FINE TONIC FOR WOMEN

PE-RU-NA FOR CATARRH

INFANT DEAD.
The infant son of Mrs. Gatrige, of Toronto, died at the home of her grandfather, Mr. Wm. McAssey, of Brickville on Wednesday morning, May 1. The funeral took place to Riverside cemetery.

MOVE TO PORT McNICOLL.
One after another the C.P.R. liners Assinibola, Kewatin, Athabasca, Manitoba and Alberta, drew out from Owen Sound Wednesday for the terminal at Port McNicoll. The departing fleet was given a hearty send-off by about one thousand citizens.

A FINE CLYDE TEAM.
Mr. W. H. Simpson, proprietor of the Hotel Simpson, has purchased a magnificent team of four-year-old bays from a farmer living near Woodville, and they have been placed on the Cornell Brewing Company's delivery wagon. The two handsome Clydes tip the scales at 2,800, and are well mated.

PLEASERS GUILTY.
Dr. J. Brown, of Owen Sound, pleaded guilty before Magistrate Cresson on a charge of procuring an illegal operation. Sentence was suspended on the understanding, it is reported, that relatives will see to it that the doctor undergoes treatment for an affliction from which he has suffered for some time. The case was heard at a special sitting of the court.

LINDSAY DISTRICT.
The annual meeting of Lindsay district of the Methodist church will be held in Cambridge-st. church, Lindsay, Wednesday, May 22. The ministerial session will open at 9.30 a.m. and the general session at 1.30 p.m. S. J. Shorey, chairman, W. Balfour, fin-sec.

PURCHASED CLYDESDALE.
Mr. John Brock, of Ops, returned from Toronto, after attending the great spring sale of horses held in the city. He purchased a fine specimen of Clydesdale, which he may keep for breeding purposes. Mr. Brock said \$450 was paid for many brood mares.

WINTERED IN CALIFORNIA.
The Watchman has received a letter from Mr. J. W. Britton, an old Lindsay boy, who at present resides in Vancouver. Mr. Britton renewed his subscription to the Watchman, and in his letter stated that he along with Mrs. Britton have just returned from Southern California, where they spent the winter.

REQUEST TO PORT HOPE.
The late Dr. Clemesha of Port Hope, who died recently, left \$10,000 to the town of Port Hope as a maintenance fund for that town's new hospital, on certain conditions, the chief one being that the hospital be erected within ten years from the date of Dr. Clemesha's death.

OBSERVE MOTHERS' DAY.
"Mothers' Day" is becoming more and more observed in the churches of both Canada and the United States and many clergymen on that day will deliver special sermons calling attention to the mother's influence in the home. "Mothers' Day" this year will be celebrated on Sunday, May 12. Wear a white carnation in honor of the event.

AN ACCIDENT.
On Monday Mr. Frank Jacque, sr., of Fenelon Falls, while driving home from Glenora, was thrown out of the rig he was in at a sharp curve in the road about five miles from the Falls, where the horse became a little unruly and upset the buggy into a hole on the low side of the road. Mr. Jacque, who is seventy-eight years of age, was badly shaken up and sustained a number of scratches and bruises, but is around again at work, though feeling pretty sore and stiff.

OBITUARY.
MR. EDWARD LYTLE.
Victoria Road, May 6.—Death has again visited our midst and removed an old and highly respected citizen in the person of Mr. Edward Lytle. Deceased who was in his 79th year was much respected and beloved by all who knew him. He was an active member of the Church of England. Deceased was born in Ireland, from which place he came to Canada, residing first in Ormenie, afterwards settling in Bexley, residing on the same farm for over 51 years. March 27, 1862, he married Miss Eliza Knight, who was called from him by death last January 2nd. While he was so ill with bronchitis that little hope was held out for his recovery. Since then he has suffered with heart trouble, pneumonia setting in April 21. He

passed away peacefully on April 25, and bore his illness with great patience. The deceased leaves to mourn his loss, seven daughters: Mrs. A. Stinson, of Janetville; Mrs. W. Fry, of Victoria Road; Mrs. Jas. Black, of Bexley; Mrs. Jake Loves, of Ormenie; Mrs. A. Ryckman, of Cobocok; Mrs. S. Dowson, of Bowmanville, and Miss Mabel Lytle at home; also four sons, Messrs. J. W. Edward, of Victoria Road; Mr. Albert, of Toronto and Mr. Fred at home; and one brother and sister. The funeral on Friday was largely attended, interment taking place at St. Thomas cemetery. Rev. Mr. Gandier, of Cobocok, and his brothers of the Masonic order, conducted service at the church and grave. Heartfelt sympathy of the neighborhood is extended to the whole family in their bereavement.

