VICTORIA ROAD.

Victoria Road, March 31.—Mrs. Spence spent from Monday to Wednesday with relatives at Grass Hill. Mrs. Jennings (nee Miss Laura Stinson), who came up to visit her son, Miss Mabel Lytle, over Easter, was taken ill with appendicitis on Good Friday night, but under the skillful care of Dr. Hucklestone is recovering.

Miss Robie McFarland, of Doe Lake, spent Easter the guest of Mrs. Wm. J. Allen.

The many friends of Mr. Whit Jones are pleased to see him home again after undergoing an operation for appendicitis at Toronto.

Miss Caroline Wright has been visiting friends at Elphinstone.

An epidemic of measles is going around here at present.

Miss Ina has returned to Cobourg after a visit here with her cousin, Miss Della Gostlin.

Mr. Whit Jones had the misfortune to lose a valuable horse one day last week.

POWLES' CORNER.

Powles' Corner, April 1.—Owing to the inclemency of the weather for the past week the Easter holidays went by rather quietly than they would otherwise have done, but now that they have gone and the many visitors have returned to their separate homes things have assumed their normal state once more.

Farmers are busy getting implements, seeds, etc., into shape for work when the land dries up a little.

School re-opened on Monday with a fair attendance. All seem rested and ready to work with renewed vigor and energy, and no doubt they will master the different subjects necessary for the mid-summer exams.

We hope to see the entire entrance class successful and head the list this year.

Messrs. Vern Smith and Geo. McNabb, of Cameron, attended divine services here last Sunday.

Mr. Laurie Moore, of Fenelon Falls, is the guest of Mr. Joe Moore.

Mr. Percy Chandler has gone to work for Mr. J. S. Brown; also Mr. Jack Baker is engaged with Mr. J. S. Brown for the summer months.

Mr. Kendall has just finished sawing wood in this neighborhood and taken his machine home.

We extend a very hearty welcome to Mr. and Mrs. P. Hewie and family, who have come to live in our midst, occupying the farm owned by Mr. Thos. Hewie.

The many friends of Mr. and Mrs. Heber Johnstone will be glad to know that their little daughter Helen is improving slowly after a three-month's treatment in Peterboro by a specialist for infantile paralysis.

KINMOUNT.

Kinmount, March 31.—Our Easter visitors have returned to their respective duties in other places.

School opened this morning with a fair attendance.

Mr. Alex. Morrison, Reeve of Somerville, was in Toronto last week on County Council business.

The concert given by the Orange-men of the district came off last Wednesday. The proceeds were satisfactory, but the speakers billed for the evening did not put in an appearance, hence local talent was used.

Mr. Crowe, implement agent, moves to-morrow into Mr. W. T. Craig's house, opposite the school.

Wedding.—On Saturday morning, 29th inst., by the Rev. Hockley, Mr. Bert Schroter and Miss Lottie Swinson, both of Lutterworth, were united in the bonds of matrimony. Congratulations.

It is reported that Mr. S. G. Henry has sold out his business to Mrs. Crowe, who will take possession soon.

Mother and Daughter Perish

Ailsa Craig, April 1.—Word was received here by relatives on Saturday of the tragic death of Mrs. John Henderson and her youngest daughter at Unity, Sask. They, with the rest of the family, were at one time residents of this place. Their home, which was a few miles from Unity, was burned to the ground, and the mother and daughter were the victims of the flames. Mrs. Henderson had been home only a short time, having spent a few weeks with her relatives here in town. A sad feature of the affair is that just a short time ago her youngest son was killed by a thrashing machine.

World's Greatest Financier Pierpont Morgan, Dead

New York, March 31.—J. Pierpont Morgan died in Rome, Italy, at 12.05 Rome time.

New York, March 31.—Henry P. Davison, a member of the house of Morgan, made the announcement of J. Pierpont Morgan's death. He said merely that he had received a cable that the financier had passed away shortly after noon.

STORY FROM ROME.
 Rome, March 31.—Mr. Morgan toward the end showed that he was suffering internally only by a movement of his right hand. Otherwise he displayed no sign of vitality except by continuous heavy breathing.

