

Dollars Keep Coming Back

—John Campbell, Woodville.

Farmers' Advocate: For all crops, fall plowing is preferred, so as to lessen labor in spring, and get grains sown at earliest possible dates. The exception to the rule is the past year's root and rape lands. If properly managed, and no weeds allowed to grow, no fall ploughing is required. The harrows first, and the spring-tooth cultivator put over the land when dry enough, will give the inch or two of seed-bed depth necessary, before the sowing is done, be that done broadcast or drilled in.

Fall manuring for roots and corn is advisable, yet good results in growing corn and turnips have been frequently obtained from spring manuring. For mangels, manuring immediately after harvest, deep cross-plowing in October, left rough all winter, will work into excellent condition by repeated cultivations and harrowings, till four to five inches in depth of mellow soil is obtained for drilling.

On our clay and clay-loam soils, we have found the broadcast seeding prove more successful than any other, except for peas and fall wheat. They are always drilled in. The steel roller is run over after sowing, or some time later, as conditions of soil and time will demand. No press drills are used in this locality. In dry soils, the disk drills find favor.

It requires careful study to get the seeds, and at times "the best laid plans of mice and men gang aft a-gley." We have to guard against getting seeds too deep, as a heavy after-rain may so crust the lead as to hinder the tiny plants ever getting to the surface. Therefore, for years, after fields are sown and harrowed, with a hand sower we scatter the seeds and roll down immediately. That insures sufficient covering for the small seeds, and does not hinder the young plants from getting soon to light and air, so necessary for their rapid growth.

Wherever needed, no operation is so necessary or so certain in good results as underdraining. The early-sown grains, on dry soils, well tilled, get a start in life, which in nearly every case means an increase in yield ranging from a few bushels to nearly double of crop, according to dates of sowings. There appears to be a naturalness about getting the plant life started near the opening of spring, when nature is putting forth her best efforts to help the vegetable kingdom fulfil its best destiny. The quick start in a race goes a long way towards winning. So does the early start of our grains, when all creation is responding to the sun's heat and call to fruitful life, get a lead which scarcely ever fails to be a winner at the latter end.

On wet, cold-bottomed soils that early start is impossible. The grain may be sown, but the overabundance of moisture requires the sun's heat to evaporate it, robbing the grains and plant of heat which is so essential to a strong, sturdy growth, and that, in turn, so helpful in resisting the attacks of insects or disease. Having for thirty-odd years been draining, and personally placed miles of tiles, the benefits of draining have been object-lessons with the return of each and every spring-time. Drier soil, less labor in preparing a seed-bed, a better one when done, and a surer start and development of crop, are some of the benefits in tilling drained land.

The fact of having spent \$40 per acre in tilling a field of nearly useless swamp land, a few years ago, is ample proof of our faith in burying many dollars out of sight. But in three years, at the most, they all have come to the surface, and into the pocket, and their progeny will keep on coming to the end of life.

"HOME OF THE HAT BEAUTIFUL"

Unrivalled Millinery Attractions for Friday and Saturday. Forenoon shoppers secure the choicest pickings. Shop early.

Only the large turnover of this store which enables spot cash purchasing from the best manufacturers together with the best skilled milliners, could bring to the women of Lindsay and surrounding country such values as are to be had here. If you wish to see the busiest millinery store in our show rooms

Friday and Saturday, April 15 & 16

Rustic Sailors

A Slow Liver Cause of Headaches

WHY A MILD LIVER REMEDY IS SO MUCH SAFER THAN HEADACHE WAFERS.

Most headache wafers contain phenacetin, antipyrine, acetanilid, and in many cases, analysis shows they contain destructive harmful opiates. They do incalculable injury to the system and should be looked upon with suspicion and distrust. When headache is due to the liver—don't try to "drug" the headache.

A well-known resident of Lebanon, Mr. J. E. Flemming, tells the following experience: "I think I must have the most sluggish sort of a liver. In the morning my mouth was bitter and that foul soft feeling that tells you 'no breakfast needed here this morning.' A cup of coffee would sort of brace me up, but in two hours I was disposed to quit work, all energy having oozed out of me. 'Supper' was only my good meal, but I guess I didn't digest very well, for I dreamt to beat the band. A friend put me wise to Dr. Hamilton's Pills. I think they must have taken hold on my liver, perhaps my stomach, too, because from that very start they made things go right. Look at me now—not sleepy in the daytime, but hustling for the mighty dollar and getting 'fin' out of life every minute. That's what Dr. Hamilton's Pills have done for me—they have rebuilt and rejuvenated my entire system."

To keep free from headaches, to feel young and bright, to enjoy your meals, to sleep sound and look your best, nothing can help like Dr. Hamilton's Pills. 25c. per box, all dealers, or the Catarrhzone Co., Kingston, Ont.

PROPOSED RAILWAYS

RAILWAY WORK BEING DONE IN HALIBURTON CO.

