

HEAVY SNOW STORMS

May Blizzards that do an Enormous Amount of Damage in the West

A despatch from Blainville, N.W. T., on Wednesday, the 21st inst., says: The worst storm experienced in this section of the Northwest in many years is raging in the Crow's Nest Pass and on the prairie to the east. Snow has been falling constantly for seventy-two hours, with no indication as yet of a break. Yesterday a blizzard as fierce as was ever known here has been raging.

The snow here is eighteen inches deep on the level here, while reports from the prairie as far east as Lethbridge are to the effect that it is from two to three feet deep. Stock which has been on the green grass for two weeks is reported to be suffering terribly, especially young animals, which are reported to be dying off in hundreds. The temperature has not been low, but has been falling for several hours, and the weather is now extremely cold. It is feared the blow to the live stock interests within the radius of the storm will be almost paralyzing.

On the same day a message from Great Falls, Mont., says:—The heaviest cattle and sheep loss in the history of Montana, which will reach \$5,000,000, has been caused by snow storms, which have been raging for the past three days.

THE WAY TO BE WELL

The Blood Must be Kept Rich and Pure and the Nerves Strong

Good health is the most precious treasure any man or woman can have. But good health can only be had by keeping the blood rich and pure, and the nerves strong. If the blood is allowed to become weak and watery, the whole system is weakened and falls an easy prey to disease. There is no medicine can equal Dr. Williams' Pink Pills in keeping the blood rich and pure, and the nerves vigorous and strong. Every dose helps to create new blood, and by a fair use of the pills, pale, sickly people are made bright, active and strong. Here is proof. Mr. Robert Lee, New Westminster, B.C., says:—'Before I began using Dr. Williams' Pink Pills, my blood was in a very impure state, and as a result pimples that were very itchy, broke out all over my body. My appetite was feeble and I was easily tired. My wife urged me to try Dr. Williams' Pink Pills, and I got half a dozen boxes. By the time I had used them I was completely restored to health, my skin was smooth and clear, and my appetite good.'

Dr. Williams' Pink Pills do not purge—they simply make rich, pure blood. That is why they cure such ailments as indigestion, neuralgia, anemia, scurvy, etc. It is a common ailment to women, young and old. Sold by all dealers or sent postpaid, at 50 cents a box, or six boxes for \$2.50, by writing the Dr. Williams' Medicine Co., Brockville, Ont.

A DRASTIC FIRE

The Town of St. Hyacinthe Suffers a Severe Loss

Fire destroyed part of the business and manufacturing centre of St. Hyacinthe, Que., on Wednesday afternoon of last week and included in its path 300 frame dwellings. As a result fully 1,500 persons are homeless and about 300 others out of

employment. The estimated loss of a third of a million of dollars seems small in comparison to the dreadful havoc wrought by the flames, but many of the structures were of inexpensive material and added little to the aggregate. For a time the whole town was threatened with complete destruction, and had not a detachment from the Montreal fire brigade arrived at a critical moment no doubt the flames would have reached the market place and climbed on into the upper town. As it is, a stretch of a half-mile along the river front and a quarter-mile wide. The water pressure was very poor.

**EXCITED FRENCHMEN**  
A stiff breeze fanned the flames. These structures soon were a raging mass. The local firemen came on the scene, but their efforts were as a sprinkling can against the fiery furnace. Meantime the townspeople turned out to assist, but it seemed useless, and soon the cry went up to save the furniture, the women and the children. Such confusion as followed can scarcely be conceived. French-Canadians are never deliberate, but the excitement that seized them on the night of the fire was extreme. They rushed about yelling and gesticulating, and it was not long until the streets were crowded with all manner of household furniture, and the hope was to place it all in the upper town, beyond the fire.

FOR NEGLECTED CHILDREN

An Extract from the Report of what was Done by the Aid Society in Victoria

The provincial report on the Children's Aid Society contains the following about the work of the Lindsay branch:  
Three wayward and incorrigible lads have been brought to submission by the prompt and able assistance of those of St. Hyacinthe, Lindsay, and Chief Constable Brock, of Fenelon Falls. All are now doing well, under the supervision of the Provincial Superintendent and our society.

Our statistical report is as follows: 8 meetings have been held during the year, the average attendance being 7; number of children returned to the society, 6; number of children replaced by the society, 4; number of children returned to Prov. Supt., 2; number taken under guardianship of society, 5; number placed out by the society, 5. In all 11 children have been directly cared for. A Barnado boy also received some attention.

Evidently there is not very much destitution in this locality, and the machinery for looking after the poor is in fairly good condition, but there is one great evil before us that will rapidly and surely have a bad effect upon the youth of the town in our midst, if not immediately curtailed or prohibited, and this evil is the cigarette. Sad to say, our town and country has already contributed to the Victoria Industrial School a few bad boys, whose record there is not good.

A Doukhobor leader has been arrested as being of unsound mind.

MILLER BROS.

Painters and Paper Hangers, 101 Kent-St. two doors east of The Watchman-Ward.

