

THE WATCHMAN-WARDEE, LINDSAY, ONTARIO.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of *Chas. H. Fletcher*

The Kind You Have Always Bought
In Use For Over 30 Years
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

NOT A WHEEL TURNED.
Heavy purple and black draperies at the Lindsay Grand Trunk Railway depot, and on all principal offices and stations of the Grand Trunk railway system throughout the Dominion and on affiliated roads in the United States give evidence of the tribute of honor and respect which was rendered at the memorial service to the late president, Mr. Chas. M. Hays, in Montreal last Thursday.

At the hour of service all labor in connection with the railroad was suspended for five minutes, and Lindsay and on the lines not a wheel turned between 11.30 a.m. and 11.35 a.m. to-day. Even the fast mogul flyers on the road slowed down and stopped, while not a tinker moved in the dispatcher's office.

Among those who went to Montreal to be present at the memorial service was Mr. D. Macmillan, trainmaster, of Lindsay.

An official of the Grand Trunk who has a liking for statistics has figured out that the five-minute suspension of all the wheels over the entire system to-day in memory of the late Charles M. Hays, will cost \$1,500 in salary alone. During the brief period during which employees all over the system will pay a last tribute to their former chief, fifty thousand hands will be idle. They are paid at widely varying rates, but it is figured out that three dollars per day is a fair average, forty cents an hour for an eight-hour day. For this amount the Grand Trunk pay roll will be paid an average of three cents, which sum multiplied by 50,000 means that it will cost in the neighborhood of \$1,500 from the salary standpoint of the company. The standing order of the ruling they have made in honor of their late president's memory. It will also be necessary to alter certain arrangements which may be upset by the stoppage in the way of connections with other lines and in the larger cities.

Travelling Man's Experience
Continual Change of Diet and the Steady Daily Grind of Travelling Impaired His Health.

Mr. C. Tomlinson, Calgary, Alta., writes: "I take much pleasure in paying a much deserved tribute to the merits of Wesden's Stomach and Liver Pills. My stomach gave me a great deal of trouble, and I suffered from indigestion, biliousness and constipation, and the continual change of diet and water that makes up the portion of every travelling man's daily routine, only accelerated my ailments. I used to try a great many remedies for my trouble, and while some of them helped for a time I did not get permanent relief, and kept getting worse. However, I kept trying different remedies suggested, and one day I saw an advertisement of Wesden's Pills. It happened at the time I was visiting some friends in Lindsay, Ont., and I procured a box from a druggist there. From the very first I noticed a change in myself, and kept taking the pills until, after two months, I now feel like my old self again, and nothing I eat bothers me in the least. I have no regular bilious attacks and constipation has entirely disappeared. I recommend Wesden's Pills to all who are afflicted with the complaints I had, and especially to commercial men who are up against the same conditions I encountered. I often meet men on the road who tell me their troubles—road who tell me their troubles—and I never lose an opportunity to give Wesden's Pills a boost."

SURVEY OF HALIBURTON CO.
Dealing with the subject of Municipal Forestry in Ontario a publication issued by the Commission of Conservation of Ontario, has the following to say:
Forestry is a comparatively new science. Municipal forestry in so far as Canada is considered is never still. It was only a year ago that the Ontario Government passed an Act which empowered municipalities to engage in forestry.
The coming survey of the Commission of Conservation will supervise a survey of the County of Haliburton and the northern portion of the County of Peterborough in Ontario. The survey is to furnish a detailed description of the natural conditions and resources of the watershed in Peterborough and Haliburton counties feeding the Trent canal waters, and to serve as a basis for a plan of management.

ECONOMIC CONDITIONS
The area comprises about 1,500 square miles of which as much as can be accomplished in one summer season is to be examined. A map on the scale of 2 inches to the mile on which 5 acre lots can still be conveniently designated is to serve as a basis for description.
The economic conditions to be ascertained will comprise:
a—Ownership and status of timber lands;
b—Municipal relations and tax conditions;
c—Farm development, crops, character and quantities;
d—Manufacturers and mills in existence and possibilities of local industrial development;
e—Means of transportation and development of water powers, so far as useful for developing local industries;
f—Tourist traffic, game and fishing interests.

