In Bordered Tile and Floral designs, 22 1-2 in. wide, per yd 18c. 18 in. wide per yd... **15c**

Large Fish Captured at Bobcaygeon

Bobcaygeon, April 9. - Quite an excitement was created on Friday morning when two of our townsmen - John Gallagher and Wm. Patterson - marched down street with a very large maskinonge strung upon a pole which they carried upon their shoulders. As the story goes, they had been strolling around the dry dock that morning when some one noticed the fish come sailing down on a block of ice. After he had been recovered from his perilous position and it had been ascertained had actually died in trying to swallow a large mud cat and choked in the attempt and in fact had now been dead for some days, but beautifully preserved withal, the fish was about to be consigned to a watery grave because it was feared the penalty of the law might be exercised. The gentlemen decided that as Mr. Fish had come to his death through no willful act of theirs but from his own act, of which the evidence was still present, they decided to bring him down town and show him around a bit. This was done and it was no time till a crowd gathered and various snaps taken of his back, front and in different positions. Of his weight, some said 40 lbs., another a few ounces under, another 42, another a few pounds under 40, and so on. The largest we have ever seen taken from the lake and hunted. We understand that as soon as the snaps taken have been developed, that his life history will be written up and duly recorded together with his picture and his captors in one of the magazines which supplies information in the acts of angling and hunting, etc. In the meantime, however, the fish is stored in Mr. Thompson's ice house with the understanding he would be properly mounted and put on exhibition as a tribute to what the Kawartha Lakes can produce.

The Ladies' Aid of the Methodist church had a concert last Wednesday evening, the 3rd inst. The program which was a high class one in every respect was given entirely by the ladies. Miss Edna Warriner, of Stouffville, assisted, giving six numbers. She is an able and eloquent entertainer and is deserving of the highest praise.

Village council met last Tuesday evening in regular session and transacted business. The dog bylaw was discussed and that of local justices of the peace being authorized to hear cases not already cited before the County Magistrate. A letter to the Revue from the Hon. the Attorney General was read to this effect:

The soft weather of the latter part of the week which caused flooding in many parts of Ontario was not so serious here. Roads were completely impassable and many cellars were flooded but nothing of a serious nature. Service was held in the school room of the Methodist church all Sunday on account of the basement being flooded with about two feet of water.

We are glad to welcome Mr. George Johnson, of Edmonton, Alta., who is home for a short holiday. Mr. Johnson looks extremely well as though the great west was agreeing with him.

Schools opened Thursday evening for the Easter holidays. Both teachers and scholars, it is said, were glad of the vacation. When school resumes everything them must face towards promotion. Entrance exams, we hope for success.

Mr. John J. Walker, late lockmaster, commenced on Saturday to bake for Mr. E. J. Broad, the vormaler grocery, as well as for local merchants who cater to that part of considerable experience and should give the best of satisfaction.

The Collingwood Shipbuilding Company secured the contract to build a new lake steamer for the Keystone Company of Montreal in competition with British firms. Many Canadians were seen at the Easter parade on Fifth-ave., New York.

THE FIRST FISH STORY OF SEASON

Mr. Richard Dana, of Toronto, and Mr. Robert Nicholl, of Bobcaygeon, have the proud distinction of bringing out the first fish story of the season. Mr. Dana, with his friend was loitering around the shores of Sturgeon Lake on Good Friday feasting their eyes on the blue dome of heaven and the turbid waters of the lake with its sheets of broken ice, when they noticed something floating on a block of ice, which looked like an alligator and the longer the pair viewed it, the larger it seemed to grow until they finally decided it was a diminutive species of that aquatic mammal known as a whale. They at once procured a boat and landed what proved to be a large maskinonge which in its attempt to swallow a large catfish, choked and was washed by the violence of the wind and water upon the ice. The immense lunge, which was four feet, one inch in length, was weighed and tipped the beam at 48 lbs. Photos were taken of the fish and Bobcaygeon is about as busy as Lindsay during the Winter Carnival. Mr. Dana will have the fish mounted and sent to Toronto for exhibition purposes.

