THE CONFERENCE NOT AS PRO-FITABLE IN RESULTS AS IT MIGHT HAVE BEEN.

The Imperial conference is closed, and the last word cabled over with reference to it is of the nature of a complaint from the majority of the Premiers to the effect that they were unable to make headway, owing the fact that Sir Wilfrid Laurier supported the antagonistic attitude the Campbell-Bannerman Government on all questions. It is true that Sir Wilfrid was in harmony with Liberal Administration throughout. But that ought not to be a matter for adverse comment by the other members of the conference. Each representative was free to adopt own line of action; and, so far as Sir Wilfrid is concerned, he went the other Premiers desire, and it could not be expected that he would mit that such is the case in the considerable discussion was a lock in the vicinity of the Grand of the case in the

opposed to them. At the same time the circumstance that the conference has been less, if not reactionary, cannot overlooked. Many important were advanced, and these, one by one, were laid aside. The suggestions looking toward united defence were not well received. Sir Wilfrid the counter proposition that we aid the navy by training men, than by giving financial assistance but this idea was vigwed as alkurd because at the present time Britain can call out more expert seamen than she has vessels for them to sail. The proposition of Mr. Deakin, that there should be a fund contributed to by all the dominions of his Majesty for the fostering of the industrial forces of the Empire, was also coolly treated. Sir Wilfrid Laurier, for one, objected to it on the ground that it is not right for a Parliament- the Parliament of Canada, for exampleto vote money which it does not expend. The policy of co-operation was thus killed, and its destruction means that the over-sea portions of the Empire cannot unite in any measure which calls for the expendi-
