling the few trees found growing along our highways and in our more inaccessible ravines. The result will be that our farms will become more and more exposed to the ravages of the deadly cyclone. Some farmers urge that the trees shelter the roadside, to the loss of their crops. No doubt this is the case in many instances. At the same time, the trees repay for the loss in crops by providing homes for useful birds and by giving shelter to cattle, to say nothing of the good they do by relieving the countryside of monotony and giving the landscape a beauty and an interest, to be had from no other source. Besides, there are large sections of our country, such as many of our hillsides and ravines, that will not be available for agricultural purposes for many a day, but which might well be devoted to forest purposes. The man who guards his young forest trees will be blessed by his children and his grandchildren, and will be doing not a little to save his native land from the ravages of the tempest. School children should be reminded of the value of trees,

For the Sake of the Milk Pail

C. F. Cather, of Indiana, tells this story to impress the farmers of his state with the importance of building a silo. It will apply in other states just as well:

"Compelling a cow to eat dry fodder instead of rich, juicy silage, reminds me of a story a well known evangelist tells: 'A lady who prided herself on never turning a tramp empty handed from her door, was one hobo one day by a member of the hobo fraternity, when, as it happened, she had nothing but bread to offer him, but cutting a thick slice she handed it to him, saying, 'I give you this not for your sake, nor for mine, but for the Lord's sake.' The tramp took the bread, turning it over and over in his hand, finally said, 'My dear madam, not for your sake, nor for my sake, but for the Lord's sake, please put a little butter on this bread.'"

"If the cow could speak, no doubt she would say, 'not for your sake, nor for my sake, but for the sake of the milk pail, build a silo.'"—Hoard's Dairyman.

—Mr. Arthur Bowles, a North Monaghan farmer, is reported to have started spring plowing on Thursday last week. He has likely had to suspend operations since.

The Anglican Church in England

According to the Official Year Book of the Church of England just issued, the voluntary offerings towards the work of the church in England during the year ending Easter, 1906, was £7,768,416. Of this £2,550,541 was contributed as follows:—Home missions and educational work, £272,560; foreign missions, £246,103; educational work, £283,418; the clergy, £241,520; philanthropic work £561,870. The funds raised by the church collections or parochial machinery and administered for parochial purposes alone amounted to £5,817,868, thus divided: Parochial clergy, £840,858; elementary education, £641,711; parochial purposes, £3,337,707; for the poor, £497,596. The voluntary offerings within the church in England in the last ten years amounted to £77,506,944. The Year Book also shows that with a population in England of 33,673,213 there are in the Established Church 2,223,367 communicants, a gain of 54,240 or 2½ per cent. in a year. The lay readers, deaconesses, and other lay assistants. There are 75,000 district visitors and over 200,000 teachers and 2,467,902 children and youths in the Sunday schools.

Presentation at Glenarm

On Monday evening, March 18, the members of Glenarm Presbyterian choir and friends met at the home of Mr. Douglald Jamieson, and gave his daughter, Sadie, a pleasant surprise by presenting her with a well-filled purse and the following address:

Dear Friend,—On the occasion of your removal for a time from among us, we desired to express to you the appreciation of the choir and congregation of your services as organist in our church. Your faithfulness to duty, the efficiency of your work, and the cheerful spirit in which it has always been performed, have made your services of special value to us as a congregation. We ask you to accept this slight token of our appreciation and affection, assuring you that our good wishes will follow you wherever you may go and that there will always be a warm welcome for you when you return to our midst. Signed on behalf of the congregation and choir.

Miss Sadie was completely taken by surprise but she made a suitable response. She and her sister Aggie, and brothers Donald and Duncan left for the West on March 21st.

HALIBURTON.

It seems Mr. Percy Stone is not going to have the Grand Central Hotel, although he came from Cobourg fully prepared to commence after the transfer was granted, and which was advertised in the Minden Echo to come off on Saturday, the 30th inst., but "a nigger in the fence" some how turned up, and he is a very disappointed man. He would have made a first-rate hotel keeper, and he has a number of friends here who are sorry he did not get the place if the present proprietor really intended to sell out and go to his new house, which is very nearly completed, and looks first rate since the painters commenced operations. It will be a swell house.

Mr. R. E. Southby, who is going to live in Port Hope soon, has sold his billiard table to Mr. I. B. Anderson, of this village.

The weather on Good Friday was very bad. It rained all day, and as the snow is going (it has now gone) the streets were a terror, but although cold in the wee small hours of the morning (16 degrees of frost at 7.30 a.m.) Easter Sunday was just the reverse of Good Friday. Old Father Sol shone out in all his greatness and it was a lovely spring day.

The usual Easter services were held in the English church, which was very prettily decorated with a number of Easter lilies, presented by members of the church. A very large congregation attended the service.

Our renovated station was opened to the public last week, and it is a dandy, up-to-date in all respects, and will compare favorably with any other station on this division.

"Father" John Kelly Responds to a Toast

The Brockville Times gives a report of a banquet given the members of the Grand Black Chapter of Ontario East by the local Preceptory. The toast of "The Royal Black and Orange Orders" was proposed and responded to by Lt.-Col. Halliwell, Grand Master; Capt. F. M. Clarke, and "Father" John Kelly, (of Lindsay) whom it thus reports: Sir Kt. John Kelly, recognized as the father of the Black Order in Ontario, supplemented the remarks of Sir Kt. Clarke by noting that on the occasion of the rebellion of 1837 an Orange order was in session in the city of Toronto, when the word came that William Lyon McKenzie was marching up Yonge street. The lodge at once adjourned and went to the City Hall and armed themselves to protect their homes and maintain the Government of the country. In speaking of the character of the Black Institution he mentioned that there are over 6,000 Orange bodies in the world, and only 800 Black lodges, which speaks for care that is taken in securing its membership.

