TEACHERS' TROUBLES.

How Teachers May Prevent the
Breakdown of the Nervous System
which often Threatens.

The worry and work, the strain and
anxiety of a teacher's life are such as to tell
severely on the nervous system. Time and
again teachers have had to give up good
positions on account of run down health

and shattered nerves. To such we confidently recommend Milburn's Heart and Nerve Pills, and in doing so we are supported by the testimony of Mrs. Kelly, Colborne Street, Chatham, Ont., who made the following statement:—"Milburn's Heart and Nerve Pills are, beyond question, the best remedy for nervousness and all exhausted conditions of the system I know of. My daughter, as a result of over study and close application to her duties as school teacher, became much run down and debilitated and was very nervous. Two months ago she began taking Milburn's Heart and Nerve Pills. They acted quickly and effectually in her case, making her strong and building up her entire system." Milburn's Heart and Nerve Pills cure Palpitation, Nervousness, Sleeplessness, Anemia, Female Troubles, After Effects of Grippe, Debility, or any condition arising from Disordered Nerves, Weak Heart or Watery Blood. Price 50c. a box.

The bride was assisted by her sister Susan, while Mr. John Weir of Omeenee acted as rooferman. The bride was very prettily attired in a dress of grey ladies' cloth, trimmed with white satin and chiffon. The bridesmaid wore a similar costume. EDEN-MARIPOSA

Miss Greenaway of Woodville is visiting at Mr. W. J. Greenaway's. Mr. G. Treleven is as well as can be expected.

Several farmers finished seeding last week. Rain is badly needed by many. Messrs. Ferguson and Rodman of Little Britain were the guests of Mr. A. W. Jewell Sunday evening.

Miss A. Fowler, teacher at Horn-castle, spent Saturday and Sunday under the parental roof.

Mr. R. Gorrill lost one of his fine grey horses last week from inflammation.

The Eden baseball team will try conclusions with the L. C. I. in Lindsay next Saturday afternoon. The boys have had no practice, but will do their best to win. Two games were played last year, each team winning a game, so that this game is bound to be interesting.

MANILLA

The rain of Tuesday filled a long felt want and was much appreciated.

Miss Hattie Hunter is at present suffering from an attack of grippe.

There is much furbishing up of old spades and hoes these days. The amateur gardener is much in evidence.

Mr. Wm. McKay and family have moved into the house formerly occupied by Mrs. McPhail.

Mr. Geo. Carter, jr., has returned from Claremont, where he has been rusti-cating for two or three months.

Mr. G. M. Pearce has added to the appearance of his house and shop by a coat.

Mr. S. J. Clarke has erected several rods of Page wire fencing which has improved the surrounding of his property.

Mr. N. Mintern, our genial harness-maker, came nearly enough to being killed by a falling fork, the prong of which punctured his scalp and made a considerable incision. However, we are pleased to see that the wound has not incapacitated him for work and under the skillful attention of our very popular surgeon, Dr. N. McPhail, he is able to attend to his business, although he will likely have "a sair heed for a day or twa."

FINGERBOARD

Our popular blacksmith, Mr. Morrison Mark, is kept hammering from sunrise till sunset.

On Tuesday of last week a little son entered the home of Mr. B. Smith. Congratulations, friend Ben.

Mr. Wm. McNevin is preparing to have a stone wall put underneath his barn, which will add greatly to the appearance of the barn.

The farmers are nearly all through seeding; there has been no hindrance, on account of the weather being dry and fine.

The weather is quite chilly with high north-west winds, but nevertheless this does not stop business in our little hamlet.

McLean Bros. have completed the public school wood-shed. Their work has proven satisfactory to all. Success to the carpenters on the third con.

Our worthy postmaster, Mr. Thos. Moase, senr., is kept busy attending to his bees. They have wintered well, and report but one swarm dead in his apiary.

perance Band of this place will be held, and as usual an interesting program will be rendered by the school.

Several farmers in this community have finished seeding. Owing to the cold weather the growth so far has been very slow. Grain sown for nearly two weeks is just making its appearance above the surface. It is probable that the warm rains this week will help the grain considerably and hasten its growth.

Miss Lydia Stokes was taken very suddenly with inflammation on Saturday last. The attack proved so severe that Dr. Hall was quickly summoned. Under his skillful treatment her condition is believed to be slowly recovering and it is hoped that she will soon be fully recovered.

Mr. Owen Yearsley and family arrived from Port Hope to their summer quarters last Wednesday, May 2nd, prepared to do a rushing business in cheese this summer. O. J. B. is a jolly good fellow, and his many patrons are glad to see his genial countenance amongst us once more.

MARIPOSA STATION

Mr. J. Foster is home from the city for the holidays.

Mr. Thos. Foster of Cannington visited at Mr. J. Dams' on Sunday.

Mrs. Philip Paley has recovered from an illness which confined her to her bed for a few days.

Mrs. W. Parkinson, who has been ill most of the past winter, is slowly recovering.

Mr. C. Frise has secured a new wheel this season and intends breaking some records before the summer is over.

The farmers are nearly all through with their seeding and are busily preparing the ground for corn.

Mr. James Rogers has greatly improved his farm by the erection of some wire fence, which will no doubt be farther extended, as Mr. Rogers is a progressive farmer.

It is a shame if such offences are allowed upon the public highway as were committed by two toughs (for they are unworthy the name of young men) of our northern village last Saturday last, while returning on their wheels from Little Britain. These specimens of animals delighted their degraded natures by singing while passing a couple of young ladies on the road, such lewd songs as were unfit to pass the lips of any human being on earth, let alone two young fellows of the village of Oakwood.

Just for the benefit of these cases, I would say there is a law which deals with those kind of animals who delight to utter such polluting language while on the public highway, and have not brains enough to control their vile tongues. A certain party who overheard the language on this particular night, and knows who the offending parties are, will not hesitate to take steps to have them attended to if such offence is again committed within his hearing.

As one man, the guests arose and drained their glasses.

—At the luncheon at the University Club, St. Louis, last week, Admiral Dewey made the following significant remark: "We can whip any nation in the world except England, and England is our best friend." For a moment there was an impressive silence, which was followed by a loud cheer, and the president of the club, Mr. Lionberger, rising to his feet, proposed a toast to America's best friend, England.
