CAPITAL - \$10,000,000 REST - \$7,000,000

THE SAVINGS BANK DEPARTMENT

The Canadian Bank of Commerce will receive deposits of \$1 and upwards, on which interest is allowed at current rates. There is no delay in withdrawing the whole or any portion of the deposit. Small deposits are welcomed.

Accounts may be opened in the names of two or more persons, to be operated by any one of the number or by the survivor. A joint account of this kind saves expense in establishing the ownership of the money after death, and is especially useful when a man desires to provide for his wife, or for others depending upon him, in the event of his death.

Lindsay Branch, H. A. HOLMES, Manager

House Cleaning Time

Will Soon Be Here

We have everything necessary to help you make a good job. Our "Vacuum Cleaners" will thoroughly clean your carpets on the floor and save the trouble of taking them up. We rent them by the hour or day - both Hand and Electric.

"Martin-Sonour 100% Pure Paint", for the wood-work and the furniture. "Wood Lick" and "Liquid Veneer" for renewing and polish the furniture. "Liquid Granite" for Hardwood Floors and Linoleum. "Morseco" for Walls and Ceilings. Call and get color cards.

Will Not Pay For Keep of The Outsiders

At the meeting of the finance committee on the council on Friday in from the Provincial Asylum for the Insane was read, acknowledging receipt of payment for inmates from Lindsay. The names of some were read, and considerable discussion arose as to whether some were not from the surrounding townships. It was stated that people from the surrounding country were brought to town and sent to the asylum from here, which resulted in the town being billed. This the committee decided was not right and the names will be gone over to decide whether the town was not billed for some inmates that did not come from here.

OBITUARY

MRS. HUGH SILVER. News reached town Thursday of the death of Mrs. Hugh Silver, which occurred at Prescott, Ont., on Thursday after a lingering illness. The late Mrs. Silver, whose maiden name was Catherine O'Keefe, was born in Lindsay and has lived in Prescott for about seven years. In religion Mrs. Silver was a Baptist. She was sixty-two years of age. Besides a loving husband and two children, Zetta, residing at home in Prescott and Leslie of Ogdensburg, the following brothers and sisters

survive: Daniel, in Lindsay, Michigan in Pittsburg, Penn., and Mrs. Richard Healy, Toronto.

LATE MR. KENNY. A large number of sorrowing friends attended the funeral of the late William Kenny, V.S., which took place from the family residence, (telephone), Thursday at 2:30. Acquaintances from all parts of the country were in attendance, and Rev. D. Balfour officiated at the service. At one time the late Mr. Kenny was a member of the town council.

The pall bearers were as follows: Messrs. A. Bradshaw, J. A. Williamson, W. Galbraith, J. Johnson, A. Robertson and Andrew Robertson.

