**GRATEFULLY RECEIVED.**

The Children's Aid Society takes great pleasure in thanking the local branch of the Women's Institute for the very helpful gift of \$10, to be used as the society thinks best in caring for the neglected children.

**ANNUAL MEETING.**

The annual meetings of the Women's and Farmers' Institute of East and West Victoria takes place in Lindsay June 25th.

**FINE DROVE OF CATTLE.**

Mr. M. O'Halloran headed a fine drove of thirty beef cattle up the main street Wednesday about 9.00 o'clock. The animals were all two years old, purchased at the Toronto cattle market, and would average about 1,100 lbs. each.

**A GOOD IDEA.**

Fort William Board of Education has appointed a teacher, one of the best on the staff, to look after a class of children, who are defective either physically or mentally, children who are not able to keep pace with their normal companions in learning.

**SUNDAY TRAIN.**

An improvement is to be brought about by the C.P.R. in the schedule of the Toronto-Bobcaygeon train known as the Kawartha week-end special. Instead of leaving Toronto at 1 p.m. Saturday, as was the case last season, this train will not leave until 1.30 p.m. This allows a business man to stay at his office until after 1 p.m. Returning from here the train arrives in Toronto at 9.40 p.m. Sunday.

**PREBYTERY MET.**

At a meeting of the Lindsay Presbytery, held yesterday in St. Andrew's Church, Mr. Ewan Macdonald, of Leaskdale, was elected moderator for the next half year. The Presbytery has appointed a committee to arrange a program for the discussion of "The Problem of the Country Church," at a special meeting to be announced later. Mr. W. C. Moore, of Bobcaygeon, has been appointed treasurer, in the place of Mr. H. Baldwin, who resigned after holding the position for several years.

**HOW WILD RICE IS HARVESTED.**

A report from the American consul at Kingston, Ont., give a graphic account of the wild rice harvested, which was in progress at the time of writing along the shores of Rice Lake, lying a few miles north of Cobourg. Here as in other parts of southern Canada, and in Minnesota and Wisconsin, the gathering of wild rice is the peculiar prerogative of the Indians, who from time immemorial have used this grain as one of their principle foods, besides selling it to the whites. In pioneer days it was a common food of the European settlers, especially those engaged in the fur trade. In more recent times it has come to be regarded as a luxury by white people, as it sells for two or three times as much as ordinary rice. Chicago is still an important market for wild rice.

It is asserted that the Japanese already own over 50,000 acres in California and lease 400,000 more. A married woman thinks she is being neglected unless her husband lets her buy his socks and ties.

**OBITUARY**

**LAUGHLIN D. McINNIS.**  
The death of the late Laughlin D. McInnis occurred on Monday, May 13th, at his home on the 6th concession of Eldon. Deceased having been suffering from cancer of the face for some time. His death was not unexpected. He was of a quiet and kind disposition and was well liked by all who knew him. He was a Presbyterian in religion, a Conservative in politics. The funeral service was conducted at the house by the Rev. S. G. Steele, of Glenora, also by L.O.L. No. 935, of Glenora, the deceased being a member for twenty-eight years. He was 57 years of age. Interment took place in Eldon cemetery followed by a large concourse of sorrowing friends and relatives.

**MRS. PERCY NEITHERCUT.**  
A very sudden death occurred in Dundalk on Friday morning, when Mrs. Percy Neithercut passed away without warning from heart failure. Mr. Neithercut had left the deceased in apparent good health about six o'clock and had gone down stairs. After starting the fire he went to the stable. His sister, who was sleeping in an adjoining room, heard moaning about fifteen minutes later, and on investigating found Mrs. Neithercut lying across the bed partly dressed. She hurriedly called Mr. Neithercut who ran upstairs, but life was extinct when he got there. Dr. Martin was also there in a few minutes, but too late to render any aid. The deceased, who was 35 years of age, was formerly Miss Lillian May Archambault, and was the daughter of the late Mr. and Mrs. Louis Archambault of Lindsay. She was married to Mr. Neithercut in Toronto, last Christmas day and they had one child, a daughter, Miss Lillian May. Besides the sorrowing husband she is survived by two brothers, Louis and Arthur in Toronto, and two sisters, one in Toronto and one in Calgary.

The funeral took place Sunday morning to Dundalk cemetery, Rev. Herbert Lee officiating. The pallbearers were the two brothers of the deceased, Mr. W. H. Miller, a brother-in-law, Mr. Rich. Savigny, a cousin, and Mr. Neithercut's two brothers, Thomas and Joseph.

**Now is the Best Time of Year for Preserving Eggs**

This is said to be the best season of the year for preserving eggs, and the poultry department of the New York state college of agriculture at Cornell university gives the following directions for preserving eggs in water-glass. This material has proven to be one of the most satisfactory methods for general home use.

The commercial water-glass solution may be obtained from any drug store at a cost of about twenty-five cents per quart. Mix 1 1/2 quarts of this solution with eighteen quarts of pure water. Water which has been boiled is preferable. Stir these undisturbed during the year. Two 16-oz. jars are sufficient for 30 dozen eggs, using the amount of solution as prescribed above. After the water-glass is thoroughly mixed, divide it into the different vessels to be used. Be sure that the vessels are absolutely clean. Place the eggs into the water-glass, see that the top eggs are covered by at least two inches of the liquid and cover the jars to prevent evaporation. Place them in a cool place where they will be undisturbed during the year. Preserve only absolutely fresh eggs. Stale eggs will not keep in any preservative. Have your preservative ready to put the fresh eggs into as you get them. If you are in doubt as to their freshness, candle them, or see if they sink when placed in a dish of water. If an egg sinks it is reasonably fresh. Do not preserve dirty eggs nor eggs which have been washed. The washed eggs will not keep satisfactorily because the shell has been moistened and the natural covering removed, and the dirty eggs are liable to become tainted in flavor. Do not use the same liquid preservative more than one year.

Water-glass eggs are practically as good as fresh eggs for most cooking purposes. If it is desired to boil them prick a small hole through the large end of the shell before placing them into the water. The pores of the shell have been sealed with the water-glass solution and without this pin hole the expanding air within the shell would burst it.

You can not prick a man's conscience if it isn't big enough to make a hole in it.

Truth is the best argument.