Were Caught by Lindsay Train

Peterborough Review: A young lady and young gentleman had a very close call from a nasty accident the other night. They were crossing the railway bridge on the Lindsay line near the Protestant Home, when around the curve in the line. The young people ran across the trestle the nine o'clock train appeared and, but were not able to reach the end in time, and were forced to jump for their lives. The young lady was shocked and in jumping took considerable skin off one of her limbs. The young man escaped without injury, but neither of them will attempt to cross the trestle again. Several other citizens have been caught in the same position, although no accident has yet happened.

HOSPITALS CROWDED

MAJORITY OF PATIENTS WOMEN

Mrs. Pinkham's Advice Saves Many From This Sad and Costly Experience.

It is a sad but true fact that every year brings the doctors a large increase in the number of operations performed upon women in our hospitals. More than three-fourths of the patients lying on those snow-white beds are women and girls who are awaiting or recovering from operations made necessary by neglect.

Every one of these patients had plenty of warning in that bearing down feeling, pain at the left or right of the abdomen, nervous exhaustion, pain in the small of the back, pelvic catarrh, dizziness, flatulency, displacements or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the trouble may make headway until the penalty has to be paid by a dangerous operation, and a lifetime of impaired usefulness at best, while in many cases the results are fatal.

The following letter should bring hope to suffering women. Mrs. Robert Glenn, of 434 Marie St., Ottawa, Ont., writes: Dear Mrs. Pinkham: "Lydia E. Pinkham's Vegetable Compound is so well and widely known that it does not need my recommendation, but I am pleased to add it to the many which you have in its favor. I suffered untold agonies from serious female troubles for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound and I am only too pleased that I did so, for it restored me to perfect health, saving me the pain of an operation and the immense bills attending the same. Pray accept my hearty thanks and best wishes."

Just as surely as Mrs. Glenn was cured of the troubles enumerated in her letter, just so surely will Lydia E. Pinkham's Vegetable Compound cure other women who suffer from female troubles, inflammation, kidney troubles, nervous excitability and nervous prostration. Mrs. Pinkham invites all women who are ill to write her for free advice. She is a daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

Presentation to Sunday School Worker

On Wednesday evening of last week the teachers of St. Paul's Sunday school and a few others met at the home of Mrs. Billingsley, 106½ George street, and presented Mr. George Bryant prior to his departure for Chicago this week with a gold-mounted fountain pen. The presentation was made by Mr. Tams, the superintendent, who spoke in high terms of the untiring work of Mr. Bryant in the church and Sunday school. Rev. C. H. Marsh, the rector, also spoke briefly in a commendatory way of the efforts of Mr. Bryant, who was also a member of the choir. Mr. Bryant replied in a suitable manner.

Worthy People Moving to Lindsay

The Westwood correspondent of the Peterborough Review says: The home of Mr. John Francis was a busy place on Friday, 15th, when the friends and neighbors all gathered to bid farewell to Mr. and Mrs. Francis, who are leaving our district. Some seven years ago Mr. Francis bought the 200-acre farm and stock of the late John Humphries. He has recently sold the same to Mr. William Humphries, who has recently returned from California, U.S., and will move to Lindsay, where he has a position awaiting him. Mr. and Mrs. Francis have been exceedingly popular in this district during their stay here, so on Friday evening he was presented with a handsome gold headed cane, while Mrs. Francis was the recipient of a lovely tea service. An oyster supper and pleasant evening was enjoyed by all who regretted the departure of the above. (Owing to Mr. Francis leaving our vicinity a new councillor for Asphodel will have to be elected. Mr. Francis has done faithful services for the township for the past four years.

Charge of Bigamy and Perjury at Bancroft

A special to the Peterborough Examiner of March 28 says: As an outcome of a marriage which took place in Bancroft about the 8th of February last, in which the contracting parties were Jas. Hawley and Mrs. Fred. Lott, daughter of Mr. Gilbert Bounhour, of this village, Hawley was arrested yesterday morning on two charges, namely, bigamy and perjury. The case was called at 10 o'clock yesterday afternoon and the prisoner pleaded not guilty to both charges.

Rev. J. W. Mitchell, pastor of Knox church, who performed the ceremony, was called.

The marriage took place at the home of the bride's parents, the only witnesses present being the father and mother of the bride and the two younger sisters. Mr. Mitchell explained that the parties were all strangers to him with the exception of the father of the bride. After hearing the evidence the magistrate enlarged the case until next week.

An information has also been laid against Mrs. Lott, but she was ill and was not able to appear in court.

March Made Record

March of 1907 was on the whole a record month for mildness, according to the meteorological record at Toronto. The mean temperature for the month was 38.78, which is 5.1 above the record for 60 years, and 6.8 above the average for last year. The highest temperature was 64.1, on the 28th inst., and the lowest was 4.8 on the 7th inst.

The rainfall was 1.08 inches, and the snowfall 3½ inches, which is much less than the average.

Belleville, March 31.—The three policemen who were appointed upon the force in July last at a salary of \$450 for the first year, have made a demand upon the Police Commissioners of the city for an increase of \$150 each per annum. The officers intimated that if the increase was not given by the 1st of April their resignations might be accepted. The commissioners met but did not grant the increase, alleging that the men were engaged for one year at the salary they are receiving.