NATURAL CONDITIONS.
The natural conditions to be ascertained, and, as far as possible to be mapped are:
a—Topography (in the rough) and delimitations to watersheds;
b—The location of neighboring parcels down to a minimum limit of ten acres;
c—Statements regarding character of climate and soil;
d—Character and conditions of forest growth in connection with (b). This will include estimates of merchantable timber standing, and of young growth;
e—Studies respecting rate of growth.

PLAN FOR DOING WORK
Secure maps and all existing information of region involved.
Collect by personal observation and personal interviews with officials and informed persons, other data of economic conditions.
Two experienced fieldmen with one or two assistants and small camp outfit will cruise (investigate) the watersheds to secure all data regarding natural conditions.
The topography will be secured by aneroid only (roughly elevations at given points). The cruising will be done by the strip system as far as practicable one mile apart.
Farm areas in use will be noted with indications of the character of the soil, and the soil under forest cover will also be indicated. Barren areas will be designated and the character and cause of barrenness as far as possible stated.
Timber conditions will be classified into forest types: softwood, hardwood, mixed, stated in proportion of species, and into stand types: virgin, semi-virgin (largest sizes excluded), moderately culled, severely culled, entirely cut, young growth of different ages (differentiation by decades) recent burns, etc. Where merchantable timber occurs rough estimates of amounts; where reproduction occurs, character and promise of future growth will be noted. Natural conditions favorable, or unfavorable to reproduction will be noted. Incidentally, growth rate studies will be made to secure an insight into the time element under various conditions.
As a result, a report will be compiled giving a clear picture of conditions, which as far as possible, will be indicated on a map. A plan of management, in which suppression of fire will be considered, will be evolved.

Clover, Timothy Seed

We have the best quality we have had in the last 37 years.

Alsike, Red Clover, Mammoth Red Alfalfa, Timothy and all kinds of Seed Grain.

NOTICE
Pursuant to the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be a public auction at the Simpson House, in the town of Lindsay, on Saturday, May 18, 1912, at 12 o'clock noon, the following valuable farm:
All and singular that certain parcel or tract of lands and premises situate, lying and being in the township of Fenelon, in the County of Victoria, and being composed of the west one-third of lot number seven in the second concession of the said township of Fenelon, containing by admeasurement sixty-six and two-thirds acres, be the same more or less. This valuable property is located one mile from Islay post office and school house. On the farm are said to be a suitable dwelling house with barn, stables and outbuildings, and the improvements thereon, and the sum of \$10,000, at the time of sale and the balance in one month without interest, or vendor might arrange terms of payment on mortgage for part.
For further particulars and conditions of sale apply to:
E. WELDON,
Vendors' Solicitor.

Eldon Merchant Died Out West
Clenarm, April 22. — Mrs. Murchison, of the store, recently spent a few days in Toronto visiting her daughter Mrs. Reid.
Miss M. Trueman, who is teaching in Newmarket, spent the Easter holidays in our midst.
Mr. Burke and family have taken up residence on Mr. Robt. Morrow's farm. We welcome Mr. Burke and family to our district.
Mr. Jack Ferguson, of Toronto, is visiting at the home of his mother, north of the village.
Mr. Duncan Jamieson is spending some time in Toronto. We understand he is in the employ of The Able Engine Co.
The news of the death of the late Mrs. John Murchison, of Saskatchewan, passed was a resident here for many years, her husband conducting a general store here for several years, from whence they removed to Woodville. About a year ago Mr. Murchison decided to go West. This was owing partly to the ill health of his oldest son, and the family settled at Conquest, Saskatchewan, where he conducted a general store. Mrs. Murchison has been in poor health for some time yet death was unexpected. Her mother, Mrs. McKay, of this district, also her brother, Mr. Jack McKay and his wife, who were on a week before her death. Deceased leaves a husband, and four children; a mother; also five sisters and four brothers. The sympathy of this entire community is extended to the bereaved ones in their sad hour of affliction.
Mr. Alex. McFarlane has engaged an assistant to Mr. Angus McKay for the summer months.
Owing to the bad condition of the roads the attendance at church has been rather small the past few Sundays.
Housecleaning is the order of the day at present as the busy housewife goes forth armed with broom, dustpan and all the other necessary weapons to fight against the ravages of Time. She has a feeling akin to what David had when he slew the giant of the Philistines. There is glory akin in her soul.
The farmer, who is wishing for warm dry weather so that they may commence seeding operations.
Mr. Robert Landall is assisting Dave Graham, of Islay, with the summer's work.

