 —Huntsville Forester:—"Who are they and where did they come from?" were questions asked by many citizens on Tuesday. A man passed along the main street carrying a baby, and leading a rawboned horse. The animal was hitched to a wagon, and the wagon was attached to a cart, which suggested that the cart horse had fallen by the way. Next in the procession was a man leading a horse which was hitched to another cart. A woman leading a cow and a yearling heifer followed the man and the cart. The outfit was a sorry one. We understand they came from the County of Essex, and are going to Burk's Falls.

Carroll.
 —A fancy booth draped with gay curtains and surrounding a tea-brewing outfit and gracious lady was a centre of attraction at Hurley's during last week. A great many drank sample cups of this tea and speak in high praise of the Ross Tea Company and their goods. In the absence of beer it is certainly no mistake to drink the brewings that can be made from the Ross company's package tea. Ask Mr. Hurley about it.

Hughes for the brave part he performed in South Africa in the interest of the Empire. A banquet was proposed, but he could not remain over to-morrow. The lecture which was profusely illustrated with views taken by the Colonel himself and others, was frequently applauded and at the close a very cordial vote of thanks was given for the interesting lecture. He and some of his men were taking the hydrant out of the ground. It was almost out and standing about eight feet up in the air, when something slipped and allowed the towering iron to swerve suddenly to one side. Mr. Begbie was steadying it and realizing that if it went down both it and the granolithic would be smashed, he stayed under it and steadied its fall.
