## Nervous Diseases in the Spring

CURED BY TONING THE BLOOD AND STRENGTHENING THE NERVES.

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst and that then, more than at any other time, a blood-making, nerve-restoring tonic is needed.

The antiquated custom of taking purgatives in the spring is useless for the system really needs strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfailingly bring new health and strength to weak, tired and depressed men, women and children. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Epworth League of this place held a very interesting meeting on Wednesday evening. Mr. J. B. Some very good suggestions were given by the members as to how we might make our league more efficient, including the following: "By the unity of its members." "By giving ready willing response when he presents duty to us."
