W. A. Bowden has been appointed chief engineer of the Department of Railways and Canals. The old steamer Calvin was burned at Kingston.

Billious Headache

COMES FROM LIVER DERANGEMENTS WHICH ARE THOROUGHLY OVERCOME BY DR. CHASE'S KIDNEY-LIVER PILL

Headache is said to be the most useful pain in the world. It is a sort of fire alarm that warns you of something wrong with some organ of the body.

Most frequently the trouble is indigestion and torpid liver and the pain arises from the poisoned blood passing through the arteries of the brain and head.

There is no cure for bilious headache, torpid liver and indigestion that can be compared to Dr. Chase's Kidney and Liver Pills for prompt and certain results. This has been proven by so many thousands of letters published from time to time that everybody should know it by this time.

Mr. Fred Hinz, Bradhagen, Perth Co., Ont., writes—"I don't like to have my name in the papers, but feel out of justice to suffering humanity I should tell others of the good I obtained from Dr. Chase's Kidney and Liver Pills and Ointment.

"For years I was troubled a great deal with sick headaches and was often led to bad that I could not work. Being advised to try Dr. Chase's Kidney and Liver Pills I did so and can say they have brought about a complete cure. From the first I found that one pill cured my headache quickly every time. I was also a victim of itching piles and found Dr. Chase's Ointment the most satisfactory treatment I ever used. It brought relief almost instantly.

You won't be satisfied with mere temporary relief when you know your headache can be completely cured by using Dr. Chase's Kidney and Liver Pills. One pill a dose, 25c. a box. All dealers; or Edmanson, Bates & Co., Toronto.

Alfalfa, Splendid Crop For Ontario Farmers

Ontario farmers who have gone in to alfalfa experimentally have proved beyond the shadow of a doubt that this is the best paying fodder crop that an agriculturist can grow.

Alfalfa has been known since 490, B.C., and was successfully grown in Greece and Rome nearly 2,000 years ago. In the State of Kansas there were in 1891 30,000 acres grown, while last year nearly a million acres of alfalfa were under crop, resulting in untold financial benefit to the farmers of this State.

There are five different varieties, viz., American Turkestan, Arabian, Peruvian and German, but for Ontario the American variety is best suited.

Alfalfa, unlike many other crops, enriches the soil rather than impoverishes it. The roots extend into the earth from five to twelve feet, reaching down and bringing to the surface nitrogen and other valuable mineral plant food. It has been grown continuously on a farm in one of the counties of this Province for nearly thirty years and still produces good crops. It can be grown successfully on sandy, heavy clay loam or on nearly any variety of soil properly drained. Successful experiments with it have been conducted on a limited scale with success in nearly every part of Ontario, both with and without a nursing crop. Spring sowing has given best results. It sown with a nursing crop barley at the rate of one bushel per acre is an excellent one for this purpose. Eighteen or twenty pounds per acre of alfalfa is the proper quantity of seed. From three to four crops can be harvested in one season and the average height of a plant runs from fourteen to twenty inches.

When about one-third of the crop is in bloom is an excellent time to start cutting as it then possesses its greatest food value. The cutting should be done in the forenoon when the dew is off the grass and the tedder should follow immediately and be kept at work until late in the afternoon and the crop left in windrows. This process should be repeated the following day and the hay put in coils and left for several days. It should not be cut too close to the ground as the plant may be injured thereby.

The yield per acre of green crop is about 20 tons, and of dry hay five. It should not be allowed to remain too long in the hot sun as the leaves are liable to become dry and break off and they contain most valuable nutrients. Seed is produced best from either first or second cuttings and averages five bushels per acre, although it sometimes runs as high as ten.

Alfalfa hay contains about 50 per cent more digestible protein than hay made from red clover. It makes a splendid pasture for horses or hogs, but care is required when sheep or cattle are turned in as there is a tendency to bloat if allowed to eat too much, especially when the grass is wet.

An application of about twelve loads of barn yard manure per acre every four years has proved very satisfactory. Fertilizers containing phosphate have given the best results. When a field of alfalfa is ploughed down the surface soil is completely filled with roots rich in fertile elements.

It is to be hoped that every farmer in Ontario who has suitable well drained soil will put in a field of this most desirable crop.

OBITUARY

JEREMIAH LAPP. Wednesday morning, May 4th, at lot 5, con. 2, Eldon, there passed away one of the pioneers of this section in the person of Mr. Jeremiah Lapp, aged 72 years and 10 months. Mr. Lapp was a genial citizen, a good and true neighbor, devoted father and husband. The funeral took place Friday at noon, May 6th, from his late residence to the Friends' cemetery in Mariposa, where the remains will be interred. The bereaved family have the sympathy of a large circle of friends and acquaintances in their sorrow.

NEW TEAM WANTED.

The grey team of horses that have served the town of Lindsay for many years on the fire wagon, and later on the gravel wagon, were disposed of this morning to Deputy-Reeve B. L. McLean for the sum of \$310. The present fire wagon team will be put on the gravel wagon, and a new team secured for the fire wagon at once.

WORRIES OVER CASH.

Whitby, May 4.—Archie McLaughlin, of Lxbridge, who will be tried next week on the charge of murdering his wife, is still in the jail here. Until a couple of weeks ago he was in good health and spirits, and eating heartily. More recently, however, he has been worrying about the question of funds for his trial. His relatives have not come forward with the cash as generously as he had hoped. The Robinette firm in Toronto will probably conduct the defence. The case promises to be a cause celebre.

HAD THREE WIVES.