LITERARY NOTES
"Our Own and Other Worlds," a book which has received the highest encomiums from readers, young and old, through its fascinating style and simplicity of language has for its author, Mr. Joseph Hamilton, father of Mr. Henry Hamilton, organist of St. Andrew's church. The work is recommended by men of literary fame and extensive knowledge, such as Ralph Connor, the late Prof. Goldwin Smith, L.L.D., and many members of the G.T.R., all of whom speak highly of the work.

A DAILY THOUGHT.
There is an idea abroad among moral people that they should make their neighbors good. One person I had to make good myself. But my duty to my neighbor is much more nearly expressed by saying that I have to make him happy—if I may.
—Robert Louis Stevenson.

Pimples So Bad He Was Ashamed
Tried Everything but Did It No Good. One Box of Cuticura Ointment Took Pimples Away.

Presented with a Signet Ring

Sores All Over Baby's Body
When my baby boy was six months old, his body was covered with large sores that seemed to itch and burn, and cause terrible suffering. The eruption began in pimples which would open and run, making large sores. His hair came out and flaps fell off, and the sores were over his entire body. I tried all kinds of remedies but nothing would help him, till a friend induced me to try Cuticura Soap and Ointment. I used the Cuticura Soap and Ointment but a short time before I could see any improvement, and in a few weeks time he was entirely cured. He had suffered about six weeks before we got the Cuticura Soap and Ointment, although we had tried several other things and doctors too. I think the Cuticura Soap and Ointment did all that is claimed for them, and a great deal more. (Signed) Mrs. Noble Tubman, Dodson, Mont., Jan. 28, 1911.

Cuticura Soap and Ointment sold by druggists and dealers everywhere. Send for Foster Drug & Chem. Corp., 56 Columbus Ave., Boston, U. S. A., for a liberal free sample of each, with 50¢.

MUSICIANS PRAYER.
PLAYING OF "NEARER MY GOD TO THEE" EXPLAINED.
Louisville, April 24.—That the last number, "Nearer My God to Thee," played by the ship's orchestra, just as the Titanic sank, was the musicians prayer in the opinion of E. J. Elliott, president of the local musicians union. He said there is a standing rule in the national organization, requiring bands at solemn funerals of dead members of the band to play "Nearer My God to Thee," and I believe, knowing that they were doomed as the result of their own heroism, the members of the ship's orchestra, by the commendation of their prayer to their God, giving expression to their petition in the notes of their instruments.

SUFFERED WITH BILIOUSNESS AND SICK HEADACHE.
Calgary, Alberta, July 8, 1911. I was a great sufferer for a long time with biliousness, sick headache and liver trouble. Nothing seemed to do me any good. I had almost given up in despair when I decided to try

Fig Pills
After taking about half a box the headaches stopped, my appetite was improved, and my bowels regular. I can heartily recommend Fig Pills for stomach and liver troubles.

MRS. MARY ELLISON
Sold at all dealers in 25 and 50 cent boxes of milled by The Fig Pills Co., Montreal, Que.

Sold in Lindsay by A. Highbottom, druggist.

OBITUARY.
MRS. ALBERT HORE.
The death of Mrs. Albert Hore on Thursday morning at her father's home, Pleasant Point, has caused general regret though her sudden and unexpected death. The deceased had been indisposed for about four weeks and her death in the zenith of her womanhood caused a general feeling of deep sympathy to pervade the neighborhood. To the young husband the public extend much sympathy as he had only been married about a year. She was a daughter of James Keenan, from whose place the remains were taken to Dunsford cemetery on Friday, April 26 at 3.00 o'clock p.m. Service will be held at the house half an hour earlier by the Presbyterian clergyman to which religious she belonged, and will be faithfully throughout her life. The deceased was twenty-three years of age, and besides leaving a bereaved husband to mourn her loss, she is survived by her parents, one brother Thomas, at home, three sisters, Misses Maggie and Lillie and Mrs. Geo. McCallum of Saskatchewan.

HAD WEAK AND DIZZ YSPILLS COULD NOT SLEEP AT NIGHT.
People all over this land toss night after night on a sleepless pillow, and do not close their eyes in the refreshing slumber of those whose hearts and nerves are right.
The sleeplessness comes entirely from a derangement of either the heart or nerves, or both, but whatever the cause, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber. They do this by their invigorating effect on the heart and nerves, and will tone up the whole system to a perfect condition.

