The opening of spring brings the usual dearth of farmers, who are usually engaged putting in the spring crop and figuring out how many calves and porkers they will be able to raise during the summer. The farmer these days is the busiest man in the world, and he who follows his daily toil has no leisure—so far as hard work goes—but he has what many another toiler has not; that is, plenty of fresh air, the sunshine, and freedom.

Warden Bottom was called away yesterday to attend a meeting of the township council at Mara, to straighten out the ruffles over the bridge over Mud Lake in Carden Township, and with his usual diplomacy succeeded, so far as we are informed, in putting things smooth, so that the bridge can be built satisfactorily to all concerned.

Strikes in 1912.

The loss in working days from strikes in 1912, according to the Department of Labor's record, was only about half the similar loss in 1911, though amounting to over 1,000,000 days. This covers the whole of the Dominion. There was a greater number of strikes, although they involved only a small number of men. Together 40,500 employees went out on strikes in 1912. The Industries Disputes Investigation Act applies to disputes in industries involving public utility and practically all the above mentioned disturbances were outside its jurisdiction. Altogether about 19 threatened strikes were referred under the act of 1912, settlements being thereby effected in all but three cases.

Bread Making To be successful naturally demands a high grade flour. That's exactly what the now celebrated product of the Victoria Mills is—a high grade, satisfaction giving, fine bread-making flour. Good reason—good wheat and lots of it. Also good milling. Ask any baker about "Gold Medal," and "Baker's Queen." At all grocers. Jos. Maunder & Son Grain, Flour, Feed, Coal and Wood. Converts Always Enthusiastic. It is seldom that anyone attempts to tell a story in the Commons chamber. Possibly the sight of Speaker Sproule grimly presiding over the duties of the House dispels all thoughts of humor, and it's only the more venturesome spirits like Dr. Michael Clark, of Red Deer, who occasionally take up the role of humorist. In the recent debate on the trade agreement with the West Indies, Dr. Clark twitted Mr. Foster, who had charge of the bill, with deserting from his allegiance to the "home market." It reminded the man from Red Deer of two Scotchmen who were out riding one day, and met a man whom they both knew. The Scotchmen had always seen this man in kilts, but upon this occasion he was observed to be wearing an extremely wide pair of trousers. One of the Scotchmen commented upon the strange circumstance, and his companion replied: "Converts are always enthusiastic." Strikes in 1912.