THIS SOCIETY ENCOURAGES MAKING NOISES ON THE STREET

A Take-off on the Various Dins that Afflict People Who Live in Cities

In the Collier's Weekly for this month Hayden Carruth writes as a member of the Society for the Encouragement of Street Noises—a society, by the way, that Lindsay with its uproar of steam whistles, gongs, and church bells and other idiotic din, would greatly delight.

In this sketch, which is written with big concessions to phonetic spelling, Mr. Carruth says that the president is Mr. Jim Thunder, who is not so fluent with his pen as active with his mouth, and who drives one of those big trucks with wheels as big as the paddle wheels of a steamboat and carrying iron girders slung under with chains loose and "rattly." Bill Screamball, the milkman, Tom Steamer, the elevated railway engineer, Tony Fortissimo the organ grinder and Sam Gongbuster, were officials and Pete Hornblower venter of strawberries and other vociferous vegetables a prominent member. Brother Gongbuster has been motorman on a Broadway trolley car for three years, and had gained a reputation for frequent and outrageous banging of the gong. To be always in readiness for that performance he stood with his right foot up like a sleeping goose and constant exercise had made the active extremity require a foot two sizes larger than the other.

Buyers of old clothes who put their hands to one side of their mouths and dethrone reason in all hearers with their din were favorite members, as were also scissor-grinders that ring bells neither loud nor fast but steadily, which was very depressing to sick folks. Truck drivers are in high favor who bring certificates that can yell at the cautious pedestrian at the crossing in a voice that can be heard two blocks away, above all other noises except fire engine whistles and subway blowing up. So are all members of German bands in active service, men that ring church bells, blow whistles and wind up town clocks, and any other miscellaneous raisers of din. The man that keeps a dog that howls at night or in the daytime is received. His dues are remitted if his dog howls both night and day. A couple of cats that are vocal all night render their owner eligible for membership.

One applicant was rejected because he drove an automobile that had rubber tires although it was argued that his noiseless approach enabled him to run down more people who added a lot of agreeable hollering to the general uproar. A policeman could join it if he snored loudly enough. The society is trying to get legislation requiring all hucksters to use megaphones and all baby carriages to be equipped with gongs.

CHILDREN'S HOME WORK

The National Council of Women Thinks it is Injurious Under Present System

On Friday morning the National Council of Women discussed the following resolution: "Resolved, that in view of the excessive amount of home work required from most school children, which is deemed by many to be injurious, both to their brains and nerves, this National Council of Women do make careful enquiry into the matter, and do, if possible, try to secure some remedy for a custom that may prove hurtful to boys and girls at an age when their systems cannot stand with impunity any severe strain."  
Other speakers endorsed the view that children should be given less book-work to do.

Miss Derrick, of McGill, was the first speaker. She stated that two methods were at present employed with regard to home study: the German method, in which homework consists solely of copying exercises, etc., which while not using the nerve force, destroys the individuality of the pupils, and the older system, which gives the initiative and leaves the real work to the child, thus developing originality. The school system must be a compromise. It is a question not for medical men alone nor for mothers alone, and Miss Derrick suggested a committee of enquiry as a modification of the resolution.

Mrs. Hoodless stated that three years ago an exhaustive experiment was undertaken in Chicago by a number of physicians and educationists who have it as their opinion that no child of public school age could receive or retain book knowledge after three hours' work. The ideal would be mornings spent in study and afternoons devoted to manual training, domestic science, nature, study, etc.

—John MacLaren, one of Brockville's most prominent business men, died at Kamloops, B.C., on Wednesday of last week, the result of an accident last Monday. He was on horseback, climbing a steep ascent, when the horse fell backwards upon Mr. MacLaren, causing profound shock, from which he never rallied. He was taken from the scene of the accident by boat to Kamloops, and evidently, medical attendance was not available until he reached there. —Harry E. Little, a spare fireman of the street railway Windsor, met a terrible accident at midnight on Wednesday, which resulted fatally at noon on Thursday. Little's duties were over at 12 o'clock, and he lay down on the wide belt to rest. He fell asleep, and the engineer, unaware of his presence, started the engine. Little yelled, but it was too late. So tightly was the poor fellow jammed between the belt and the drive wheel that the engine had to be partly taken apart to remove him.

WOULD HAVE TO STOP HER WORK AND SIT DOWN.

**HOW MANY WOMEN HAVE TO DO THIS FROM DAY TO DAY?**  
**MILBURN'S HEART AND NERVE PILLS** are a blessing to women in this condition. They cure Nervousness, Sleeplessness, Palpitation of the Heart, Faint and Dizzy Spells, Weakness, Indigestion, and all troubles peculiar to the female sex.  
Mrs. James Taylor, Salisbury, N.B., in recommending them says: "About eight months ago I was very badly run down, was troubled greatly with palpitation of the heart and would get so dizzy I would have to leave my work and sit down. I seemed to be getting worse all the time, until a friend advised me to try MILBURN'S HEART AND NERVE PILLS. I can truthfully say that they did not only do for me, but I can recommend them to all run-down women."  
Price 50c. per box, or 3 boxes for \$1.50 (all dealers, or The Milburn Co., Limited, Toronto, Ont.)

The Imported Clydesdale Stallion