CHILDREN CRY FOR FLETCHER'S CASTORIA
Mrs. A. E. Martell, Rockdale, N.S., writes:—"I was troubled for a long time with my heart, had weak and dizzy spells, could not sleep, and would have to sit up the greater part of the night, and it was impossible for me to lie on my left side. At last I got a box of Milburn's Heart and Nerve Pills, and they did me much good. I got another, and after taking it I could be on my left side, and sleep as well as before. I was taken sick. They are the best medicine I ever heard of for heart or dizzy troubles."
Price 50 cents per box, or 3 boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

A Trained Nurse's Tribute
To Wesden's Stomach and Liver Pills—Recommend Them to Her Patients.

Mrs. H. Gardner, 120 Hughson St., Hamilton, writes: "I suffered from chronic constipation for several years, and tried many remedies with no result. On the advice of my son I was persuaded to try a box of Wesden's Stomach and Liver Pills. I found them very beneficial, and they work so effectively with no unpleasant effects. I have strongly recommended Wesden's Pills to many of my patients and they all speak in the highest praise of them. I have used these pills for the past two years and never during that time have I suffered from constipation in any way."

ENGINEERS GET INCREASE.
The conference was held with Mr. W. D. Robb, superintendent of motive power for the Grand Trunk system, and Mr. Wilkinson stated that practically everything asked for was granted, and that the conference was a very friendly one, the engineers being accorded every courtesy during their sojourn in Montreal. The members of the Brotherhood of Locomotive Engineers were well pleased with the renewal of their contract, and gratified in seeing their representatives were used well by the Company officials at Montreal.

DEATHS.
BRANDON—In the Township of Verulam, on Monday, April 15th, 1912, Ray A. Brandon, aged 15 years, 10 months and 21 days.

GRANDY—On Wednesday, April 24, 1912, Edward Hanna Grandy, of Omamee, aged 60 years, 7 months, 1 day.

BIRTHS.
PERRIN—To Mr. and Mrs. Isaac Perrin, of Cameron, a son, on April 23, 1912.

PUGH—To Mr. and Mrs. Herb. Pugh, Lindsay, a son, on April 25, 1912.

GREEN—To Mr. and Mrs. F. Green, Lindsay, a daughter, on April 18, 1912.

ANDERSON—On the 11th, in Harvey, the wife of Henry Anderson, of twin boys.

TRAYNOR—On the 21st, in Harvey, the wife of Geo. Hy. Traynor, of twin girls.

OFFICIAL REPORT.
The spring freshets seem to be over. It is officially reported that the water at Fenelon Falls has started to lower and the same can be said of Beaverton Falls.
At Buckhorn there is no change either way, but a downward change will soon be noticed. The water is not rising at Young's Point. The water is coming out of Clear Lake. The water is still high in Victoria, and Haliburton counties. All the conservation lakes are full with the stoplogs all in. At Hastings the water is high but not increasing. Navigation between Lakes and Lake Simcoe will open about the first of May.

Mr. G. A. Milne Home From Sunny South
Many citizens welcomed the return of Mr. G. A. Milne home last week after a six months' trip in Florida, whither he had gone after an indisposition of several weeks. The most sanguine could scarcely anticipate such a restoration to health and vigor as Mr. Milne's appearance at the present time indicates. Bronze-tinted complexion, and a southern sun as one would after a summer outing, our townsman said to a Warder man he never felt better in his life and his avoirdupois had increased considerably.
Florida is the most southern state in the American Union and is situated on the Gulf of Mexico, which lies to the west with the Atlantic ocean to the east. The country is extremely flat, particularly in the coast region and this can be verified, Mr. Milne, said, by the fact that the famous Barney Oldfield came to Daytona beach when he became assiduous of making his star auto records. In that country people run their motor cars at fifty miles an hour ordinarily and eighty miles is not so uncommon.
Mr. Milne had a few experiences with chauffeurs who were in a mood to have records and he said it was thrilling and he supposed the machine was then travelling at about fifty-five miles an hour.
The winter season commences about November and ends in January. Invariably the winter's pass with but very slight frosts, though

NEW AUTOMOBILES FOR LINDSAY CITIZENS
Messrs. M. Robinson and Thos. Arnold, agents for the McLaughlin Buick automobiles, received a shipment of four cars Friday, and two more are expected next week. The cars have been sold to the following parties:
