PAPER PAPER

Makes Houses PERMANENTLY Windproof

If you have ever seen tar paper which has been in a wall for a few years, you'll realize the importance of using, instead, a sheathing paper that will last.

DURO Sheathing Paper contains no tar. It is a tough, high-grade paper, saturated with the same odorless, tasteless, waterproof compound which has made RU-BER-OID the best of all ready roofings.

DURO is very strong, will not tear, dry out, crack or crumble. Walls, floors and ceilings interlined with DURO are permanently wind and draft proof.

The nearest RU-BER-OID Dealer will be glad to show you samples of DURO. Or write us for samples and Booklet.
