I watched you outrageously cheat Mr. Randall and ply him with liquor in order to cover your characteristically clumsy manipulation of the cards, and if I stepped in tonight and stooped to emulate the type of game which you solely play it was in order to save your victim from complete and total ruin. It is unnecessary to say that when Mr. Randall is capable of estimating what has occurred and is once more himself this deed will be returned to him."

"Now, Kirby, yoh can't play that game on me," cried Moreau, jumping to his feet. "Yoh come in on my kill and then try to do me out of the spoils. That don't go, Kirby. I'm too old a hand. Keep that line of talk for sapheads. The Randall plantation is sold under the hammer, and I get two-

I say Mr. Randall himself will destroy this deed and that his plantation will not be sold, and you may believe it or not, just as you like. That ten thousand you virtually stole I cannot, unfortunately, refund; but, believe me, that is the entire extent of your stealings. I refer, suh, to a front seat in the grill room of his most Satanic majesty. You servant, suh, and a very good for whose death he had been directly evening." Bowing, the flower of southern chivalry backed nimbly through Tom Randall had ridden over to the the door and disappeared.

CHAPTER III. C OLONEL JACQUES GAS REAU, to give him his ful title, doing all things thor oughly, as befitted one of his honorable character, was not satisfied with, as h thought, disposing of Kirby's physical existence, but considered it his pleasurable duty to effectually ruin what-

ever little reputation bad survived during the other's downward career. Kirby, presumably fatally wounded had been carried ashore by Bunce at the next landing, and, in those days shooting and stabbing affrays emanatng from card games being only too common, but little attention had been paid to the affair. Cameo Kirby was notorious the length of the river, and such an abrupt and tragic termination of his career had not only been frequently and cheerfully predicted, but was, moreover, expected of all such members as graced his questionable rofession. Indeed, for them a sober and respectable death would have been considered bad form. Among the gambling profession there existed a certain code, which in a manner served to link those at the top, who, like Kirby and Bunce, wooed fortune honestly, to the Moreau type, gracing and disgracing the lowest rung in the gamblers' social ladder. This code, if so it may be termed, was an understanding to the effect that in no instance, however great the provocation, should the law be inwoked. Wrongs, fancied or authentic, were to be redressed solely by the bearers thereof, the joint office of judge and executioner being vested each separate and distinct individual.

In view of this accepted understanding, Larkin Bunce had accordingly made no mention of the fact that probable murder had been committed, and, the passengers and steamship officials dismissing it as a gamblers' quarrel, which was none of their affair, no stigma or notoriety was attached to the good Colonel Moreau, who, claiming to be an old and valued friend of Mr. Randall, had gone to the latter's stateroom and brazenly assumed charge of the body. Bunce's laconic statement was too pitifully true, for the old planter had effectually ended his life. Again referring to Colonel Moreau's happy faculty of doing all things well, it was quite characteristic that to complete his revenge against Cameo Kirby

MESSAGE OF CHEER FOR TIRED WOMEN

Mrs. Gen. Butler Finds Rel In Dodd's Kidney Pills.

FARMER'S WIFE WHO WAS WEAK NERVOUS AND SUFFERING FROM BACKACHE, TELLS HER SUFFERING SISTERS HOW TO BECOME WELL.

Paquetville, N. B., May 12. Special. - It is a message of cheer that Mrs. Geo. Butler, wife of a wellknown farmer living near here sends to the tired, nervous, run-down women of Canada.

"My trouble was brought on by hard work," Mrs. Butler states. "For four years I suffered from pain in the back. I was always tired and nervous. My head ached, and I had dark circles under my eyes, which were also puffed and swollen. I had flashes of light and floating specks before sub-don't push me too far, fob even my eyes, and was generally in a run-down condition."

and shamefully responsible, for young Plaquemine landing in order to greet his father, while over at the old homestead all was bustle and excitement in honor of the master's homecoming. Anxiously Tom Randall waited to see the jovial and well known figure of his father march down the gangplank, waited to catch a glimpse of the familiar and weather beaten green portmanteau which the planter always carried. The moments passed. Other and numerous passengers stepped ashore, to be eagerly welcomed and claimed by their own, but John Randall was not among them A curious and seemingly pregnant hush had succeeded the landing of the freight, and off somewhere in the darkness a child whimpered shrilly. The boy's nerves were set on edge. Perhaps his father was having a farewell talk with the captain and would come dashing out

at the last moment with all his old disregard for time and place. It was time the bell was clanging, the signal for backing away, for by now the landing of passengers and freight appeared to be terminated. And still no John Randall. The boy walked along the stringpiece until the Texas deck came the more prominently into view, the glow from the open windows of the port staterooms silhouetting the lean visaged pilot, absolute monarch of his realm, who now that an easy stretch of the river had been entered loafed about while his cub took the wheel. shouted young Randall, looking up at the pflothouse. "Is that you, Mr. Bixby? This is Tom Randall. Do you