Mr. Morgan was unable to assimilate the artificial nourishment administered during the morning and his physical weakness was extreme. Heart tonics were injected, but these had no effect and for several hours before death he was in a state of coma, unable to respond to any questions or to recognize any of those at his bedside.

From his arrival in Rome Mr. and Mrs. Herbert L. Satterlee had feared a mistake had been made in bringing Mr. Morgan to Rome instead of taking him direct to London, where he would have been in his own house instead of a noisy hotel and they thought too that the climate of Rome was too mild and fervent for him in his condition of ill-health.

The body of the late J. Pierpont Morgan is to be embalmed and sent to the United States on board ship from Naples. Funeral service will be held here before its departure.

NO CHANGE IN FIRM.
 New York, March 31.—Mr. Morgan's death will make no change in the firm, according to an announcement made at the offices of J. P. Morgan & Company to-day. H. P. Davison, who made the announcement said that the business would be conducted as heretofore.

GREAT FINANCIER.
 J. P. Morgan was born at Hartford, Conn., on April 17, 1837. He

graduated from the English high school in Boston; was a student in the University of Gottingen, Germany; and had the degree of LL.D. conferred upon him by Yale University in 1908, and by Harvard University in 1910.

Mr. Morgan entered the bank of Duncanson, Sherman & Co., in 1857; became agent and attorney in the United States in 1860, for George Peabody & Co., bankers of London; was a member of Dabney, Morgan & Co., 1864-1871; became a member in 1871 of the firm of Drexel, Morgan & Co., now J. P. Morgan & Co., the leading private bankers of the United States; and also J. S. Morgan & Co., London.

The American magnate has been chiefly occupied as a financier in the largest reorganizations of railways and the consolidation of industrial properties. He floated the United States' bond issue of \$62,000,000 during the Cleveland administration, and organized and floated the securities of the United States Steel corporation, with a capital of \$1,100,000,000 in 1901. He secured the American subscriptions of \$50,000,000 to the British War Loan of 1901. He organized the existing agreement of anthracite operators of Pennsylvania, also of the soft coal interests in Ohio, Indiana and Pennsylvania.

Mr. Morgan and his associates control over 50,000 miles of railways, also large British and American ocean transportation lines. He gave the site, buildings and funds amounting to about \$1,500,000 to the Lying-In Hospital in New York. Mr. Morgan for years was a well-known yachtsman, having been commodore of the New York Yacht Club, and having built the "Columbia," which defended the America cup against Sir Thomas Lipton's "Shamrocks," in 1899 and 1901.

Mr. Morgan has one son, Mr. J. Pierpont Morgan, jr., who has been in training for years to take his father's place.

CRUEL MARCH--CANADIANS ARE THANKFUL

With rushing winds and gloomy skies the dark and stubborn winter dies; The unchained floods the lowlands sweep, and thousands for their loved ones weep;

Yet March, despite her wanton deeds, doth nourish sweetest flower seeds. For once the old saying in regard to the month of March coming in like a lion and going out like a lamb has failed to be true, and the wind clouds which covered the heavens at the beginning of the month still hover above our heads at the close; the clouds of wind and rain burst upon the land in disastrous manner, and thousands throughout the world were rendered homeless. Lindsay has been extremely fortunate so far, and but for a slight flooding of one or two cellars and the poor conditions under foot, has experienced nothing unusual.

Not so fortunate our brothers and sisters in the country to the south and west of us, where almost entire States have been converted into great deserts. Just imagine for one moment the pouring of a veritable river, 30 feet deep, down Kent-st., and the horror and loss to life and property that would be resultant. Yet that is what happened at Dayton, Ohio. Unless one has witnessed some such widespread catastrophe he can have no realization of the actual scene of suffering and death that such entails.

The wind, fire and flood disaster which has stricken our neighbors in the States calls for the sympathy of all Canadians, and gives us something to be thankful for; that we live in a region which is comparatively free from such occurrences. Let us hope that the roll of 1913's great disasters is now complete.

Breezy Items From Omeme --Easter Events

Omeme, March 31.—The vernal equinox and Good Friday occurring on the same day, 21st of March, is it surprising that terra firma was the scene of an elemental commotion. The reports of the great destruction from the continent bear proof to the formidable character of some of the elements.