Lindsay Conductor Injured in Collision on G.T.R. near Fraserville Monday Night

Another disaster occurred on the line of the G.T.R. about one half mile from Fraserville on Monday night about 9 o'clock, with the sad result that three persons are now in the hospital in Peterboro badly cut and injured.

The scene of the disaster is a little hamlet of 150 of a population situated at a point eight miles from Peterboro and five miles from Millbrook.

It appears that on account of the washout which has taken place, caused by the spring freshets the trains are compelled to go around by Millbrook in travelling from Lindsay to Peterboro. The train which was under orders from Peterboro was supposed to take all passengers from Peterboro to Millbrook and Port Hope and was to remain at Fraserville while the freight from Lindsay passed through on the siding situated near the station. But on arriving there, for some unknown reason it is understood that the passenger pulled out, and when one half mile outside of the village, the train from the east was noticed rapidly advancing; both engineers applied the emergency brake at once, which lessened the violence of the impact of the two trains, and averted a more dreadful calamity. Nevertheless the passenger car with its living freight, who were regardless of any disaster coming upon them, were thrown headlong through the train. Seats flew, and the twenty-five passengers were thrown into a

heap in the aisle and on the seats in the car. Conductor Ballantyne, of Lindsay, in charge of the passenger train, who was on the coach, was reported to have his back broken but it is understood he escaped with a bruised body and his scalp badly torn. Four commercial travellers were reported cut and bruised, and are now in the Peterboro hospital.

A lady also got her arm broken and another passenger was badly bruised and cut. The injured were at once sent to the hospital in Peterboro where they were given treatment and everything possible done to relieve their suffering.

The engineers and firemen saved themselves by jumping. Both tenders were badly damaged but apart from that little injury is done to the rolling stock or road. The train from Peterboro was in charge of Conductor Ballantyne, and Engineer Luckham. It was upon this train the passengers were in transit. The one from the west was manned by Conductor McIlroy and Engineer McConnell.

Much credit is due the engineers for their prompt action in applying the brakes to their engines and to the railroad company in transferring the injured passengers to the hospital with dispatch.

OUT OF HOSPITAL.
(Special to The Watchman-Warder.)
Peterboro, April 9. - The wreck, which occurred near Fraserville on

HYMENEAL.
BARNESLEY-JAMES.
A very pretty Easter wedding took place Monday afternoon at three o'clock at the home of Mrs. Mary James, at Fraserville. The bride was united in marriage to Mr. W. H. Barnesley. The ceremony was performed under a beautiful arch of evergreens and roses, the bride carrying a large bouquet of white carnations. The bride, who was given away by her brother, Mr. Richard James, looked charming in a white voile dress. She was assisted by her sister, who wore a pretty fawn dress, and carried a bouquet of pink carnations. The groom was assisted throughout the trying ordeal by Mr. M. Dobbin.

At the conclusion of the pretty ceremony the happy young couple and guests, some forty in all, sat down to a sumptuous wedding dinner, served in the dining room. The presents were numerous and included many costly gifts. The groom's gift to the bride was a beautiful chain and locket; to the bridesmaid, a gold bracelet and to the groomsmen a pair of engraved cuff links.

Mr. and Mrs. Barnesley left on the evening train for Orillia, Parry Sound and other points on a honeymoon trip, and on their return will take up their residence on St. Paul-st. Both Mr. and Mrs. Barnesley are well known in town and are valuable members of the Queen-st. Methodist church, the bride being a member of the choir, while Mr. Barnesley is a member of the Adult Bible Class.

John Madden killed himself with gas at his lodging house at Toronto. Their many friends wish them both a very happy and long wedded life.

HONEST VALUE COUPLED WITH

EXCELLENT ATTENTION

Makes This Store The Most Popular

Years of Experience and an access to the WHOLESALE STOCKS of CANADA'S FOREMOST CLOTHING MANUFACTURERS has been the KEY-NOTE to the success of this the largest EXCLUSIVE CLOTHING STORE in VICTORIA COUNTY. We can save you from