Pressing Needs of Child Protection

"Two of the most pressing needs in the work of child protection," writes J. J. Kelso, superintendent of neglected and dependent children for Ontario, "are the better care of defectives and some provision for the support in their own homes of the children of widows and deserted mothers."

"There are many defectives who are at present allowed to drift on in their own surroundings, a burden and a menace, greatly imposed upon and growing up to reproduce the same defects in their offspring. Regarding the second class, experience in this work amply bears out the belief that our reform schools and prisons are largely recruited from the children of respectable but destitute mothers, and that if there were some adequate methods of helping these deserted or widowed mothers, their children would grow up in a normal way to become useful and industrious citizens, adding by their labor to the wealth of the community rather than becoming an expensive addition to the dependent classes."

"If only the general public could understand these needs as the practical workers in the children's cause do, the remedy would soon be provided."

The Imported Clydesdale Stallion

SIR BEN

Bred by Peter Algies, Old Mains, Renfrewshire, Scotland
PRESENT OWNER

EDWARD COSTELLO
WHITE HOUSE, FARM, DOWNEYVILLE

Sir Ben (5406), (12739), Vol. 14, sired by Sir Simon (5406) (10465) he by Sir Everard, he by Top Gallant and Top Gallant by Darnley. First dam Lily of Old Mains (7444) Vol. 27; sire of dam, Kyles of Bute (7896) Vol. 12. Second dam Nancy (3966), sired by Darnley (222), Vol. 1. Third dam Jean by Scotsman (759) Vol. 1. Fourth dam Lily by Prince Royal (647), Vol. 1.

Sir Ben is a dappled brown with stripe on face and four white feet. He stands 17 hands and weighs about a ton. Sir Ben is a great producer and it is claimed by those who are in a position to know that he has left more high-class colts than any stock horse of his time. His progeny are of good size and conformation thus proving the great producing families from which this horse came—the Darnleys and Sir Everards are counted amongst the first in Scotland.

Sir Ben will stand at his owner's stable all week except Friday afternoon and Saturday when he will be at the King Edward Hotel, Lindsay.

Owing to the less expense of not routing this stallion, I am able to reduce the fee to insure a foal, \$10, giving my customers the benefit of the same. All accidents at risk of owners of mares.

SUTCLIFFE'S SPRING GARMENT AND HOUSEFURNISHING SALE

Commences SATURDAY Morning, MAY 11th

A sale that offers you splendid money saving opportunities on garments and things for the home just when you are requiring them. Special Sale of window shades, curtains, rugs, linoleum remnants

Fierce Electrical Storm—House at Victoria Rad Struck

A heavy thunder storm passed over the village of Victoria Road Tuesday night, which lasted for several hours. The wind and rain was made terrific by the sharp peals of thunder that reverberated, and appeared to shake the buildings to the very foundations. The inky darkness of the night was lighted by sheets of the electric fluid, which seemed to hang in golden chains from sky to earth for many seconds at a time. Only one building at Victoria Road received a stroke, which knocked the west gable of the building out. The residence was occupied by two families, one being Mr. J. S. McCaughey and the other the foreman of the cement works. Fortunately none of the members of the household were near the portion of the building struck or they might have received a deadly shock from the much dreaded element of nature. The building is owned by Mr. Meyers. —Mr. A. J. Campbell left for Bobcaygeon this morning on a business trip.

Greater Than The Titanic

London, May 7.—Two new liners for the White Star Company are at present under construction at the yards of Harland and Wolf, Belfast. One of these vessels, the keel of which was laid several months ago, will be nearly twenty feet longer than the Titanic, and will be fitted and finished throughout on the same imposing scale as were the Olympic and Titanic. In view of the loss of the latter, the work of completing this new vessel will be accelerated. Every available man in the Queen's Island works is engaged in order to have the liner finished as soon as possible. It will be over a year before the new ship will be completed and sufficient time will be afforded to embody the latest details regarding lifeboats and other life-saving appliances which the board of trade may direct after the forthcoming inquiry.