Mr. Harry Beatty, of Welland, is calling on friends in town. At Calgary on Easter Sunday occurred the death of the late Miss Lila Magee, wife of Mr. Fred Marshall and daughter of Mr. John Magee, of Ops. The remains arrived here by the G.T.R. evening train on Friday, the funeral being held on Sunday to Emily cemetery. The deceased was married on January 1, of this year, and was 19 years and 6 months of age. Her twin sister predeceased her on the same date two years ago. Lila was a consistent member of the Methodist church. She is survived by her husband, father and one sister. A large concourse of friends attended the funeral obsequies, which were conducted by Rev. W. F. Chapman. To all the bereaved ones the sincerest sympathy is extended.

Mr. Tanner occupied the pulpit and delivered a splendid sermon to the delight and edification of the entire congregation and especially to his host of warm admirers.

There was splendid sleighing on Thursday and Friday. Saw-logs were moving quickly to the mill; lumber was being transported and even a good-sized stable passed along the street on sleighs drawn by horses.

Mr. J. A. Peacock, of Cleveland, Ohio, paid an Easter visit to his home here. He returned on Wednesday. He thought himself fortunate to be absent when such extreme peril was rampant in the Buckeye State.

Parcel Post in Canada On a Progressive Scale --Similar to U. S. Plan

Ottawa, March 31.—Following his announcement made in the House some weeks ago, the Postmaster-General gave notice to-night of bills "relating to the parcels post" and "to provide for more advantageous conditions for telegraphic communications between Canada, the United Kingdom and other parts of the British Empire."

Mr. Pelletier has been studying the parcels post question and the possibilities of improving cable relations for the past year. He is not ready yet to outline the legislation which he intends to introduce, but it is known that the general plan decided upon is that of the zone system, as adopted in the United States. The department is working out the details with a view to the protection of the retail merchants at home. The success of the proposed system depends to a great extent upon the

arrangement to be made with the railways and other transportation companies, and this phase of the question is being worked out now between the department and the transportation companies.

The department has been closely watching the operation of the new parcels post law of the United States and at an early date asked for a report of the working of the system. The 14,000 postmasters in Canada will become agents of the parcels post delivery, and the benefits of the system will be extended to those points not now reached by the express companies.

Since the inauguration of the United States parcels post system the Canadian department has had to handle an immense amount of parcels post matter which has come into Canada, and has had no benefits in return. With the system of parcels post in operation in Canada this unfavorable situation will discontinue.

Local Barber Shop the Scene of Bombardment

Be careful what you throw in the stove when house-cleaning. This is the advice handed out by a local tonorial artist. Monday afternoon having nothing much on hand except abundance of spare time a Kent-st. barber and his assistant started in relegating surplus accumulation common to the winter months to scrap heap. Old papers, a lock of this fellow's hair, and a bunch of another's whiskers, was brushed out of remote corners and secluded places, picked up on a dust pan and thrown in the stove, which contained a few dying embers.

The two artists heaved a sigh of relief as they looked over their neatly decorated parlor and prepared to lather and shave two customers who had stepped in for their daily facial treatment. The barbers got their men trimmed down to the point of the jaw bone, when "zip!" went some explosion in the stove, followed by another and still another. The cannonading was so rapid that both artists shot out the door, followed by the customers, and awaited further developments.

A number of rifle cartridges which had been thrown around carelessly in the back premises were the cause of the noise, which sounded like the bombardment of Adrianople.

Farmer's Bank Depositors Again Busy

Toronto, April 2.—Depositors of the defunct Farmers' Bank, representing every municipality in which the institution carried on business with the exception of Halleybury, met yesterday at the Walker House and decided to press their claims before the Government at Ottawa. A strong deputation was appointed to interview the minister of finance with reference to the matter, and a resolution urging that the naval debate

be terminated at once in order to allow more time for discussion of the new Bank Act was unanimously adopted. One of the claims will be based on the report presented by Sir William Meredith in behalf of the royal commission appointed to investigate the institution. It was felt that in view of election promises, members of both the Government and the Opposition sides of the House were morally bound to do what they could to recoup the unfortunate people who lost their savings in the crash. It was pointed out that between 5,000 and 6,000 people were affected, and that the liabilities of the Farmers' Bank amounted to \$1,250,000.
