MARKET REPORTS

LIVERPOOL, April 1.—The steady American cables yesterday and the expected decrease in the visible supply here caused some support at the opening, and values were ¼d higher. The continued demand from the continent, firmer Plate offers and disappointing stocks, together with confirmed reports of light Russian port stocks, was the incentive for good support.

Carmangay

the town with the future

IMPORTANT

Carmangay is but three years old. Only one-fifth of the fertile surrounding lands are cultivated. What must the future of this town hold for you if it can make this remarkable progress in so brief a time. What must Carmangay become when *all* the surrounding lands are developed?

Answer: **One of the most important cities of the West.**

This future railway centre is situated at a point on the Little Bow River canyon where all future railways in this richest district of the best wheat country in the entire west must concentrate and build up Carmangay.

The greatest shipments of grain from any town in Alberta are coming out from the 1912 crop at Carmangay. No less than 1,500,000 bushels is the record. Last year it was a million. The increase alone equals the entire shipments of towns many years older than Carmangay.

Carmangay to-day is operating coal mines. The whole surrounding district is underlined with the famous Galt coal. Says a mining expert, "I believe that Carmangay is destined to become a great coal mining centre in the near future.

Carmangay has abundant supplies of pure water from its municipally owned waterworks system. Carmangay has fifty places of business. Carmangay has built one of the finest public schools in Canada.

BOBCAYGEON

Bobcaygeon, April 1.—"Say Mister," said a youth this morning to one of our local dairymen, "Your the horse has run away." The dairyman came running out only to find the horse safe, when the youngster scampering off cried out, "April fool." Well, that was alright so far as it went, but on continuing his rounds the dairyman missed his horse shortly, only to find that he did run away. Now, did the dairyman get April fooled once or twice? And do you think the horse knew what the boy meant when he said "April fool" and ran? And do you think the horse was playing an April fool on the dairyman?

The sudden rush of spring a couple of weeks ago brought the water pretty well out of the swamps, and with the high winds has brought an unusual quantity of ice down already. The water while very high has not yet reached the high water mark of last year. At that it is not so very much behind, perhaps 6 or 8 inches at the most. It is very high, however, and is causing a great many people considerable inconvenience. This high water, if it continues from year to year, will cause action to be taken by the Dominion Government, to hold back by reserve dams of reservoirs the water in the highlands and ensure a reasonable outlet so as to avoid flooding. It is one of the future problems of state that must be taken up seriously.

Mrs. Servante, an English lady and wife of an English vicar, of London, at present visiting Canada, addressed the Women's Institute this afternoon and gave an address in the Baptist church this evening on behalf of the local Temperance and Moral Reform Association. Mrs. Servante spoke entirely of conditions in England, but said that there were 155,000,000 spent in strong drink annually, $80,000,000 for bread, $40,000,000 for milk, $27,000,000 for tea, coffee and cocoa, $118,000,000 for ra lways, $70,000,000 for army and navy, $33,000,000 for education, $12,500,000 for charity and instruction, and only $1,500,000 for missions. She said, speaking of total abstinence, that self interest advises it, duty demands it, gratitude prompts it, pity compells it and Christian life requires it. Mrs. Servante is a speaker of much ability and her address was listened to with much appreciation by a fair audience.

Village council met this evening and discussed affairs of state. A delegation from the Temperance and Moral Reform council. Rev. Mr. Honey and Mr. Wm. Hickson addressed the council on the recent show company and received a sympathetic hearing. Applications were