FOR GOOD ROADS.
The little County of Halton is to spend \$300,000 in making one hundred miles of good roads. York, too, has started on an extensive system of improvements which it should have done long ago. The movement for better roads grows slowly but somewhat steadily.

The horse rule debate was resumed in the House of Commons.

The Queenly Hen

Everybody will have to take off their hats to the hens at the Ontario Agricultural College. That these classy fowls have got the whole wide world beaten in the matter of egg production, is revealed in the report of the minister of agriculture for the year ending Oct. 31, 1911. "It is a well-known fact," says the report, "that 200 eggs in a year from one hen is a splendid record, and one seldom attained. Yet of 53 barred rock pullets of the bred-to-lay type, 13, or nearly 25 per cent, surpassed his high mark. The top record was 282, the showing of the first half dozen being 282, 268, 256, 252, 243, an average of 259.5 in a year. This record, it is understood, has not been surpassed anywhere on the continent, or, for that matter, in the world." For the whole 53 pullets, the average for the year was 174, a total of 9,204 eggs. "An experiment was carried on with a view to a comparison between 23 bred-to-lay pullets and 23 exhibition pullets. The bred-to-lay pullets laid 1,082 eggs more than the exhibition variety and at the same time consumed appreciably less food. On the other hand, the exhibition type were larger, we giving six to eight pounds each in comparison to five to six for the bred-to-lay type. At the same time the bred-to-lay mature more quickly and reach a six-pound weight in a shorter time. Not one of the exhibition type produced over 200 eggs, and only five over 150. Four of the bred-to-lay produced over 200 eggs each and 11 over 150."

Town Topics

THE REFUGE.
The dictionary meaning of the word "Refuge" is a shelter or retreat, that which affords protection. The house of refuge is the home, provided by the county, for the aged and destitute and those in any way unable to care for themselves. Here is provided a home while life lasts. The rising bell at 6.30 o'clock summons all to breakfast. Those who are able then proceed to the tasks for the day assigned them. Some of the inmates help in the kitchen, others do the sweeping, some in the gardens, or scrubbing of the floors, which task is done twice a week. For those who are able-bodied, there is little leisure time, and all are kept healthy and happy by being so employed.

On coming to the institution from the world outside, all the inmates bring with them their characteristics, and idiosyncrasies, which are very apparent, and indicate in a great measure what the former life may have been. Many of the aged people have the gentle and kindly manner of greeting the stranger that betray the fact that they were at one time in much better circumstances, and still retain the kindly graces of former years.

The reasons shown as the looks for their presence, are principally the fact that they are in destitute circumstances, having a weak intellect or are intemperate. But the cause is chiefly, if indirectly, attributable to intemperance. Whatever the cause, they are receiving the care and patience with their philanthropists, and help that they so much need. And as they

tread the downward path to the grave, the comfort afforded, though sometimes scant, is cheerfully given, and all is done possible to make their declining years as pleasant as will their hands and kindly hearts can make them.

THE FLY PEST.

Dr. Hastings, medical health officer of Toronto, advocates offering premiums to children for the largest number of flies killed or caught during the month of May and June. The importance of destroying them now will be seen when he says that it has been demonstrated that one fly that has come through the winter safely will become the progenitor of 5,500,000 flies in five months' time. The increase in typhoid fever in the late summer and the early autumn months is attributed by him largely to the housefly. "Swat the fly."

WILL IT COME TO THIS?

Those who marry must be sound both in body and in mind. That's the stern decree. To me, fate is most unkind; For I love a girl so well; That to marry her I'm longing; But how can I? Truth to tell, Doubts within my soul are thronging!

Love, they say, is a disease Mine's incurable, I know. Therefore tell me, if you please, How to science I can go And secure permit to wed! Single am I willy-nilly, For I'm full from love to head. Of undoubted heel bacilli!

If I had a hacking cough Or a fever fierce and high, Like a garment I could doff The disease and blithely fly To the person with my Kate. There to wed—for she is willing, But how cure my love! Oh, fate! This suspense is simply killing!
