"The Brake That Makes the Wheel Run Easy"

The Hercules Coaster Brake

There were more "Hercules" brakes sold in Canada last year than all others combined.

One reason for the "Hercules" popularity is that it is lighter in weight than any other. The "Hercules" is an armless brake, a great feature in any bicycle. As it is pathetically simple. A child can take it apart and reassemble it.

Hercules Coaster Brake

Positive in action and easy running when released. It wears well because it is solidly simple and there are no intricate

parts to get out of place or become damaged in the wear.

THE HERCULES IS AS SMALL AS THE ORDINARY HUB OF A BICYCLE.

The season's grain on the various farms are now showing to such advantage after the visitation of rain during the past week.

The annual meeting of the Islay branch of the Women's Institute, which was held at the home of Mrs. D. R. Spence on Thursday the 12th

inst., was very successful in regard to the attendance of its members, there being only one or two unavoidable absentees. The election of incoming officers for the current year's labors were as follows: Mrs. William Wilson was re-elected as president, the members having full regard as to her capabilities to hold the office, as she was always very regular in her attendance and always conducted the meetings in a most business-like manner. Under her presidency the institute had had a prosperous year in the past, all owing to her untiring energy. It was their sincerest desire that she should again hold office, for their welfare was insured under her guidance. Mrs. John Cowieson was a re-elected vice-president as she had rendered good service to the institute in the past. Miss Mamie Naylor was elected secretary-treas., a better successor to the retiring lady Miss Mabel Currins could not have been chosen. Miss Mabel Currins who had so ably filled the office for the past two years, although desired by the members to still keep the secretarial office, declined it with thanks. Mrs. R. McFadyen and Miss Lois Naylor have been appointed auditors and Miss Maggie McMillan is the district director. An excellent paper was given by Mrs. John Cowieson. The New Year's term commencing on June 1st, opens another year with a large membership, and there is great anticipation of successful meetings.

Mr. Leach, of Cookstown, spent a few days last week visiting his brother-in-law Mr. J. P. Ramsay.

The Great Standard Bred Stallion

THE PATHFINDER No. 33694, (A. T. R.)

Breed your mare where she will bring you best returns. That is what the intelligent breeder wants to do.

When selecting a stallion it is better to get one with plenty of substance of good conformation, good feet and legs and above all, use a standard bred, and be sure he is standard before deciding.

The only way to locate the best is by enquiring and comparing breeding. A colt from an inferior horse costs as much to raise as one from the best.

Mr. C. O'Neill, Lindsay, is the proud possessor of a colt by Pathfinder that shows more speed than any colt ever bred in Victoria or surrounding counties. When only eight months old it could easily show a three minute clip while being led beside its dam over the snow. Recently it has been an eighth of a mile in 20 seconds.

Mr. L. Bennett, Port Hope, is the owner of the first colt got by Pathfinder in Canada, which also shows remarkable speed with a great way of going, which is quite evident that he will not only produce speed, but early and extreme speed.

The Pathfinder will make the season 1910 at my barn, 170 Kent-st., except Thursday afternoon, he will go to Omemee via Reabro for the night, returning home for noon on Friday.

Fee—\$15 to insure, payable February 1st, 1911, with return privilege free in case of bad luck. For pedigree see small cards. GEORGE W. CURTIS, Lindsay, Ont.