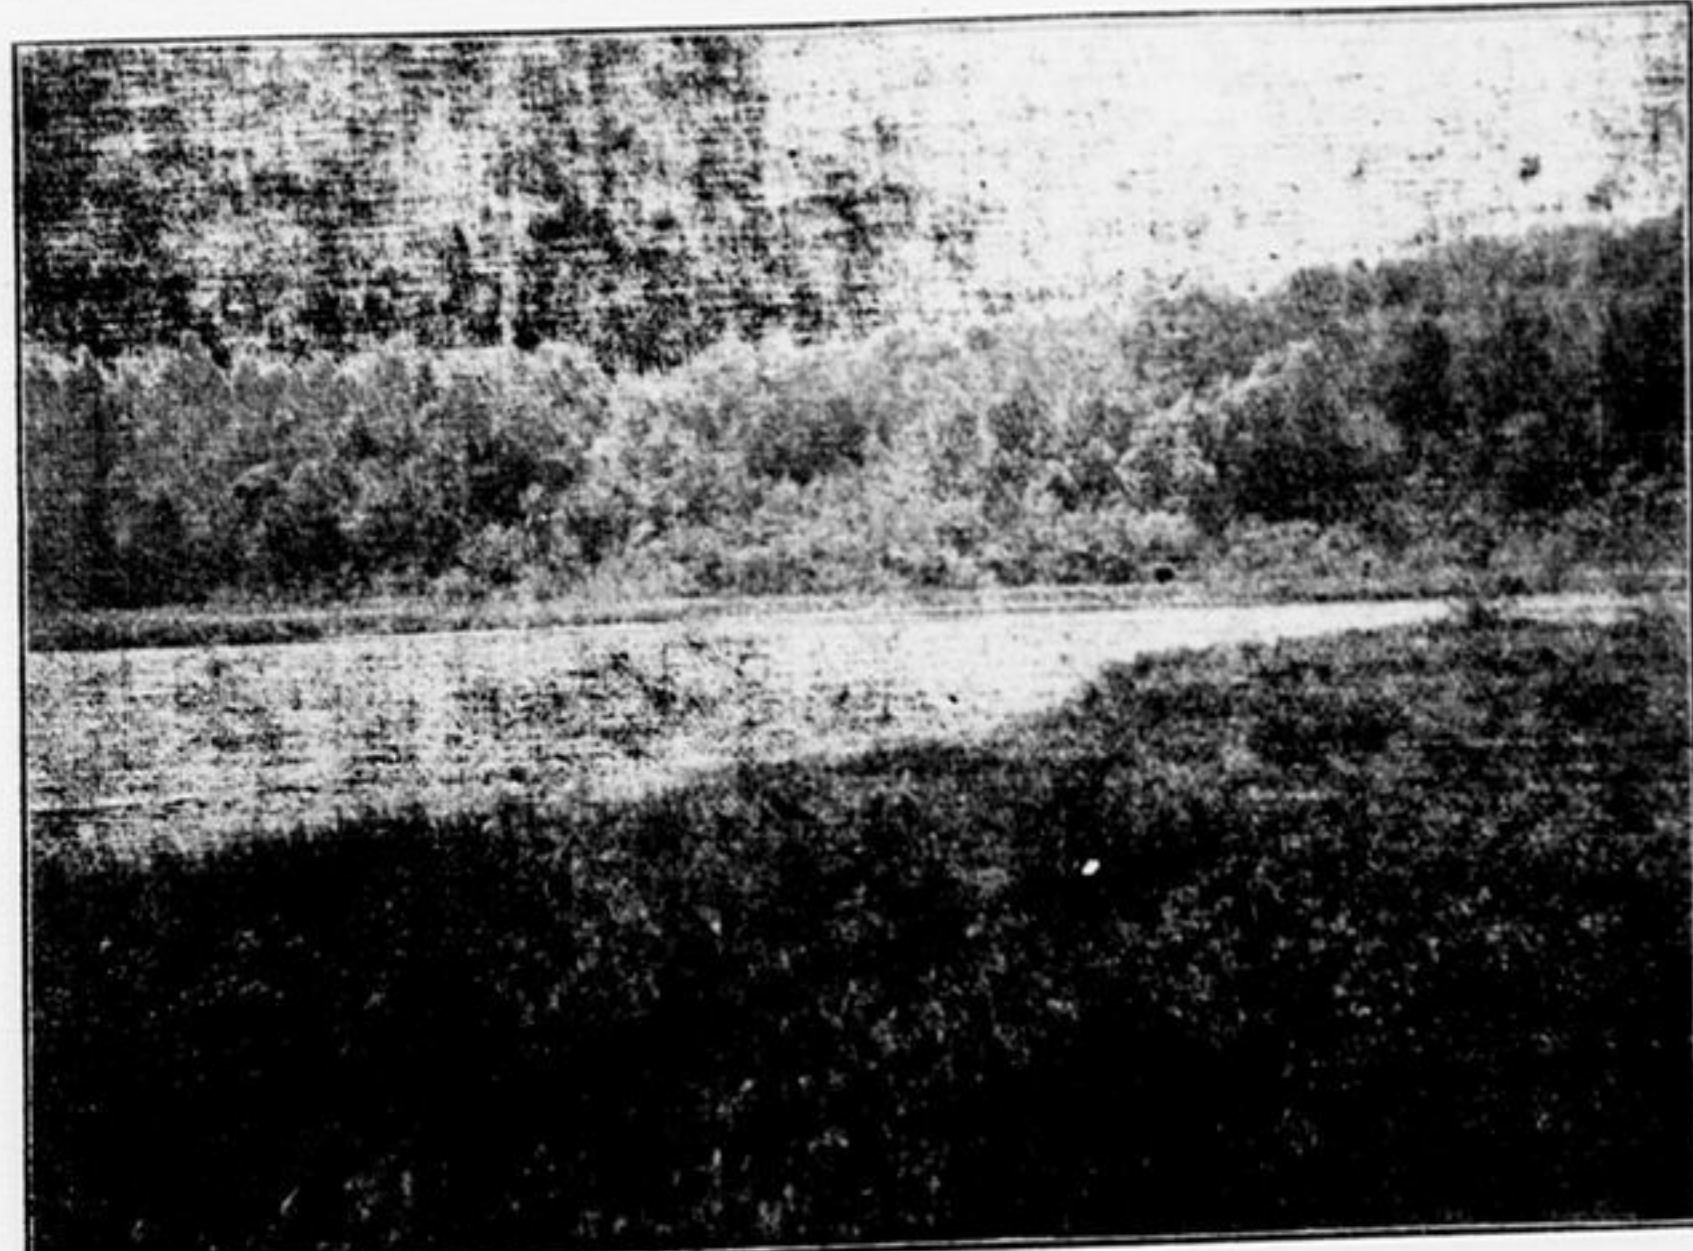

LATE MRS. DUKE. The funeral of the late Mrs. John Duke took place on Friday at 8:30 o'clock, from the residence of Mr. Harry O'Neil, Melbourne, Ont., to the Roman Catholic church, and thence to the Catholic cemetery for interment. A large number of friends and acquaintances attended the funeral, Mrs. Duke being one of the best known citizens in Ops. The

pall-bearers were as follows: Messrs. T. Brady, A. O'Loughlin, J. O'Heilly, J. Murphy, T. Connolly, and J. Killion.

MRS. A. J. LITTLE. After an illness of three weeks, Mrs. Little, widow of the late John Little, of Blairhampton, passed away on Wednesday evening at the age of 67 years. Mrs. Little had been a resident of what is now the Blairhampton neighborhood for 33 years, and is survived by six sons and four daughters, viz.: Thomas, of Lindsay; Al-

AT THE MAIN SHAFT.

"ANOTHER WORKING"

Haliburton Gold Mining Company Have Two Claims

There are a number of citizens in Lindsay who are aware of the fact that mining has been carried on to some extent in the provincial county of Haliburton, but very few citizens have ever heard of the Haliburton Gold Mining Company, Ltd., or of the extent of the work that has been carried on by this company in seeking a fortune from mother earth. The above company owns two mining claims on lot No. 4 in the eighth con. of the township of Monmouth, each mining claim consisting of fifty acres.

The discovery of minerals upon the property was made in 1908, but whether or not it was sufficiently valuable to stake out and have recorded was not known until the spring of 1909. To determine this the owners of the claims, believing that a valuable find had been made and to enable them to record the same under the mining laws of the Province of Ontario, proceeded to prospect the claims in a thorough manner and from various places took samples of the rock and had them tested. The result of the assays was very satisfactory and the claims were then staked out and recorded in the names from whom the company purchased.

LOCATION AND ACCESSIBILITY. The property, containing 100 acres, is described as follows: lot 5 in con. 8 of the township of Monmouth, Haliburton district. The property is reached by the I. B. & Ottawa R.R., passing only a few hundred feet from the N. W. corner of the property. A natural valley at the foot of the ore-bearing mountain gives an easy and excellent entrance to the property for a railroad switch, if need be.

MINERAL FEATURES. The country rock is decidedly limestone—calcite of the paleozoic era, and the ordoevian or lower silurian period. This limestone belongs to the "Bird's Eye and Black River" formation, which is proved by the Trenton limestone capping the same at some places, as at Kinnmount, where galena is found. The following ores and minerals are found in several places in the neighborhood of Tory Hill: calcareous mica-shist, mica, graphite, iron pyrites, magnetic iron ore, agatite, etc. The limonite is, here and there, replaced by irregular masses of intrusive red or flesh colored granite, and their exposure on the surface is due to the removal of overlying strata. This formation is traversed by wide dykes of "rhyolite quartz," or quartz crystals set in a glassy groundmass, forming hills and mountains, and

in this material is principally found the pyrites. The rhyolite quartz does not carry any value of gold or silver, but the gold and silver is mechanically mixed with the pyrites, and as the ore is very easily broken or pulverized a separation of the pyrites from rock by concentration is very easily undertaken. The different strata shows somewhat dif-

ferent composition.

The report on the mines says there are really no veins, but intrusive masses of deposits going in every direction, and most unexpectedly popping out of the ground. At every prospecting place samples were carefully taken to represent an average of the ores. All gold and silver assays have been made by Mr. C. J. Thorp, public assayer. The sulphur in such concentration is easily brought up to 51.5 per cent., making the ore valuable as a sulphur material for sulphuric acid manufacturing. The cinders after the burning can be further reduced to a concentrate containing 8100 a ton of gold. The iron oxide floats away by this last concentration process is valuable as a very fine Venetian red.

The ore itself free from rock is a true iron pyrite. Its hardness is 6.5, scratching glass without difficulty. It has a specific gravity of 4.8-5.1 and is therefore a true iron pyrite, mixed with a very small proportion of pyrrhotites, containing the nickel that is found in the ore. Neither nickel nor copper are present in paying quantities; the ore

WATERFALL NEAR ANOTHER VEIN.

Edwin Enlay. Mr. J. A. Johnston, another merchant of Tory Hill, is a director.

The letters patent of the company not only empower the company to carry on mining in all its branches and to deal in real property in case a town should spring up upon the site, as undoubtedly will be the case if the property proves as valuable as the promoters believe, but also to supply electricity.

This last power was asked for because not far from the mining claims is what is known as Durn River falls, and from these falls it is expected to obtain power to operate the mining plant and to supply electricity not only for the purpose of the company and its mining operations but also to the inhabitants of the town, should one spring up.

Upon the organization of the company, in furtherance of the agreement made by the other promoters with George Arthur Wintennors and James Samuel Austin, who were the owners of the mining claims, the directors of the company purchased the property from these two gentlemen for the sum of \$4,000 cash and \$300,000 of paid-up stock

Deline Gets Life Term For Killing His Wife

Peterboro, April 26.—Hugh Deline, of Belmont township, was sentenced this morning to life imprisonment in Kingston penitentiary on a charge of manslaughter in connection with the death of his wife. The case came to a sudden termination this morning when court was opened. Mr. Justice Tetzell announced that in view of the evidence that has been

judged it is the most disgusting thing that has ever come before the courts of this country. While I sympathize with your mother and children, I must impose upon you a severe penalty as a warning and example. Deline did not seem affected in the least by the sentence and walked bravely out of the court.

BALD MEN should call and inspect the famous Sanitary Patent Tonsure, as shown by Prof. Doremont, of Toronto, at the Benson House, on Saturday, March 6. These Tonsures are not only perfect in construction, but are the only Sanitary and Patented substitutes of one's own hair.

Truth is sometimes stranger than fiction and brings nearly as much money. John Hammond, of Belleville, was awarded \$1,500 against the Canada Cement Co., for injuries from a blast.