The Railway and Marine World contains the following paragraphs of interest:

"We are advised that work has been started on the extension of the line from Maynooth to Whitney, Ont., on which a start was made last year. A gang is engaged clearing the right of way. The company is doing the work itself. It is expected to construct 10 miles this year. (Feb. 19, 1909.)

"The Toronto, Haliburton & Pembroke Ry. Co. has been incorporated by the Ontario Legislature to build a railway from Barry's Bay to Haliburton, Ont., or alternately from the Canadian Atlantic Ry., to Haliburton." (Mar., pg. 211.)

CAMERON POINT.

Cameron Point, April 11. — The lightful weather prevails in this district, and the farmers are going ahead with their machinery preparing the lands for a good yield of grain in the year 1910.

Mr. Robert Frise, of this district, is vacating his residence here and moving to Zion, where he has purchased a commodious farm and buildings. He will leave some time during the week when favorable opportunities occur so as not to interfere with summer work routine.

It is very noticeable in many houses the advantage to be gained in having the telephone installed in the home, and the aid of the rural delivery of mails. Probably the time must come when all occupiers of homes will indulge in these necessities.

Mr. Percy Frise, accompanied by his mother, was driving to Fenelon Falls on Saturday last, when some paper, carelessly thrown down on the road, blew up into the horses' face and so startled it that it was almost a runaway speed and might have proved disastrous.

Early risers felt the chill a bit on Wednesday morning last, when to their surprise the ground was covered with the white clad snow, which had fallen during the night.

Mr. Joe Lee, with his family, paid a visit to his brother John Lee, of this district on Sunday, the 3rd inst.

Farmers who are wintering cattle are daily expecting a notification from the owners that they will take them over for home pasturing, owing to the mildness of the weather, and thus the verdant green color of the fields.

Chickens sold at 19 cents a pound in Chicago yesterday.

School Improved at Head Lake

Head Lake, April 6.—During the Easter holidays the trustees of No. 1, Digby, have been busy painting the interior of the school and oiling the floor, and now they have it in tip-top shape and are to be congratulated on the improvements they have done on the school in the past year. The little children feel more at home when they enter a neat, clean building than they do in a barn such as exists for a school in a few localities. All praise to our worthy inspector, Mr. Stevens, who is doing his very best to have the poorer schools fitted up by giving liberal grants and helping the rate-payers.

Last Sunday morning Rev. Father Sullivan of Victoria Road, held mass in Mr. John Fitzgerald's house. A goodly crowd attended.

Mr. and Mrs. Douglad McInnes, of Rowmanville, are at present visiting at Mr. Jno. Cronin's.

Mrs. McInnis intends remaining for a month or so among her relatives here.

Mr. Frank Cronin left to-day for Lindsay, where he intends working for the coming season.

Mr. Fred McFadden expects to return Wednesday to Lindsay, where he will resume his old position in Backer's mill.

The lawsuit held last Thursday at Victoria Road between Mr. Bert McFadden and James Hodge over a beaver meadow, which has been in dispute for a number of years, was thrown out by Judge Harding, as it was a land dispute, and could not be tried in the Division Court.

About a week ago Mr. Thomas Southern had a very narrow escape as he was coming home from Cobconk. It seems that a young man had a livery team from "Coby" and was on his way to see his best girl, when in some unknown manner the team got away from him, and sped down the road at a terrific rate. Mr. Southern was ahead and noticed

Troubled With Backache For Years.

Now Completely Cured By The Use Of DOAN'S KIDNEY PILLS.

Mrs. W. C. Doerr, 13 Brighton St., London, Ont., writes:—"It is with pleasure that I thank you for the good your Doan's Kidney Pills have done me. I have been troubled with backache for years. Nothing helped me until a friend brought me a box of your Kidney Pills. I began to take them and took four boxes, and am glad to say that I am cured and feel as good as I used to before taken sick. I am positive Doan's Kidney Pills are what you claim them to be, and I advise all kidney sufferers to give them a fair trial."

Let Doan's Kidney Pills do for you what they have done for thousands of others. They cure all forms of kidney trouble and they cure to stay cured.

Price, 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering specify "Doan's."

Children Cry FOR FLETCHER'S CASTORIA

MINDEN.

Minden, April 9.—Mr. Harry Robertson, sr., returned home on Monday last from a business trip to Lindsay.

Mr. Wm. Bake is reported very ill and is under the care of Dr. Bowen.

Mr. P. O. Nelson, of Havelock, Ont., has commenced duty as principal of the Minden school.

Mr. F. H. Day, of Orillia, is here photographing homes and many other scenes.

Mr. J. H. Delamere went to Ottawa this week to see about the change in the G.T.R. system between Lindsay and Haliburton.

Mr. Frank Gartschore left on Thursday with a gang of men to bring down the logs for the Gull River Co.

Mr. Harry Henderson is here gathering up another load of horses to take to his western home.

Mr. Rom. Cassidy of Dorset, was in town this week on the hunt for men.
