ELECTION ECHOES
(By Geo. H. Fox.)

We Tories have a glorious cause, We now are wanting better laws, To make the ballot-burners pause And disappear from sight.

Our hopes on Whitney now we fix To stop the rough Liberal tricks, Which have disgraced our politics And blackened darkest night.

We know that justice waiting weeps For Grits have gone way down the steeps, But Liberty her vigil keeps— We're battling for the right.

Let them listen to the thunder, Let machine men stand from under, While the women wail and wonder, Buckle in and strike with might.

—Let the politics of the Province be purified.
—Punish the politicians who failed to punish the ballot thieves.
—Who was it that paid the machine men for special services? Was it not Liberal politicians?
—The person who seeks to raise sectarian strife in this country is the worst enemy the state possesses and should be exported.
—Among the significant mottoes which appeared at the Sudbury reception to Mr. J. P. Whitney were the following: "The Land and Wood for the Settler," "Free Grants for Settlers" and "Leave Enough Fire Wood for the Settler." This should be a settler to Liberal politicians, who have been intent on allowing capitalists to strip the woodlands at the expense of the settler.
—The outpourings of Hoyle in North Ontario does not add smoothness to the pathway of the Liberal candidate in that constituency.
—If Major Miller in West Peterboro does his work well the Hon. J. R. Stratton may find himself pretty well ground up, on May 29th.
—The 29th of May is election day, and the name of Whitney can be formed out of letters taken from the word "Twenty-ninth." According to an old proverb this is considered a sure sign of success. Whitney will win.
—The sporting friends of the government and prohibition candidate are playing a bluff game in order to give heart to Liberals in the contest. Some of them are offering to wager heaps of money on the result, but back down when cornered. It is not known whether it is their own or government money which they carry with them.
—The Ontario government claims to have a surplus. Well it has a surplus—a surplus of office-holders and machine-men, but not a surplus of cash. The army is getting to work.
—The Liberal-Conservative standard-bearer is being belied and misrepresented just the same as he was in the contest of four years ago, but that sort of work recoils on political opponents, so it is hoped that they may keep right at it.
—The name of Fox will appear first on the ballot papers and that of Smale second. If there is anything in alliteration—Fox first, Smale second—then the people's candidate will come out all right in the contest.
—Mr. George Blackwell used the blackboard at Black's school-house in showing the financial condition of the province, and made matters look black for the government. He makes a good campaigner, being a clear and convincing speaker.
—The fox and goose story of the Post is a trifle goosey. The Valantia woman who told the Grit campaigner that she was afraid "the Fox might disturb the setting goose in the barn," was taking a quiet drive at the goose who was sitting in the buggy. "When Blain was President of the United States" they did not allow such yarns to be spoken.
—The Liberal-Conservatives have to fight against the influence of two governments in the present contest. The Senator is working the Dominion lever for all it is worth.
—The royalty collected on school books is a special tax on the man who is doing the most for his country—raising children and schooling them.

The Government soon is going, The tide is out and flowing, Bad seeds they have been sowing— Just you wait, just you wait, Just you wait and see.

Oh, that Referendum! From office it may send me, 'Twill surely, surely end me— Just you wait, just you wait, Just you wait and see.

Grit thieves our ballots stole, We'll put them in a hole, And big rocks upon them roll— Just you wait, just you wait, Just you wait and see.

Smell those ballots burning, Honest men are turning— The truth they now are learning— Just you wait, just you wait, Just you wait and see.

Aeronaut Severely Killed.
Paris, May 13.—The death of Senhor Severo, the Brazilian aeronaut, who, with an assistant, was killed yesterday morning by the explosion of his airship, La Paix, in which he was making a trial trip, created terrible consternation. His wife witnessed the accident.

Struck by a Street Car.
Montreal, May 13.—Nellie Bachman, 8 years of age, the little daughter of Hymon Bachman, was killed by a Montreal Street Railway car yesterday.

How I Lost Her.
She is a sweet, poetic dream, A lily on love's crystal stream, But she, with all her charms divine, Will ne'er, oh, ne'er, be mine. Because last night upon my dear I said, beneath the chandelier, "Last springtime, when the blossoms white I saw on your black hair alight, I thought they looked, upon my soul, Like snowflakes on a load of coal."

