No More Neuralgia Headache Cured

A JOURNALIST TELLS OF THE
ADVANTAGES OF KEEPING
NERVILINE HANDY ON THE
SHELF.

Fifty years ago Nerviline was used from coast to coast, and in thousands of homes this trusty liniment served the entire family, cured all their minor ills and kept the doctor's bills small. To-day Nerviline still holds first rank in Canada among pain-relieving remedies—scarcely a home you can find that does not use it.

From Port Hope, Ont., Mr. W. T. Greenaway, of the Guide newspaper staff, writes: "For twenty years we have used Nerviline in our home, and not for the world would we be without it. As a remedy for all pain, earache, toothache, cramps, headache, and disordered stomach I know of no preparation so useful and quick to relieve as Nerviline."

Let every mother give Nerviline a trial, it's good for children, good for old folks—you can rub it on as a liniment or take it internally.

Wherever there is pain Nerviline will cure it. Refuse anything but Nerviline. Large family bottles, 50c, trial size 25c, at all dealers, of The Cataract House Co., Buffalo, N.Y., and Kingston, Ont.

Muscles Useless Without Nerve Force

Perhaps you are not quite clear on the relation of the nerves to the rest of the body. Through the nerve fibres which extend through countless branches to every nook and corner of the human system is conveyed the motive power which operates the various organs.

There could be no breathing, no beating of the heart, no flow of the digestive fluids, no action of any muscle or organ of the body without nerve force. Consequently, when the nervous system becomes exhausted there is complete collapse of the body, the different stages of which are described as nervous prostration, locomotor ataxia and paralysis.

The time to use such restorative treatment as Dr. Chase's Nerve Food is when the headaches, sleeplessness, indigestion and other warning symptoms first appear. A few weeks' persistent treatment is then sufficient to revitalize the wasted nerve cells and restore health and vigor.

What might have been a severe loss to Mr. G. Emery was fortunately averted by the timely arrival of his assistant, Mr. J. Miller, who on Wednesday last was in the fields ploughing and on returning to the barn to do the evening milking, missed two of the best cows. It appears that a door had been left open that led to a shed where the buggy, etc., was kept, and under the log floor was an old cistern, that is not used, and apparently the cows being inquisitive were looking around when suddenly the logs, suffering from old age, parted in twain and down went the two cattle to their imprisonment. Some of the neighbors very kindly gave a helping hand at a windlass, and with ropes and pulleys were rescued, with nothing more than a bad shaking which eased the discomfort felt by the owner on his arrival home.