Bowmanville, Ont., May 4.—William Esley Herrington, laborer of Boston Mills, Peel County, was arrested the week before last and brought here, charged with bigamy by Sara Lockhart of this town. Remands have been made from time to time to permit Chief Richard Jarvis, who caused the arrest, to obtain the necessary papers from the Provincial Secretary's Department where the records of marriages are registered. Herrington came here as an apple buyer for an Eastern firm in 1900, and was married to Sara Lockhart on December 24th of that year. They lived together for some months, when rumors were floating around that he had a wife by a previous marriage. Herrington not long after left Bowmanville. A child was afterwards born from this marriage.

The evidence produced to-day goes to show this string of marriages to Herrington's credit. All three women concerned being still alive. January 1, 1895, to Florence Clarke, Brighton.

December 24, 1900, to Sara Lockhart, Bowmanville.

January 17, 1907, to Mary Sims, Lindsay, all of whom have had one or more children.

The witnesses to-day were: Sara Lockhart, Rev. Wm. Joliffe, and High Constable Richard Jarvis. Certificates from the Provincial Secretary's Department were also put in as exhibits, certifying to the three separate marriages.

Barrister R. Russell Loscombe, K. C., appeared for the defence, but submitted no evidence. Magistrate Horsey considered the evidence justified a committal, and sent Herrington to Cobourg for trial

at the next assizes. The court room was crowded, as the defendant is well known in this town and throughout the district.

SERIOUSLY INJURED.

The following despatch from Ingersoll relates an accident that happened to a former well-known resident of Fenelon Falls, Mr. Finley McDougall, who is also well known in Lindsay. While in Fenelon Falls Mr. McDougall belonged to the firm of McDougall, Brandao and Austin. Following is the despatch:

Ingersoll, May 4.—Injuries of a very serious nature were sustained by Mr. F. McDougall, grocer, by an overloaded elevator crashing down upon him from the first floor of his store while he was at work in the cellar. Some eleven hundred pounds of potatoes had been placed on the elevator. Mr. McDougall, who had remained in the cellar while the potatoes were being lowered, stooped to pick up an empty bag. Just at that instant the elevator shot down upon him, and before a warning could be sounded he was crushed under its weight. Had it not been for the fact that he was in a stooping position he would probably have been killed outright. He received the terrible blow on the shoulders and the back instead of on the head.

Three or four employees rushed to his rescue, and it was only through their combined efforts that the elevator was lifted off him, as it could not be raised otherwise. Besides being terribly bruised he has two ribs fractured and internal injuries, the seriousness of which cannot be determined at the present time. He was removed to the hospital.

WILL HOLD TRAIN.

Mr. J. Irwin, of the Grand Trunk, stated this morning to a Warder reporter, that on May 24th the Haliburton train which is scheduled to leave Lindsay at 2.40 o'clock will be held until 4.30 in order to accommodate the people from the north who will be attending the big celebration in Lindsay.

TEN KILLED.

Ottawa, May 8.—Boys playing in the fields started a brush fire which caused the explosion of "Uirite" this afternoon of the magazine of the General Explosives Co., in Hull, Que.

Ten deaths now, and at least twenty cases of serious injury constitute the tale of casualties, while the damage to Hull and to the neighboring city of Ottawa may reach \$100,000. The list of dead may be added to. The factory comprised a number

THOUSANDS HAVE WEAK LUNGS AND DON'T KNOW IT

Editor Used a Well Known Tonic and System Builder

The Editor and Manager of the "Burk's Arrow," is only human. This being so it is not surprising that he should feel and suffer as other men. Mr. Alex. Farcott says: "I had a very severe attack of La Grippe which left me very weak, spiritless and run down. I seemed to have lost all ambition. At this point I realized that my condition was likely to become more serious unless I took myself in hand. One day while in this 'Half dead and alive condition' I was listlessly looking over some files of my paper, The Burk's Falls Arrow (of which I am Editor and Manager), when my eyes rested on an advertisement of PSYCHINE. This clearly and explicitly set forth a case so exactly resembling my own that I at once purchased a bottle of the Medical Hall. After taking two or three doses I felt like a new man, and before half the second bottle had been used, every trace of the bad effects of La Grippe had left me. PSYCHINE is a marvel and I have strongly recommended it to some of my friends similarly afflicted and they have used it with equally beneficent results."

For Sale by all Druggists and Dealers, 50c and \$1.00 per bottle.

PSYCHINE (PRONOUNCED SI-KEEN)

STRENGTHENS WEAK LUNGS

of small buildings on the outskirts of Hull. It was devoted to the manufacture of a specially powerful explosive used in railway construction and similar work. It is under ordinary conditions of handling extremely safe.

The American Pharmaceutical Association, at Richmond, voted to not have alcohol as a commodity of sale.

Does Not Stimulate. Ayer's Sarsaparilla does not stimulate. It does not make you feel better one day, then as bad as ever the next. It is not a strong drink. No reaction after you stop using it. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic and alternative. We wish you would ask your doctor about this. He knows. Trust him. Do as he says. J.C. Ayer Co., Lowell, Mass.

WE REPAIR WEAK MEN. ONE SECRET OF OUR SUCCESS. Every case submitted to us receives the personal attention of our Medical Staff, who consider the symptoms, complications and chronicity, and then decide as to the disease and curability. Specific remedies are then prescribed for the case and are compounded by our own chemist in our own Laboratory. Such appropriate treatment cannot fail to cure, as specific medicines are selected to cure the symptoms that trouble you. We have no cure-all medicines like most specialists who send the same medicines to all patients alike and cure none. We have treated patients throughout Canada for over twenty years and can refer to any bank as to our responsibility. We Guarantee Cures or No Pay. We Treat all Diseases of Men and Women. FREE CONSULTATION. If Unable to Call, Write for a Question List for Home Treatment. DRs. KENNEDY & KENNEDY, Cor. Michigan Ave. and Griswold St., Detroit, Mich.