Messrs. H. Webster and W. Graham drove to the Falls from Kirkfield on Sunday. Mr. Graham drove home in the evening and Mr. Webster left for Lindsay on Monday afternoon.

The following guests registered at the Brooks House during the past week:—R. E. Millett, W. Love, J. Reid and Son, Toronto; Albert Thompson, G.T.R., and D. E. McKenzie, Kilmount; Thos. Collins, J. H. Curran, Ennismore; H. C. Kemp, Cannington; A. McDonald, London; Dan Morrin, Manila; John Brightman, Peterboro; D. Campbell, Palestine; Peter O'Connor, Grand Rapids; W. Sherman, J. W. Moore, J. F. Cornell, G. C. McGahey, G. H. M. Baker, John Cummings and daughter, Jos. McConnell, J. F. Connell, Ed. Jackson, Chas. Smith, Walter Cook, S. Arthur Day, L.S.D., A. O'Keefe, F. A. McSweeney, Jack Kidd, Steve Ingles, Norman McConnell, Harry McConnell, Jack Cuthbert, A. L. Campbell, A. H. Cottingham, J. Little, W. Lytle, T. Hartley and A. Hartley, Lindsay.

Mrs. Wm. McKeown who has been visiting friends in Lindsay and other points, is at present visiting friends at the Falls. She and Miss L. McKeown will leave next week to join Mr. McKeown in Manitoba.

Mrs. H. Austin spent Saturday in Lindsay.

Mr. J. A. DeCew of the School of Practical Science, Toronto, spent Saturday and Sunday with his parents at the Falls.

Mr. Wm. Burgoyne's yacht Kawartha had her new engine tested on Cameron lake last Thursday, and she stood the trial well.

Messrs. Cottingham and McConnell of Lindsay brought their two yachts up to the Falls last Sunday, each with about a dozen gentlemen on board. The party remained all day making the Brooks House their headquarters, and spent a delightful day. The Brooks House is being conducted in good style and tourists or visitors will do well to patronize it. We trust and expect that our three good hotels will prove inadequate for the summer trade of 1902 A.D.

The congregation of St. James' have decided to build their new church at the foot of the hill and are already digging for a site for the foundation. The residence at the foot of the incline looks as if it were going to move, which we believe it is, in the near future.

Navigation is beginning to be active. The "Alexandria" brought three loaded scows up last week, and came up again on Monday with another scow in tow. The "Greyhound" also came up on Monday afternoon. With the "Alexandria" anchored near the boat houses, the "Greyhound" in the locks and DeCew's Alligator hunting for sunken logs above the dam the outlook was cheering.

Mrs. J. Toronjo and family left on Monday to join Mr. Toronjo in Pennsylvania, U.S.

Divine service was held in St. Aloysius church on Sunday and was well attended. A number of persons drove over from Bobcaygeon to take part in this service which is only held here once a month.

The old adage that "the early bird catches the worm" was not exemplified in Fenelon Falls last Friday night. A number of ladies kept their beautiful house plants all winter and tempted by the few balmy days which came to us once in a while in March and April, put them out in the ground about a week ago. The severe frost of Friday night ended the earthly career of the plants, and while it is hard on the ladies it is good for the trade of the florists.

Messrs. J. L. Arnold and Wm. Burgoyne got some nice ones in last

week and they will soon be snapped up.

The many friends of Mrs. Dorgan of Redner's Point, heard with regret of her death on Monday morning. Mrs. Dorgan has been ill for some time, but her family always hope for her recovery. She leaves a husband and three young sons to mourn the irreparable loss of a loving wife and mother.

The weather is beyond description. Last Thursday shirt waists and bare feet were in vogue, and on Friday morning every man who was forced to leave the house wore a fur coat if he owned one. On Friday night the ice was several inches thick. Truly a changeable climate, but when we read last week of the destruction of St. Pierre and the visitation to St. Vincent we breathed a breath of thankfulness for our Canadian climate and the breath was long and deep.

Blood.
We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by. When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood. This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is no sleep, we are starved; our blood is poor; there is little nutriment in it. Back of the blood, is food to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man, woman and child.
