Two severe cases that  
were completely cured  
by the Great Blood  
Purifier and Healer,

# Burdock BLOOD BITTERS

Suffered For over eleven years I  
11 Years, suffered with Dyspepsia  
and tried everything I could think of, but  
was unable to get relief until I took Bur-  
dock Blood Bitters. I had only taken one  
bottle when I commenced to feel better,  
and after taking five or six bottles was  
entirely well, and have remained so ever  
since, and feel as though B.B.B. had saved  
my life.—Mrs. T. G. Joyce, Stanhope, P.Q.

Covered My little boy, aged 10  
With Sores, years, was a complete  
mass of sores, caused, the doctor said, by  
bad blood. His head and body were  
entirely covered with sores, and we could  
find no cure. Finally I got a bottle of  
Burdock Blood Bitters, and before one-  
half the bottle was gone he began to  
improve and by the time it was finished  
there was not a sore on him.  
I used the B.B.B. as a wash as well as  
internally, and it seemed to give great  
relief as soon as it was put on.—Mrs.  
Philip Mitchell, St. Mary's, Ont.

put forth to make this the best picnic of

in a later issue of this paper.

Mr. Meehan eight or nine head.

Farmers are complaining this spring of

Toronto, having gone to the hospital.  
We hope that she may soon be restored  
to health and return home to enjoy many  
years of happiness with her family.

Mrs. Jas. Cunningham is at present in  
a very low state and as she is approaching  
four score years the end is expected to be  
very near. Mrs. John Cunningham,

glad to say out of danger and is in a fair  
way to recovery. Dr. Wood of Kirkfield

man was found until Sunday last, when  
his body was discovered in a swamp a  
short distance from his home. He had  
gone in search of some timber, and be-  
coming exhausted with walking died be-

The managers of the Presbyterian  
church have decided to renovate the  
old place of worship, but certainly not  
before it was badly needed. It is to  
be fixed up generally with the addi-  
tion of new seats and windows. Al-  
though Mr. Russell's interesting ser-  
mons makes one forget the seats  
entirely, still they are needed very  
badly.

### Safety Rifle Ranges

Events in South Africa have brought  
about a widespread interest in rifle  
practice, and what is wanted is some  
system of closed safety short ranges, such  
as are used on the continent, so that the  
members of the rifle club can attend  
them. The firing point is usually closed  
in, and on the inside is a sloping bullet-  
proof pent house roof, which effectually  
prevents any accidental shot flying off in-  
to the street. High walls with cross  
screens at gradually increasing distance,  
in which are openings corresponding to  
the targets, provide for the safety of the  
neighborhood, while a further precaution  
is provided in the shape of sloping screens  
above the targets themselves. These  
could be self registering, or a covered way  
to a marker's butt might be easily made  
from the firing point. An illustration of  
such a daily range is given in a recent  
number of the Daily Graphic. In France  
shooting at a mark forms one of the  
lessons taught at the primary schools, and  
there are in that country 1,800 shooting  
clubs, with a membership of 14,000.  
Switzerland has 3,300 rifle clubs, with  
nearly 20,000 members, out of a popula-  
tion of nearly 3,000,000.

### News of the Week

A couple of weeks ago while Mr.  
George, governor of the jail at Parry  
Sound, was superintending the prisoners  
in the changing of their clothes, Wm.  
Ryder, detained on charge of insanity,  
made a sudden attack on him, and suc-  
ceeded in jumping out of the jail. He  
fled to the river, crossed on a boom of  
logs, threw off the prison clothes he had  
on and fled up the McDougall road at the  
top of his speed. Chief Constable Good-  
all, with a team of horses started after

the runaway in a few minutes but did not  
capture him until he had run about six-  
teen miles. When caught Ryder had on  
only his guernsey underclothes, no hat,  
no shoes, and but one sock. His feet  
were cut and bleeding and he was pretty  
well exhausted, having ran nearly all the  
time he was at large. He is now back in  
his old quarters and will be more closely  
watched, pending his committal and re-  
moval to the asylum.

—On Friday last provincial detective  
Rogers, accompanied by Chief Adams,  
drove to the Elbe mills, about nine miles  
from Bruckville, and placed under  
arrest a young man named Philo Haskins,  
on a charge of alleged dealing with green-  
goods men in New York city. Haskins,  
it seems, saw a very tempting letter in a  
New York paper, offering great advan-  
tages. For a ten dollar bill one hundred  
dollars of the green-goods money was  
promised in return. Haskins sent the  
\$10 by registered letter. This, of course,  
the New York men dare not sign for, and  
the letter was returned to the dead-letter  
office, Ottawa. When the contents of  
the epistle became known to the authori-  
ties there, the matter was placed in the  
hands of the Attorney General's depart-  
ment to investigate. A number of in-  
criminating letters were found in  
Haskins' possession, showing that consid-  
erable correspondence had passed  
between him and the green-goods man,  
who was constantly offering better in-  
ducements with the object of drawing  
him on. None of the green-goods had,  
however, reached Haskins. The prisoner  
owns a saw mill, and being in hard  
circumstances, thought this an easy way  
of becoming rich without working.  
When arraigned before the police magis-  
trate he pleaded guilty. Previously he  
had borne a good character, and as there  
were certain other mitigating circumstan-  
ces in his case, he was allowed to go on  
suspended sentence. He gave a \$400  
bond to appear when called upon.
